## Term Dates

**Winter Term**  
 Postgraduate Research Students  
 Commence on 1st October 2013

Postgraduate Taught Students  
 24th September 2013 – 20th December 2013

**Spring Term**  
 13th January 2014 – 21st March 2014

**Summer Term**  
 14th April 2014 – 13th June 2014

Please note these term dates may be subject to change.

# A word from our Principal

**As Principal** I would like to welcome you to the University of Aberdeen's Prospectus for Postgraduate Courses and Programmes in 2013/2014.

**Since 1495 the University of Aberdeen has been respected the world over for the high quality of its teaching and research but never more so than today. All the available indicators of teaching, student satisfaction and research place Aberdeen in the highest echelon of UK universities and one where both teaching and research are valued equally.**

In the most recent UK-wide Research Assessment Exercise around 90% of the research conducted at Aberdeen was of international quality. At Aberdeen you will be joining a vibrant and stimulating scholarly community where teaching is informed by staff who are engaged in world-leading research. The University is equally committed to providing you with the very best in support services and facilities. In recent years over £260 million has been spent on new facilities for students with a further £185 million of investment planned for the years ahead. Two examples of the kind of world-class facilities you will find are the newly opened Olympic standard Aberdeen Sports Village and our new Library which opened in September 2011.

As well as giving students a wonderful educational experience, the records show that after leaving Aberdeen our graduates are highly sought after by employers. In the past few years we were one of the first universities in Britain to redesign our curriculum in partnership with students and employers to ensure that Aberdeen graduates are equipped to face the challenges of the 21st century.

Choosing a university is a very important decision. When I made the decision to join Aberdeen as Principal I did so because I was inspired by the story of a university that for over five centuries had made an impact on the world and which had enabled people to fulfil their academic potential. There is an atmosphere here where a shared sense of pride in the University's past achievements sits at one with an ambition to make the next chapter in its history an even more successful one. That makes Aberdeen an exciting and very special university to be part of.

It's why I chose Aberdeen. I hope you will too.

**Professor Ian Diamond**  
Principal and Vice-Chancellor

**Founded in 1495**

16,000 students | 120 nationalities

**Ranked in world**

***top 1%***

Olympic standard sports village

**Libraries with over  
1,050,000 volumes**

Over 150 sports clubs and societies

**Five Nobel Prizes**

**91%** of graduates enter directly  
into work, further study or  
training within six months

**Over 140** | **Largest wireless  
campus in Europe**  
taught masters programmes

**Research Skills  
Training**

**In excess of £270 million investment**

**90% of research activity  
of international quality**

# Investing in your Future

1495 1505 1892 1921 1999 2003 2005 2009 2011 2014

The University is founded by William Elphinstone, Bishop of Aberdeen and Chancellor of Scotland, with the ambition "... to found a university, which would be open to all and dedicated to the pursuit of truth in the service of others". The University of Aberdeen becomes the UK's fifth oldest university.

The University opens with 36 staff and students, having eight years earlier boasted the first chair of medicine in the English-speaking world. The University embraces all the known branches of learning - Arts, Theology, and Canon and Civil Law.

The University opens all Faculties to women and in 1894 the first 20 matriculated female students begin their studies. Four women graduate in arts in 1898; by the following year, women make up a quarter of the Faculty.

The first of five Nobel Prizes is awarded for work begun or carried out at the University. Inventions include the life-saving drug insulin and the development of Magnetic Resonance Imaging (MRI).

The University launches its ambitious fundraising campaign with the aim of raising £150 million to mark the start of the University's sixth century of existence. In 2004 this continues with a £9 million investment programme to appoint exceptional academics to the University, thereby strengthening the intellectual capital of the institution.

The Institute of Medical Sciences at the Foresterhill campus is completed. The custom-built Institute provides state-of-the-art facilities for medical researchers and their students. Six years on, the Suttie Centre, the new training centre at the heart of the academic and hospital campus, opens for the modern teaching of anatomy linked to other medically-related sciences.

The University celebrates 500 years of teaching and learning and The Old Town House on King's College campus is transformed to become a visitor gateway to the University and Old Aberdeen. In 2006, an £8 million renovation project sees the enhancement of student facilities on campus. "The Hub" boasts a superb range of services, including dining, retail and drop-in centres for the student community.

The University's first-class sports and leisure facilities are further boosted by the opening of the newly developed Aberdeen Sports Village, a £28 million Olympic standard sports centre highlighting the University's commitment to sustaining sporting excellence.

The University's new £57 million library opens to students and the wider community. The library is established as a major intellectual and cultural learning centre for students in the 21st century.

The new Aquatics Centre will open. The centre will provide a first class training and competition venue for elite athletes and offer a community facility that will encourage participation in water-based activities at all ages and abilities. The world-class facility will include a 50-metre, 10 lane Olympic-standard swimming pool, an international-standard diving pool with moveable floor and a health suite. It will be located adjacent to Aberdeen Sports Village.

**The University of Aberdeen is the UK's fifth oldest university with an academic reputation spanning over 500 years. Forward-thinking, Aberdeen is at the cutting-edge of research.**

**THE DIFFERENCE IN**

# **History & Excellence**

# History & Excellence

- > Established 1495
- > Ranked in world top 1%
- > 90% research activity is of international quality
- > £28m sports facility
- > £57m new library

### Leading in the 15th Century

The University of Aberdeen is Scotland's third oldest university, founded in 1495 as Columbus was opening up the New World and the Renaissance was spreading throughout Europe.

William Elphinstone, Bishop of Aberdeen and Chancellor of Scotland, established King's College to train doctors, teachers and clergy for the communities of northern Scotland, and lawyers and administrators to serve the Scottish Crown. This fledgling university boasted, from 1497, the first chair of medicine in the English-speaking world.

Picturesque and historic Old Aberdeen - home of Elphinstone's original foundation - is now the main University site. The 15th century remains very much alive in King's College Chapel, which is still in regular use, offering an oasis of peace, beauty and a sense of history in the daily life of a university now focused on the needs of the new millennium.

### Leading in the 21st Century

The University of Aberdeen, with over 500 years of achievement behind it, has survived because it has responded to changing times. The University is renowned for its historical continuity, richness and diversity, while maintaining a modern and dynamic approach to serving the needs of the 21st century.

As you would expect of a university dedicated to excellence in teaching and learning, you will be taught by people who are at the forefront of research in their particular fields. In the most recent Research Assessment Exercise (RAE), 90% of Aberdeen's research activity was assessed to be of international quality and 55% world-leading or internationally excellent.

### Innovation and Excellence

Five Nobel Prizes have been awarded for work carried out or begun at Aberdeen - Frederick Soddy (Chemistry), Richard LM Synge (Chemistry), Sir George Paget Thomson (Physics) and JJR McLeod (Medicine) - McLeod being jointly credited with the invention of the life-saver insulin. Lord Boyd Orr, first Director of the Rowett Institute and

Professor of Agriculture from 1942-45, was awarded the Nobel Peace Prize in recognition of his contribution to the worldwide fight against hunger. Aberdeen has a tradition of innovation and distinction in the medical sciences. A key role was played in the invention of Magnetic Resonance Imaging (MRI) and the discovery of enkephalins, both of great importance. Major advances in surgery, obstetrics and tropical medicine are also associated with the University. The University is continuing to fulfil its mission to 'maintain and enhance its distinctive contribution to society in a regional, national and international context' through its programmes of education and professional training, by fostering 'the disinterested pursuit and dissemination of scholarship' and by promoting excellent research programmes. Graduates of the University have influenced the politics, culture and education of all corners of the globe. Today, this tradition continues as students coming to study and live in Aberdeen return to their own communities, enlightened and empowered by what they have learned at this highly successful institution.

### A Choice Environment

At Aberdeen you will find ancient buildings side by side with modern, newly refurbished, first-class laboratories, excellent computing facilities and the latest library technology. The student population, which has almost equal numbers of men and women, has a lively sense of community and belonging. Social and sporting facilities are outstanding, and the University is situated close to superb countryside and coast, with hillwalking, mountaineering and canoeing, as well as a cosmopolitan city centre - all in an area rich in historic and natural interest, boasting some of the most dramatic scenery in Scotland.

