

### HOW TO USE THE TOOLBOX

Welcome to your role as an Honorary Clinical Tutor with the Centre of Academic Primary Care (CAPC), University of Aberdeen.

We hope this toolbox is a useful resource, one that you can dip in and out of; it is not meant to be an exhaustive list of reading but instead a helpful reference point, offering useful tips and ideas.

This toolbox was developed in response to needs expressed by tutors who had students attached to their practice from the University of Aberdeen, CAPC. It is based on ideas expressed by the tutors at a series of conferences in 2005-06. The desire was to share ideas and best practice in teaching medical students in the community. As this toolbox is about sharing best practice we will always be open to new ideas and contributions!

Please feel free to photocopy / adapt any ideas, timetables etc to suit your teaching and your practice. It is hoped to be a good reference resource that you can dip in and out of and hopefully find little gems of inspiration and guidance!
