

Public and Teachers

As a vibrant, multicultural centre of excellence we offer many ways for people of all ages and interests to get involved with the University.

From the arts to the sciences, you're sure to find a host of events and opportunities throughout the year, from world-class music and film programmes to dynamic, interactive science activities.

Our young people's and schools activities work to inspire, stimulate and encourage the students and leaders of tomorrow while supporting teachers in and away from the classroom.

Whatever your interest and your reason for engaging with us, we hope you find much to inspire you - and to enjoy.

- Opportunities for Everyone
- Families and Children