For more information visit [www.abdn.ac.uk/about](http://www.abdn.ac.uk/about)

# College of Arts & Social Sciences

**The College of Arts and Social Sciences delivers excellence in graduate education through a community of eminent scholars internationally recognised for their innovative research and intellectual reasoning. With over 400 academic members of staff, 100 postgraduate degrees and 1,500 graduate students from over 100 countries, the College is a cosmopolitan environment which is popular with students from all over the world. Whether you are joining us as a recent undergraduate or have chosen to return to study after some years, you will find the College a welcoming environment which caters for each individual's desire to learn.**

## Schools

The College of Arts and Social Sciences is comprised of six Schools: **Business; Divinity, History and Philosophy; Education; Language & Literature; Law; and Social Science**, all of which offer an impressive range of opportunities for graduate study.

The **Business School** is distinguished by its specialisation in topics such as Accountancy and Finance, Economics, Management and Real Estate and delivers practical leadership and intercultural skills through its MBA programmes. Evidence of its world-leading expertise is found in the 2008 Research Assessment Exercise, a nationwide process which evaluates the quality of research in the United Kingdom. 100% of Economics research, 90% of Real Estate research and 80% of research in Business and Management (including Accountancy and Finance) were judged to be of international quality.

The **School of Divinity, History and Philosophy** has a thriving graduate culture with over 80 doctoral students. It is comprised of Divinity and Religious Studies, History, History of Art and Philosophy and has fostered the development of the **Centre for Global Security and Governance** and the **Centre for Scandinavian Studies**, among others. It is also a major contributor to the Research Institute of Irish and Scottish

Studies. The School's excellence in research is evident from the most recent Research Assessment Exercise, where the Divinity and Religious Studies discipline was ranked 1st in the United Kingdom and where History was ranked 1st in Scotland.

With a history of teacher education which can be traced back to 1873, the **School of Education** has an impressive pedigree in the initial professional training of teachers and a commitment to research-led teaching in the context of 21st century needs. Research activity within the School is enhanced substantially through the provision of postgraduate degrees at MEd, MPhil and PhD levels, degrees in Music and through active research centres. The School is particularly proud of the recent achievements of one of its colleagues, Professor Paul Mealar, with the inclusion of his composition *Ubi Caritas* in the wedding of Prince William and the Duchess of Cambridge.

The **School of Language & Literature**, whose English Language & Literature discipline had 65% of its research rated as world-leading or internationally excellent and whose French discipline was ranked 1st in Scotland, leads the way in Celtic, English, Film and Visual Culture, Language & Linguistics and Modern Languages. The School is also a significant contributor to the **Research Institute of Irish and Scottish Studies** and the **Centre for Citizenship, Civil Society and the Rule of Law** and has a thriving academic community, of which students form a crucial part. The diversity of the academic disciplines in the School means there is a diverse range of taught postgraduate programmes as well as the potential for uniquely interesting PhD thesis topics.

The **Law School**, which has a long tradition of legal research and writing, is ranked first in the United Kingdom by the *Times Good University Guide* for graduate prospects. It achieves consistently high scores for student satisfaction, which is illustrated by its 95% satisfaction rate in the latest National Student Survey, one of the highest for law schools in the United Kingdom. Its renowned taught postgraduate programme, the LLM, continues to attract top-class students from around the world from over 20 different countries, as does the research version of the LLM and the PhD programme.

The **School of Social Science** completes the academic profile of the College, comprised of Anthropology, Politics and International Relations and Sociology. These disciplines make significant contributions to institutional research priorities, including the University's 'The North' research theme and the externally-funded dot.rural project. All three disciplines offer unique postgraduate courses as well as established research degree programmes. Its **Centre for Gender Studies** with its exclusive MSc in Sex, Gender and Violence: Contemporary Critical Approaches contributes further to the vibrant intellectual profile of the School.

## Programmes

The College of Arts and Social Sciences has a diverse portfolio of taught and research postgraduate degrees. Taught programmes include the Master of Education (MEd); Master of Laws (LLM); Master of Letters (MLitt, a degree unique to the ancient universities of Scotland); Master of Science (MSc) and Master of Theology (MTh). Research programmes include the one-year Master by Research (MRes) and Master of Laws by Research (LLM), the two-year Master of Philosophy (MPhil) and the three-year Doctor of Philosophy (PhD). Intensive taught programmes of study include the much sought-after Master of Business Administration (MBA), the Professional Graduate Diploma in Education (PGDE), and the Diploma in Professional Legal Practice (DPLP). In addition to its September intake, the College also offers some programmes for January admission.

The College continually reviews and develops its portfolio of Masters programmes to suit the needs of today's graduates. Many programmes are interdisciplinary and provide graduates with the opportunity to acquire knowledge and develop skills in distinctly different areas, such as the LLM in International Law and Strategic Studies, the MLitt in Art and Business, and the MSc in Management, Economics & International Relations.

At the postgraduate research level, the College promotes excellent research in all its disciplines and provides a framework in which multi-disciplinary research can flourish. The College has many unique and prestigious research centres including the **Research Institute of Irish and Scottish Studies**, the **Elphinstone Institute**, and the **Northern Institute of Philosophy**, all of which contribute to its intellectual strength. The success of research in the College contributed to the University's strong performance in the 2008 Research Assessment Exercise, leading to a Research Power ranking of 29th in the United Kingdom and 3rd in Scotland.

Based on the nationwide 2008 Research Assessment Exercise, *The Guardian* ranked nine disciplines in the College of Arts and Social Sciences in the top 20, including:

- **Divinity & Religious Studies - ranked 1st**
- **French - ranked 5th**
- **Anthropology - ranked 11th**
- **History and Sociology - both ranked 14th**

14 disciplines were rated in Scotland's top five, including:

- **French, History and Divinity & Religious Studies - all ranked 1st in Scotland**
- **Anthropology and Sociology - both ranked 2nd**

The College wishes to contribute further to the success of the University of Aberdeen and as such it wants to attract the best research students from across the globe.

## The Graduate School: A Central Focus

The students of the Graduate School are an integral part of the College. As a group of over 1,000, they comprise about 1 in 6 of the students in the College and account for half of the University's postgraduate population. The most important role for the Graduate School is to support its students, their supervisors and the wider academic community in striving to ensure the success of every step of a student's postgraduate career, from application through scholarship allocation to registration and, ultimately, graduation. For more information on the Graduate School please visit its dedicated website at [www.abdn.ac.uk/cass/graduate](http://www.abdn.ac.uk/cass/graduate)

## Training and Support to Enhance Employability

The College actively contributes to the **Research Skills Training** programme which has been designed for postgraduate research students at the University of Aberdeen.

The programme includes courses which are designed to help maximise generic and employability skills as well as those designed to develop skills specific to different academic areas. These academic areas also provide the opportunity for students to effectively engage with their own subject speciality in order to foster dynamic and informed academic debate. In an informal setting, students and staff present research findings and preliminary academic papers, thereby preparing students for presentation at national and international conferences.

## Excellent Facilities and Resources

The College aims to create an environment conducive to the highest quality teaching and research. Consequently, the College endeavours to provide all doctoral students with their own dedicated workspace. Hot desk facilities may be available to students who are pursuing a Masters by Research.

Students have access to an excellent library and electronic management system, both of which improved even further with the 2011 opening of the new University Library. At present, the University's Historic Libraries and Archives has in its care about 150,000 pre-1840 books, special named collections such as the outstanding MacBean Jacobite Collection, the Lewis Collection of Barth Literature and the Biesenthal, Daube and Burghart Collections, some 3,000 manuscript collections and substantial regional and University archives. These collections are of exceptional value and interest and offer almost limitless possibilities for those who wish to pursue a research degree.

## Scholarships, Studentships and Bursaries

Funding opportunities for each academic year are advertised on the College's Graduate School website [www.abdn.ac.uk/cass/graduate](http://www.abdn.ac.uk/cass/graduate)

Both current and prospective graduate students are encouraged to visit the University's Funding Database to investigate a wider range of potential funding opportunities [www.abdn.ac.uk/funding](http://www.abdn.ac.uk/funding)

The College is dedicated in its commitment to postgraduate students and endeavours to support a significant number of outstanding students every academic year. It is hoped that the establishment of research projects, around which scholarships are allocated, will draw even more academically outstanding students to the University of Aberdeen and its scholarly environment where research can really flourish.

## College of Arts and Social Sciences Graduate School

# College of Life Sciences & Medicine

**The Graduate School of the College of Life Sciences & Medicine supports all postgraduate students in the College. Working within a culture of excellence, the Graduate School is committed to promoting the dynamic link between its teaching and research. It provides a supportive environment that works to the highest standards to promote postgraduate research and scholarship across the academic disciplines within the College.**

As a new postgraduate student in Life Sciences & Medicine, you will join a friendly and lively community. There are around 250 MSc postgraduates and 350 postgraduate researchers, who make a vital contribution to the activities of the College.

The College has major research facilities required for modern molecular and cell biology, biological sciences, psychology, biomedical sciences, medical and health services research. There are a wide range

of specialist core facilities that support research (e.g. microscopy, DNA synthesis and sequencing, protein characterisation, mass spectrometry, proteomics, flowcytometry and cell culture).

Individual research laboratories are well supported and are equipped to an exceptional standard with state-of-the-art equipment and computing facilities. There are also extensive opportunities for field-based work in the UK and overseas, including research in the College's field centres at Ocean Lab and Cromarty. For further details of courses and research areas please see the Graduate School website.

#### School of Biological Sciences

The School undertakes teaching, research and outreach across the full spectrum of the biological sciences, spanning from gene to ecosystem, across terrestrial, marine and aquatic realms, and encompassing both theoretical and empirical approaches. The School is situated in the King's College

Campus in the Zoology, Cruickshank and St Machar Drive buildings, all linked by the Cruickshank Botanical Gardens. In addition, the School operates two outstations: Oceanlab in Newburgh, which is a purpose built dedicated research facility established to enable marine science from coastal to deep sea environments; and, the Lighthouse field station in Cromarty where the majority of our marine top predator research is undertaken.

Research within the School is organised through the **Institute of Biological and Environmental Sciences (IBES)** and undertakes both pure and applied research, with a broad cross-cutting theme of understanding the biological consequences of environmental change. The IBES research portfolio is structured into three research programmes – **Ecology & Evolution, Integrative Environmental Physiology and Biological Interactions in Soil**. IBES has a unique relationship with several local renowned research institutes and

external organisations (e.g. James Hutton Institute, Marine Scotland, Centre for Ecology and Hydrology), that affords excellent opportunities to undertake collaborative research. This is reinforced by membership of national research pooling initiatives such as Marine Alliance for Science and Technology Scotland (MASTS).

[www.abdn.ac.uk/ibes](http://www.abdn.ac.uk/ibes)

#### Schools of Medicine and Dentistry and Medical Sciences

The School of Medicine and Dentistry is home to the traditional Departments of Clinical Medicine, and the School of Medical Sciences incorporates the former Departments of Biomedical Sciences, Biomedical Physics, Bio-Engineering, and Molecular and Cell Biology. Much of the research in both schools is interdisciplinary and is organised within two research Institutes - the **Institute of Applied Health Sciences (IAHS)** and the **Institute of Medical Sciences (IMS)**.

Areas of strength within the Applied Health Sciences theme include: **Epidemiology and Public Health Research, Health Economics Research, Health Services Research, Medical Statistics, Nutrition, Primary Care.**

[www.abdn.ac.uk/iahs](http://www.abdn.ac.uk/iahs)

Basic biomedical research is focused in the Institute of Medical Sciences, on the Foresterhill site.

Research is organised into six main research programmes, each containing specialist areas of interest. The programmes are: **Musculoskeletal, Cardiovascular, Cell and Developmental Biology and Cancer, Immunity and Disease, Microbiology and Translational Neuroscience.**

[www.abdn.ac.uk/ims](http://www.abdn.ac.uk/ims)

#### School of Psychology

The School has a well-established tradition of empirical research with specialist facilities, including laboratories for visual perception, 3D motion analysis, and psychophysiology. We also have access to facilities for Brain Imaging including MRI and PET.

The School collaborates with other Schools within the College, and has strong links with other agencies, including NHS Trusts, universities and hospitals in continental Europe and the USA. Commercial collaborations include the Nuclear Industry, Power Generation, Aviation, and the Offshore Oil Industry.

Research themes include: **Cognition, Industrial Psychology, Perception and Attention, Social Cognition.**

[www.abdn.ac.uk/psychology](http://www.abdn.ac.uk/psychology)

#### Rowett Institute of Nutrition and Health

The Rowett Institute for Nutrition and Health merged with the University of Aberdeen in 2008 to become the fifth School in the College of Life Sciences & Medicine. The aim of the Institute is to conduct research to define how nutrition can prevent disease, improve health and enhance the quality of food, using molecular, cellular and human studies to investigate the relationship between nutrition and health. In parallel, the Institute studies how people's attitude to food alters

their behaviours, and whether there are ways we can modify these behaviours to improve health and wellbeing. The Institute has very good analytical facilities, with excellent technical support, and a Human Nutrition Unit which is a sophisticated research facility for studying the relationship between diet and health in humans.

Research programmes include: **Gut health, Obesity and Metabolic Health, Lifelong Health**, and studies can be carried out at all different levels of nutrition, from basic molecular to social sciences, in any of these general areas.

[www.abdn.ac.uk/rowett](http://www.abdn.ac.uk/rowett)

#### Masters Programmes

The College has MSc programmes providing training in basic science, biomedical sciences, medical specialities and healthcare. Strong research strengths provide Masters programmes in subject driven areas of importance, for example, Ecology, Environmental Science, Bio-business, Drug Discovery, International Health, Human and Public Health Nutrition.

The University also has one of the largest groupings of biological and environmental scientists in Europe. Through strong industrial links, programmes in Environmental Science and Marine & Fisheries Science provide students with training that matches the needs of industry. Biomedical Masters programmes provide accredited training in medical fields and there is an element of teaching from clinical staff in the programmes offered in the Schools of Medicine and Dentistry and Medical Sciences.

The Graduate School provides support for Masters students through the delivery of innovative courses such as IT skills training, employability and Personal Development Planning (PDP).

#### Postgraduate Research

Research within the College is delivered through the research themes and postgraduate research opportunities are focussed within these areas. Over 90% of the College's research that was submitted in the 2008 Research Assessment Exercise was judged to be of international quality in terms of originality, significance and rigour. Furthermore, 60% of the College's submission was rated as world-leading or internationally excellent. Underpinning these results is a vibrant research environment, illustrated by a coherent research strategy, high levels of investment in new buildings and other research infrastructure. Please visit the institute or research theme websites for further information.

[www.abdn.ac.uk/clsm/research](http://www.abdn.ac.uk/clsm/research)

#### Training & Support for Research Students

All new postgraduate researchers attend a two-day induction programme, which includes the student-supervisor relationship, safety, and training programmes. Students are required to select from a programme of dedicated courses for both specific and generic skills training provided through the College and the University's central training unit in the form of core skills courses such as presentation, writing, IT skills, and statistics. The Graduate School is dedicated towards the provision of excellent research training for postgraduate researchers embedded in the context of full development for future careers.

#### Studentship Funding

Funding is available for Masters and research programmes from several sources. Studentship opportunities are advertised on the Graduate School website, to which funding enquiries should be directed to:

#### College of Life Sciences & Medicine Graduate School

College Office  
Polwarth Building Foresterhill  
Aberdeen AB25 2ZD  
[www.abdn.ac.uk/clsm/graduateschool](http://www.abdn.ac.uk/clsm/graduateschool)

# College of Physical Sciences

The College of Physical Sciences is home to around 700 postgraduate students who come together with internationally leading academic staff in an academically challenging, engaging and supportive environment. Staff and research students pursue pure and applied industry-driven research which in turn directs and informs the teaching programmes.

The College is structured around the **School of Engineering**, the **School of Natural and Computing Sciences** (Chemistry, Computing Science, Mathematical Sciences and Physics) and the **School of Geosciences** (Archaeology, Geography & Environment, and Geology & Petroleum Geology), all of which offer outstanding opportunities for postgraduate study. The College's over-arching Graduate School provides a central point of contact for all postgraduate matters.

## Postgraduate Research

Research in the College is founded on strong academic disciplines and ranges from fundamental research to applied projects, many of which are carried out in close partnership with industry. There are strong links between Departments, and a number of research areas span Departments and Schools across the College and the University. Researchers at the College consistently perform extremely well in the UK Government-led Research Assessment Exercise with the majority of the research activity within the College being judged to be either world-leading or internationally excellent.

Within this environment students have the opportunity to undertake research at a range of levels, through either full-time or part-time study. It is possible to complete an MRes (Human Geography is a recognised ESRC outlet), MSc by Research, MPhil, PhD or an EngD (a professional Engineering doctorate) through the College.

The College has a truly international perspective on its research activities, with a number of internationally renowned and internationally active staff, and an increasing number of formal international research collaborations. These include Carnegie Mellon University, the Australian Institute for Marine Science, Hong Kong University, NASA, the Directorate General for Hydrocarbons (India), the State University in Rio de Janeiro, National University of Singapore and the University of Texas Institute for Geophysics. Locally the University has a unique relationship with research institutes, including the James Hutton Institute (formerly Macaulay Land Use Research Institute). This affords excellent opportunities to undertake collaborative research.

The College is also home to the £11.8 million dot.rural Digital Economy Research Hub ([www.dotrural.ac.uk](http://www.dotrural.ac.uk)) which investigates how advances in digital technologies can transform rural communities, society and business.

At a national level the College is heavily involved in the Scottish research pooling initiatives which pull together research strengths in various disciplines across Scotland, thereby encouraging and enabling collaboration with partners in other Scottish research universities. Working closely with industry, the University was instrumental in establishing the **National Subsea Research Institute (NSRI)**, which is based in the College.

## Training & Support

As a new research student in the College you will join a friendly and active research community. You will attend an induction programme which gives you a chance to meet key individuals in the College as well as other new postgraduates. This is followed by specialist and generic research skills courses during your period of study. In addition to centrally provided postgraduate training, individual Schools organise seminar series, where students and staff make presentations of their research. Students are also encouraged to present their work at appropriate national and international conferences.

Research students normally have two supervisors, depending on the nature of their topic, and are allocated office space with computing facilities, with well-founded laboratories providing the equipment necessary for experimental work.

There are also extensive opportunities for fieldwork in the UK and overseas as dictated by the nature of the research.

Postgraduate students may be invited to contribute to teaching activities by providing laboratory or tutorial assistance to undergraduate students. Training for such activities is included in the Graduate School's induction programme and the follow-up sessions on demonstrating. As well as developing teaching skills, this is a means of supplementing your income.

An excellent library provides the essential books and journals, and all students have direct access to electronic journals from their own computers. The College has its own information consultant within the library whose subject knowledge and expertise is actively available to students to provide help in making effective use of the wide range of paper and electronic resources available. As the flagship project of the second phase of our Sixth Century Campaign, the £57 million new Library is the largest capital fundraising project undertaken to date by the University and is a landmark of learning, bringing high-quality students, researchers and academics to the University to support our academic ambitions and international reputation.

## Taught Programmes

The College offers a range of postgraduate programmes that appeal to those seeking a specialist programme of study or those wishing to move into a new area. With our strong industrial links, the College is able to provide programmes which meet the needs of industry while at the same time promoting the transfer of cutting-edge research outcomes.

Our programmes recruit students from a wide range of undergraduate programmes (including arts & social sciences) and also from non-academic backgrounds through our professional entry routes.

## Studentship Funding

Funding is available for taught and research programmes from several sources, including the Research Councils and industry. The quality of our taught programmes is demonstrated by continued support from national and international funding agencies and by the high demand for our graduates from industry. Studentship opportunities are regularly advertised via the College website.

[www.abdn.ac.uk/cops/graduate](http://www.abdn.ac.uk/cops/graduate)

Research is currently being carried out within the following areas:

## Archaeology

Human Interactions with Northern Environments  
Interactions Between Northern Populations  
Material Culture, Technology and Vernacular Architecture  
The Northern Mind

## Chemistry

Biomaterials  
Biomolecular Chemistry  
Catalysis and Photocatalysis  
Computational Chemistry and Modelling  
Construction and Remediation  
Environmental Chemistry and Speciation  
Functional Materials

Marine Biodiscovery  
Medicinal Chemistry  
Trace Element Speciation

## Computing Science

Cloud Computing  
Economics of Information Security  
Information Security  
Autonomous Agents and Multi-Agent Systems  
Intelligent Systems  
Linked Open Data  
Semantic Web  
Data Mining  
Logic and Semantics  
Natural Language Generation  
Systems Modelling  
Trust

## Engineering

Chemical and Petroleum Engineering  
Dynamics and Control  
Electronics and Optical Engineering  
Environmental and Industrial Fluid Mechanics  
Mechanics of Materials and Structures

## Geography & Environment

Environmental Change  
Environmental Processes  
Human-Environment Interactions  
Transport and Rural Change  
Urban and Regional Development  
Geology & Petroleum Geology  
Geology Climate Change, Tectonics and Sediment Flux  
Deep-water Frontiers  
Geofluids and Porous Media  
Meteorite Impacts and Astrobiology  
Terrestrial Ecosystems

## Mathematical Sciences

Algebraic Geometry & Mathematical Physics  
Differential Geometry and Relativity  
Functional Analysis  
Group and Representation Theory  
Topology and Geometry

## Physics

Active Flows & Advection  
Atomic Structure of Solids and Solid State Properties  
Chaos and Mixing in Fluid Flows  
Gravitation and Cosmology  
Infectious Diseases  
Mathematical Modelling  
Non-linear Dynamics and Chaos Theory  
Population Dynamics  
Multi Agent Modelling in the Social Sciences  
Solid State and Device Physics  
Statistical Physics  
Systems Biology  
Computational Neuroscience  
Transport, Distribution and Production Networks

The University offers a wide range of postgraduate study opportunities across all discipline areas, with over 140 taught Masters and research degrees available.

THE DIFFERENCE IN

# Your Studies

> Over 140 taught Masters programmes

> Supervised research opportunities  
in all disciplines

> Flexible study options

> Supportive academic community

# Types of Postgraduate Study

The University offers a wide range of postgraduate study opportunities across all discipline areas, with over 140 taught Masters and research degrees available.

## Research Degrees

### Aims

The aim of a research degree is to provide a thorough training in a particular subject area through original exploration and experimentation. The research culminates in a thesis or dissertation which sets out the conclusions of the research undertaken. Opportunities exist in all disciplines of the University to undertake supervised research at either Doctoral or Masters level.

### Entrance Requirements

Candidates for the degree of PhD must normally hold either a Masters degree or a first or upper second-class Honours degree in an appropriate discipline from an approved university, or an equivalent qualification. Those with somewhat lower qualifications may be asked to register initially for a Masters degree (MLitt, MSc, MTh, LLM, MLE, MRes or MPhil); satisfactory progress may allow conversion to a PhD programme.

Attached to your application should be a preliminary research proposal that will assist us in providing you with appropriate research training.

Your proposal should indicate in which field you wish to concentrate your research. Please provide as much detail as possible, giving reasons why you wish to conduct your research in those areas and full details of any relevant research experience you have. If you have already developed ideas for your own research project please give full details, although we appreciate that many applicants will prefer to discuss this with their supervisor(s) at the start of their studies.

### Structure

Students may register either for full-time or for part-time study. For a PhD, the normal study period is 36 months full-time or 60 months part-time; the equivalent figures for an MPhil are 24 and 42 months; for MLitt, MSc, MRes, MTh or LLM 12 months full-time or 24 months part-time. In special circumstances, where a candidate has undertaken postgraduate research previously and where progress on the research degree has been faster than scheduled, the minimum period for full-time candidates may be reduced to no less than 24 months for a PhD and 12 months for an MPhil, on submission of the thesis for examination. The Supervisor, Head of School and College Postgraduate Officer must fully endorse any proposal to reduce the minimum period.

Study may be undertaken either wholly within the University or in association with other research centres either in the UK or overseas. Students may undertake the majority of their studies off-campus (for example, to carry out their field work); regulations require that full-time students spend a minimum of six months in Aberdeen over the 36 month period of study. However, supervisor(s) may require students to spend additional periods of time in Aberdeen depending on the progress and nature of their studies. Each student is assigned at least one supervisor who is a member of the University's academic staff.

The University operates a Code of Practice for postgraduate students. The Code for research students can be accessed via the following link: [www.abdn.ac.uk/registry/quality/appendix5x4.pdf](http://www.abdn.ac.uk/registry/quality/appendix5x4.pdf)

The precise focus of research is agreed between the supervisor and the student, to suit the student's particular interests and needs as much as possible. During the first year, students may be required to undertake some formal research training which is compulsory in some disciplines. Both the Colleges and the University provide continued training and support to students throughout their studies.

Throughout the research period students will be encouraged to attend specialist seminars and conferences, and will be required to give an account of their progress to staff and fellow students from time to time, at seminars within the School or College.

### Progression

Progress is monitored regularly and supervisors are asked to complete official six-monthly reports. Satisfactory reports often lead to transfer from a Masters degree to a PhD. Unsatisfactory progress, however, on rare occasions, may lead to a transfer in the opposite direction from PhD to a research Masters, or a student being required to end their studies.

### Assessment

Assessment for PhDs is on the basis of a thesis and oral examination. Assessment is conducted by at least two examiners, one of whom is from outside the University.

## Taught Degrees

### Aims

Taught degrees are intended to impart advanced knowledge or techniques in specialised aspects of subjects previously studied more generally at undergraduate level and assist in career development. Some also serve as conversion courses, enabling students to change their area of specialisation away from that of their undergraduate studies.

### Entrance Requirements

The requirement for most taught Masters courses is a second-class UK Honours degree (or equivalent) in an appropriate discipline from an approved university. Both Postgraduate Admissions and the relevant School are able to provide advice on the equivalence of qualifications awarded by overseas universities.

Students may be admitted to one degree with a view to transfer to a higher degree dependent on satisfactory progress. For example, a student may be admitted to a Postgraduate Diploma with a view to transfer to MSc. In this instance the student would commence studies on the Postgraduate Diploma programme, and if satisfactory progress were made, then transfer to the MSc programme and graduate with an MSc degree.

### Structure

For MLitt, MSc, LLM, MBA, MLE, MEd and MTh degrees, the normal study period is 12 months full-time. Only certain programmes are available for part-time study, and in these cases the normal study period would be 24 or 36 months part-time. For the Postgraduate Diploma, the normal study period is 9 months full-time or 18-21 months part-time, where available; for the Postgraduate Certificate, the normal study period is 4-6 months full-time.

Taught courses normally involve formal lecture and/or seminar programmes over two semesters (September - May) which are assessed by written examination and the assessment of course work (essays, practical reports, etc). In most courses the taught elements are identical for both Masters and Postgraduate Diploma students.

### Progression

Students on taught courses of study (Masters, Postgraduate Diploma or Postgraduate Certificate) must satisfy the progress requirements of their specific programme and with the University's Procedures for Determining Progression and Award in modularised taught programmes (Grade Spectrum). Candidates aspiring towards a Masters degree normally have to attain higher grades in the taught elements before being permitted to progress to the dissertation/project stage.

Details of progression requirements can be found at [www.abdn.ac.uk/registry/quality/appendix7x7.pdf](http://www.abdn.ac.uk/registry/quality/appendix7x7.pdf)

Satisfactory progress often leads to transfer from a Postgraduate Certificate to a Postgraduate Diploma, or from a Postgraduate Diploma to a Masters degree. Unsatisfactory progress, however, on rare occasions, may lead to a transfer in the opposite direction, or a student being required to end their studies

### Assessment

The Masters degree usually concludes with a project or dissertation over the summer period (normally June - September); assessment of the dissertation can include an oral examination. The University operates a Code of Practice for postgraduate students on taught courses of study that can be accessed at [www.abdn.ac.uk/registry/quality/appendix5x3.pdf](http://www.abdn.ac.uk/registry/quality/appendix5x3.pdf)

### Registered Postgraduate Study

Research workers from institutions overseas or students undertaking research degrees at other institutions may visit the University for Registered Postgraduate Study for short periods, for example to learn particular experimental techniques.

Fees for Registered Postgraduate Study are charged at the normal postgraduate fee rate according to the number of months of study.

Students wishing to undertake a single course within a postgraduate taught programme may apply to undertake Individual Subject Study. Fees are charged per credit.

The Admission requirements for Registered Postgraduate Study and for Individual Subject Study are the same as for the appropriate full-time research or taught programme.

## Part-Time Study

Part-time study is available for all research degrees and for some taught courses. Due to British immigration regulations it is generally not available to students from outside the European Union, although the spouses of full-time international students may be allowed to register for part-time study at the part-time overseas rate of tuition fees.

### January Starts

A selection of our most popular programmes also have a January intake. Please visit [www.abdn.ac.uk/january](http://www.abdn.ac.uk/january) for details.

## Who Can Answer My Enquiry?

If you require further information about research and taught courses before applying, you can consult the relevant College website.

College of Arts & Social Sciences

## Applying to Aberdeen

**Applying to Aberdeen couldn't be simpler, and with a number of scholarships available across the Colleges to provide financial assistance to postgraduate students, the University will do everything it can to make your decision to apply an easy one.**

### When Do I Apply?

Most taught postgraduate programmes begin in mid-September. International students can apply any time from the previous September. For application deadlines please visit [www.abdn.ac.uk/postgraduate/apply](http://www.abdn.ac.uk/postgraduate/apply)

UK/EU students can apply any time from the previous September until the start of the course. For taught programmes beginning in January, applications are accepted until the end of September prior to the start of the course; UK/EU students can apply until the programme start date. In all cases, international students should consider the time required for visa application processing.

Research programmes often have flexibility to begin at any time during the academic year. Applications can be made up to 12 months in advance but preferably no later than six months before you intend to start your studies.

There is no need to complete your previous course of study or to have achieved English language qualifications before applying; we can make offers conditional upon you successfully completing a particular qualification.

### How Do I Apply?

It is important when submitting an application that you have completed all the necessary sections and have enclosed all of the relevant documentation to ensure that your application can be processed as quickly as possible.

### To apply you must submit:

- > **A completed Postgraduate Application Form**
- > **Full details of your academic achievements to date (e.g. transcript, degree certificate)**
- > **Proof of proficiency in English is required if you are an international applicant. Visit [www.abdn.ac.uk/languagecentre](http://www.abdn.ac.uk/languagecentre) for details. This can be submitted at a later date but must be verified by the University prior to commencement of your studies**
- > **Academic References. Two references are required for research programmes. Taught programmes generally require one reference only but there are some exceptions so applicants are advised to check individual programmes for specific entry requirements**
- > **Some programmes require a CV but please check individual programmes for details of specific entry requirements**

You can download our application form and application notes or apply online at: [www.abdn.ac.uk/postgraduate/apply](http://www.abdn.ac.uk/postgraduate/apply)

Note: If you have any disability or medical condition which might necessitate special arrangements or facilities, please write directly to Student Support Services to discuss these before you submit your application.

### Student Support Services

**The Hub**  
Elphinstone Road  
Old Aberdeen  
AB24 3TU  
Tel: +44 (0)1224 273935  
Email: [student.support@abdn.ac.uk](mailto:student.support@abdn.ac.uk)

If you have any questions about the application process please contact:

**Postgraduate Admissions Office**  
University Office, University of Aberdeen  
King's College, Aberdeen, AB24 3FX  
Tel: +44 (0)1224 273506  
Email: [pgadmissions@abdn.ac.uk](mailto:pgadmissions@abdn.ac.uk)

Please note, for the **PGDE Primary and Secondary Education** programmes, please DO NOT use University of Aberdeen or Universities and Colleges Admissions Service (UCAS) forms. Application forms for these programmes are available from the Graduate Teacher Training Registry.

You can apply online at [www.gtr.ac.uk](http://www.gtr.ac.uk)

### How is My Application Processed?

#### Step One

You will receive an acknowledgement when the University of Aberdeen receives your application. Completed applications are then passed to the relevant School for consideration.

#### Step Two

After considering your application, the Head of the School to which you have applied will decide whether an offer of admission can be made. UK-based applicants for research degrees or postgraduate scholarships and those who have been out of education for a period of time may be interviewed before a decision is made.

Offers of admission may be conditional or unconditional. Under the terms of a conditional offer, applicants are requested to obtain or provide evidence of further or pending qualifications that will allow them to fully satisfy the course entry criteria. Such students may, for example, be awaiting final undergraduate degree results.

Unconditional offers may be issued directly to applicants whose qualifications fully satisfy the entry criteria of their desired postgraduate programme.

### Step Three

You will be sent a decision, informing you of whether or not the University is able to offer you a place of study. Those who have been sent an offer will also receive an Acceptance Form and a Financial Guarantee Form. You must complete and return both of these forms to the Postgraduate Admissions Office as early as possible.

Once we have received these forms, applicants with unconditional offers will be 'cleared for admission'. Applicants with conditional offers will be cleared for admission after they have forwarded, to the Postgraduate Admissions Office, documents to confirm that they have met the conditions of offer.

### Step Four

Once you have been 'cleared for admission', students who are commencing study in September/October\* will be sent, from May onwards, a pack of joining instructions which includes information on accommodation, registration, tuition fees payment, and their student ID number, etc. All international students who declare that they require a visa to enter the UK will receive a Confirmation of Acceptance which includes a CAS number so that they may apply for a visa.

\*Research students commencing study at a time other than September/October will receive their joining instructions and a CAS number (if applicable) at the equivalent time prior to the commencement of their studies.

### Academic Technology Approval Scheme (ATAS)

Please note that international taught and research applicants for certain Science, Engineering or Technology disciplines require an Academic Technology Approval Scheme (ATAS) Clearance Certificate. ATAS clearance must be obtained before applying for a visa. If you need to obtain ATAS clearance, this will be indicated in the letter detailing our offer of admission. For more information, visit [www.fco.gov.uk/atas](http://www.fco.gov.uk/atas)

# Research Excellence

Academically, Aberdeen has the strength you would expect of a 500-year old university with a growing international reputation. It is among the UK's top research universities in the latest Research Assessment Exercise (RAE 2008) – a year long independent evaluation of the quality of research undertaken across Britain's universities involving peer review and international experts.

The RAE assesses the strengths of a department's, or group of departments', research activity (for example, the quality of published work, the standard of the environment and facilities where the research was conducted, measures of research grant income, etc) across a seven year period. The RAE results are shown as a 'Quality Profile' for each research area, giving the proportions of research activity awarded at each of the quality levels, with 4\* the best in the world.

The definitions of the RAE 2008 quality levels, in terms of originality, significance and rigour, are:

**4\*** = Quality that is world-leading

**3\*** = Quality that is internationally excellent but falls short of the highest standards of excellence

**2\*** = Quality that is recognised internationally

**1\*** = Quality that is recognised nationally

**U/C** (unclassified) = below the standard for 1\*, or did not meet the definition of research

The most recent RAE results proved a triumph for Aberdeen. They demonstrate that the University produces a significant volume of outstanding research across all our disciplines. We are the UK's top research university for Theology, Divinity and Religious Studies and equal top for Health Services Research.

> 89% of Aberdeen's research activity is assessed as of international quality and 55% is 'world-leading' or 'internationally excellent' (4\* and 3\*)

> Research activity rated as world-leading or internationally excellent was included in all our 33 submissions to the RAE

> Almost three quarters of our staff were submitted to units where at least half of the research activity was rated as world-leading or internationally excellent (3\* and 4\*)

> 11 of our research areas were ranked among the top 25% in the UK (based on the proportion of research activity judged to be world-leading and internationally excellent)

THE DIFFERENCE IN

**Our  
People**

## Professor Bernd Wannewetsch

Chair in Theological Ethics

A graduate of the Universities of Munich and Erlangen-Nuremberg and an ordained minister of the Lutheran Church, Professor Wannewetsch has previously taught Systematic Theology and Ethics at the Universities of Erlangen-Nuremberg and Mainz and, for the last decade, at the University of Oxford, where he was chairman of the Theology Faculty before coming to Aberdeen.

Professor Wannewetsch's research concentrates upon foundational issues in theological ethics, he is the author of numerous essays, articles and books including *Political Worship: Ethics for Christian Citizens* (2004/09) and a frequent research collaborator, with many edited and co-authored works to his name. With the arrival of Professor Wannewetsch, who is widely acknowledged as one of the leading theological ethicists of his generation, Aberdeen further enhances its standing as a world leader in advanced theological research and teaching.

## Professor Graeme Paton

Chair in Plant & Soil Science

As Professor of Environmental Soil Science at the University of Aberdeen, Professor Paton leads a team of research environmental technologists developing future sustainable solutions in the soil and water environment and oversees the running of the environmental-based MSc programmes (Environmental Science, Soil Science and Environmental Microbiology). With over 100 published papers in soil science and pollution research, Graeme is a frequent speaker at international conferences. Graeme has supervised over 70 research students from across the world and maintains strong links with his graduate cohort developing research and training portfolios.

Professor Paton has been involved in the commercialisation of two companies from the University of Aberdeen and is a director of Remedios Limited (a company developing contaminated land remedial technologies) and EPONA Limited (for water treatment). Graeme also holds a research professorship with the Chinese Academy of Science in Xiamen where he frequently travels.

## Dr Radha Kessar

Reader in Mathematical Sciences

Professor Radha Kessar, of the Institute of Mathematics, is a member of the internationally leading research group in Representation Theory at the University. She came to Aberdeen as a senior lecturer in 2005 having earlier taught at the Ohio State University, and before that at Oxford University, University of Minnesota and Yale University.

Professor Kessar collaborates with mathematicians across Europe, Asia and North America. She is a frequent invited speaker at international conferences in Pure Mathematics and was recently awarded the Berwick prize of the London Mathematical Society in recognition of her research.

## Sinead Sheenan

PhD Psychology

I chose to study a PhD as a stepping stone to an academic career. As a career, academia offers a lot of flexibility – it's not a humdrum job. I get to work with other professionals such as clinicians, physiotherapists, engineers etc. I work with patients and older adults and I also do a bit of teaching so have contact with younger students as well, which I really enjoy.

Part of my research is concerned with how people learn skills so joining the University boxing club turned out to give me a really interesting perspective. During my studies I was learning about how we learn while in my spare time learning how to box. I represented the Uni at boxing events in Scotland and England and even managed to win a few titles along the way.

Through my PhD and boxing I have discovered a lot about myself from pushing the boundaries of what I can achieve.

## Mark Stewart

PhD Civil Engineering

I studied here at undergraduate level before being offered the chance to undertake a PhD by one of my lecturers so it was simply a natural progression. Initially, I was attracted by the excellent reputation of the University's engineering department. I have world-class facilities at my disposal to carry out my research, as well as the guidance of an internationally acclaimed supervisor.

I enjoy the freedom that I am allowed to work under. I can seek as much or as little guidance as I wish but at the end of the day my project is solely my responsibility and I think that helps to motivate me.

Undertaking a PhD is a huge commitment; however, I believe that I will leave with a far greater variety of career options available to me.

## Samaila Adelaiye

MSc Strategic Studies

I chose Aberdeen because the University has a good number of international students and I also loved the mixture of the old style architecture with a very modern twist. I've really enjoyed my studies so far, there is much more academic staff and student interaction than I had expected – I've really benefitted from this personal touch.

I've found the student accommodation really great and it's good to know that if I run into any problems at anytime of the day there is always someone I can talk to. I've learned a lot from fellow students here.

## Laura Main

### History of Art

Starring in the BBC's most successful new drama of the 21st century is an accolade any actor would be proud to have on their CV. And Laura Main is no exception.

Laura secured lead roles in each of The Student Show productions in the years she spent at the University and also in the shows by the University's amateur musical theatre group, "Treading the Boards".

"The demand for the student shows was phenomenal – they would attract sell-out audiences for a week long stint at His Majesty's Theatre, and undoubtedly my appearances in these shows allowed me to build on my acting skills," Laura says.

Following her graduation, her star has continued to rise with her career spanning lead roles in professional stage productions and television series including "Murder City", "The Forsyte Saga", "Holby City" and "Doctors".

## Simon Enderby

### Marine Zoology

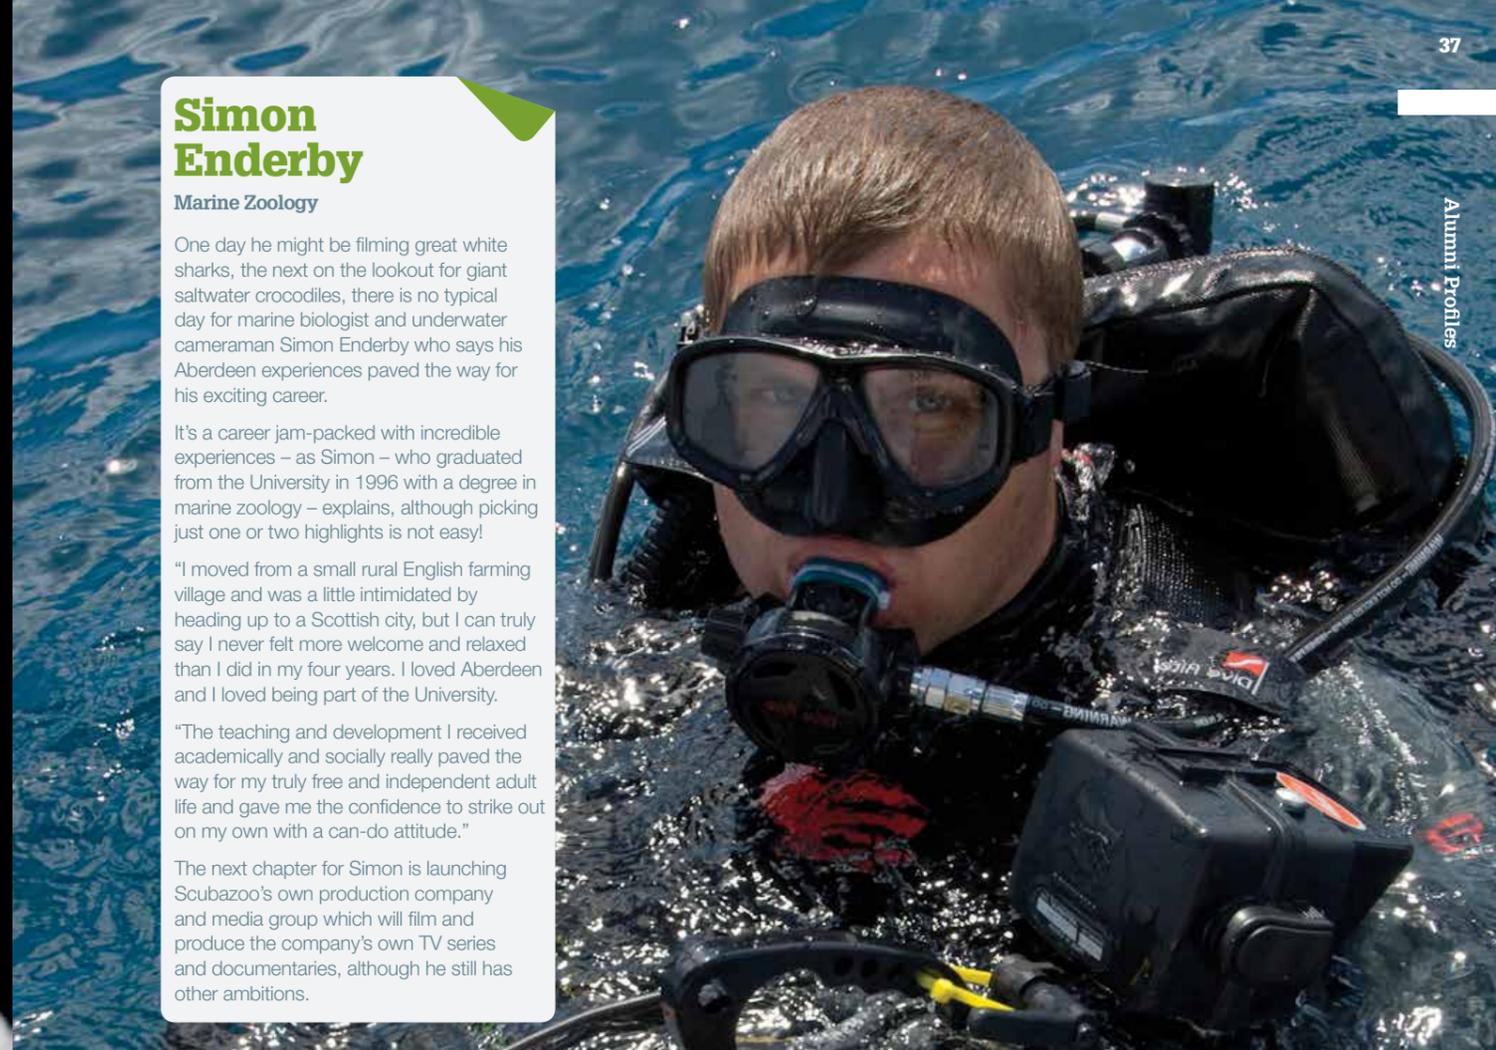

One day he might be filming great white sharks, the next on the lookout for giant saltwater crocodiles, there is no typical day for marine biologist and underwater cameraman Simon Enderby who says his Aberdeen experiences paved the way for his exciting career.

It's a career jam-packed with incredible experiences – as Simon – who graduated from the University in 1996 with a degree in marine zoology – explains, although picking just one or two highlights is not easy!

"I moved from a small rural English farming village and was a little intimidated by heading up to a Scottish city, but I can truly say I never felt more welcome and relaxed than I did in my four years. I loved Aberdeen and I loved being part of the University.

"The teaching and development I received academically and socially really paved the way for my truly free and independent adult life and gave me the confidence to strike out on my own with a can-do attitude."

The next chapter for Simon is launching Scubazoo's own production company and media group which will film and produce the company's own TV series and documentaries, although he still has other ambitions.

## Glen Cayley

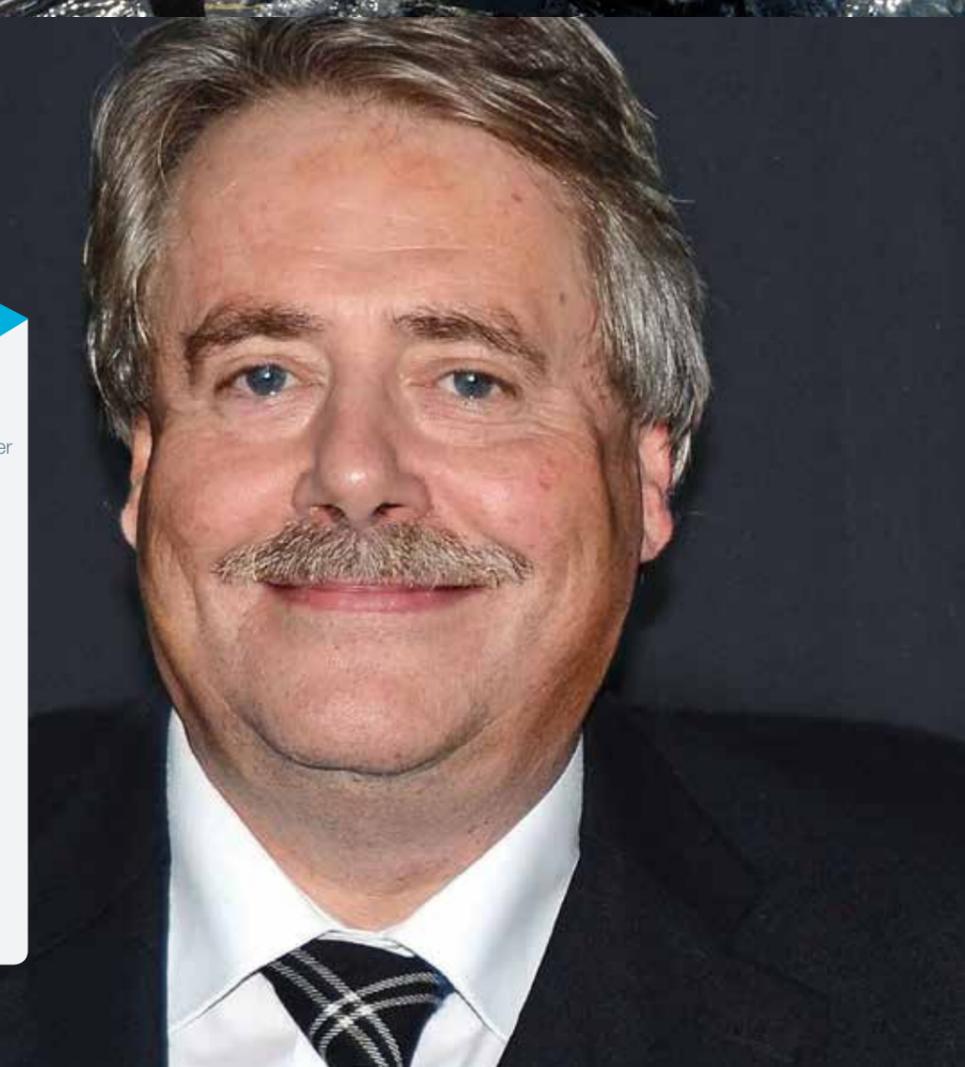

### Petroleum Geology

Vice President for Technical in Europe and head of Shell's UK Upstream Business, Glen Cayley, has forged a successful career following his MSc Petroleum Geology degree from University of Aberdeen.

