SKILLS

Administration

Extensive experience in working below-the-line in production across several projects at university. Specifically, in the WayWORD festival I was responsible for arranging supplies, equipment, travel and accommodation for speakers from across the UK. Some of the team worked freelance on the festival and it was my job to ensure that minutes of all meetings were taken and circulated and to book venues across Aberdeen city.

Production support

Currently I am working to support a fellow student on their creative project ('short') as part of the Filmmaking society. This role sees me work with other members of the crew including writers and directors. During my master's degree I have learnt how to write detailed and accurate camera reports and collaborate closely with team members to support one another on projects.

Networking

In the first week of my master's course I set up a WhatsApp group to encourage communication and have been very successful as class representative in collecting feedback to relay to department staff with whom I also have positive relationships. I am an energetic person and always curious about different kinds of work and other people's experiences therefore I take time to get to know those around me and understand their strengths as everyone has something to offer.

PROFESSIONAL MEMBERSHIPS

Associate Member of the George Washington Wilson Centre for Research in Art and Visual Culture.

ACHIEVEMENTS

Class Representative | Aberdeen University Students' Association | September 2025 – present

- As class representative for the course 'Research Methods in Film and Visual Culture' I was elected to provide a vital link between staff and students, fostering and maintaining open dialogue to improve the student learning experience.
