

Appendix 7 - Example of a student recording sheet

An idea from Carden Place medical group - could be given to a student observing consultations in the first week of their attachment.

CARDEN PLACE MEDICAL GROUP: PHASE III STUDENT ATTACHMENT

The presentation of illness in general practice is varied, and as you shall see, differs considerably from that in hospital. Over the next two days, please record the information as outlined below; to assist in creating the context of primary care.

Please record the number of patients presenting during normal surgeries in the various categories:

Males:

Females:

Age Range:

0-5

5-16

16-30

30-65

65+

System disorder:

Respiratory

Cardiovascular

ENT

Dermatology

Gynaecology

Psychiatric/Psychological

Gastrointestinal

Others

New presentations:

Review of previous problems:
