

# Challenges for Oil and Gas

The Legal and Regulatory Dimension

### Welcome

Selamat datang! Welcome to the University of Aberdeen's inaugural law conference in Jakarta. We have worked closely with our alumni chapter to bring you a programme of workshops and panel discussions that we hope will address in a positive way the challenges facing the UK and Indonesia as producer nations in this current climate of global oil price uncertainty.

I am delighted that we are joined by such distinguished Indonesian academics and professionals to discuss the contribution that law and regulation can make to overcoming these challenges. I am hopeful that this collaboration is one that will last beyond today's conference and to that end I would encourage you to join us at our dedicated conference website: www.abdn.ac.uk/jakarta to continue the discussion. Enjoy the day!