Prior to his career at Shell, Glen worked for Exxon for over 25 years. Most recently he was Royal Dutch Shell's Chief Petroleum Engineer and Vice President for Development (Front-End Studies) in Europe, Africa, Middle East and Russia. Glen remembers his time at Aberdeen with affection;

"My career has benefitted from the grounding I received in Aberdeen. I was very fortunate to have inspiring and charismatic professors and I met people from all over the world.

I also discovered the fantastic Aberdeen hinterland - as a fan of the outdoors who could not enjoy Aberdeen!"

**Our Student Support Services rank with the best in the UK, with a network of support in place to help with your academic, personal and social life.**

**THE DIFFERENCE IN**

# Student Support

> **New £57 million library**

> **Exceptional museums, archives and special collections**

> **Largest wireless campus in Europe**

> **Extensive language centre**

> **Supportive Student Learning Service**

# Learning Resources

## New Library

A huge range of resources are available to support your studies. The start of the 2011-12 academic year saw the opening of our landmark £57 million new Library, providing you with the most modern learning environment in the country. This new building represents an extraordinary investment in higher education; a library for the future which takes pride in our past, housing both modern and historic collections in the same space for the first time.

## Books and beyond

As well as 15 kilometres of books covering arts and humanities, education and physical and social science subjects - and now also collections on human and animal nutrition and health recently transferred from the Rowett Institute's Reid Library - we are now able to provide a purpose built Special Collections Centre for 200,000 rare books and over 4,000 manuscript and archive collections, including state-of-the-art facilities for their conservation and exhibition. The new library presents unprecedented opportunities for scholarship, inviting researchers to explore these internationally significant collections from the University's 500 year history as never previously possible.

The Main Library offers around 1,200 study spaces, with a further 600 seats available at the other library sites. There are spaces to suit every learning style: innovative 'co-labs' for collaborative group-work supported by plasma-screen technology; bookable discussion

rooms, flexible learning areas which can be configured to your own requirements; social spaces with comfortable chairs and sofas for when you need a break; individual carrels for more private study, and also more traditional silent study spots for when you need perfect peace and quiet.

Also on the Old Aberdeen campus, the Taylor Library and European Documentation Centre covers law with official UK and EU publications, while the Medical Library on the Foresterhill Campus covers Medicine and Medical Sciences disciplines.

In addition to our physical collections, we also connect you to a huge range of electronic resources, investing more than £2 million a year in e-resources. Our licences enable access to over 400,000 books in electronic format, millions of journal articles from top quality academic publishers and over 100 different scholarly databases and online archives. Students are able to access these resources both on and off campus so you can study at your convenience anytime, anywhere.

The Library holds a selection of frequently used texts in a separate collection on level 1 of the Library. These items are available for reference or overnight loan so you can get the texts you need quickly. Postgraduate students involved in research may be interested in borrowing essential items from other academic institutions through our Inter-library Loans Service.

## Help is at Hand

As well as helpful staff who are available to give advice in person, we produce over 100 information guides in electronic and print formats to offer you step-by-step help in using our sites, services and resources. You'll also find podcasts, vodcasts and more on our website. The library is using other Web 2.0 services to give you immediate information about changes in service and highlight new resources - we invite you to follow us on Twitter, @aberndeenunilib, or you can even use our 'Ask a Librarian' Instant Messaging service to get instant answers to your quick queries!

Also, look out for these 'QR barcodes' around the library: you can download a free App to your smartphone so that when you photograph these codes it works as a link to take you straight to online information. For further details on using QR barcodes visit [www.abdn.ac.uk/library/support/qr-barcodes](http://www.abdn.ac.uk/library/support/qr-barcodes).

Our experienced and helpful team of Information Consultants deliver induction sessions and library skills talks as part of many taught postgraduate programmes. They also offer a wide range of additional information skills workshops to help you make best use of the resources we offer. These practical sessions last one hour and are held at various times throughout the day. The team is on hand to offer detailed assistance and advice on all our information resources including the library catalogue, electronic databases and reference management software, RefWorks.

[www.abdn.ac.uk/library](http://www.abdn.ac.uk/library)

## Museums

As an ancient University, we are proud of our fascinating museum collections built up over 500 years, and exceptional in their richness. A new display space, King's Museum, is now open at the heart of the Old Aberdeen campus which has an exciting exhibition and event programme featuring artefacts from the University's museum collections, including fine art, archaeology, history, ethnography, scientific instruments, zoology, geology, anatomy and pathology. The University's museum collections are amongst the largest and most important in the country and have been awarded recognition as nationally significant. All these collections are used to support taught courses in ways not possible in most other universities, and are available for individual study, research and enjoyment. Changing displays from the collections can also be seen around the campuses.

## Resources for Language Learning

Our Language Centre is open to all University of Aberdeen students. It offers a range of audio, video, computer and satellite television facilities, a materials library covering a wide range of languages, courses for students whose native language is not English and all the language learning advice and support you need, whether you are studying for a degree in languages, preparing for an exchange visit, hoping to improve your CV, or are simply fascinated by other cultures and languages.

[www.abdn.ac.uk/languagecentre](http://www.abdn.ac.uk/languagecentre)

## Computing Services

Computing and Service Desk facilities at the University are managed by the Directorate of Information Technology (DIT).

Our computing resources and high speed internet access complement your studies and allow you to manage and review coursework at your pace and in your own time.

## Service Desk

Contact the Service Desk for advice on all computing matters. There are Service Desks on both the Old Aberdeen and Foresterhill campuses.

Email: [servicedesk@abdn.ac.uk](mailto:servicedesk@abdn.ac.uk)  
[www.abdn.ac.uk/servicedesk](http://www.abdn.ac.uk/servicedesk)

# Key Facts

- > Individual email accounts and web space
- > Free wireless internet access in Halls of Residence and across campus
- > Secure and backed-up home file storage, 2GB for taught postgraduates and 4GB for research postgraduates
- > Student Portal: a secure web based portal through which you can view and check your personal details, accommodation fees, library loans and exam results
- > High specification computers distributed over classrooms, libraries and clusters on campus and in Halls of Residence
- > Wide range of software and high quality laser printing
- > Classroom internet access (faster than domestic broadband)
- > Wide range of training materials and courses
- > Assistive Technology: a range of specialist software on all classroom PCs and six individual occupancy Assistive Technology Booths
- > 24-hour access to many computing facilities

## Support For Your Studies

**We aim to make sure from the start that you have access to any support you might need - academic, personal, medical and financial - from people who are easy to contact and who can give you friendly and expert guidance.**

### Student Support Services

You'll find the University a caring community, with a wide range of services designed to help you negotiate some of the tricky parts of student life. Student Support Services consists of the Student Advice & Support Office and the Counselling Service and their aim is to help you achieve a successful and fulfilling experience at the University of Aberdeen.

### Student Advice & Support Office

Staff in this office provide advice and information on three broad areas - disabilities, international student matters and general advice and support.

The University Disability Advisers offer support and guidance and are a first point of contact for disabled students. The University welcomes disabled students, and it is our policy to consider applications from all students on the same grounds. Courses leading to professional qualifications (e.g. for Teaching, Medicine, Law) may require additional considerations but the University will always be proactive in making adjustments to remove or reduce any barriers as far as it is possible to do so. You are welcome to contact the Disability Advisers to discuss your application. You may also choose to visit the University, to meet academic and support staff and to discover the facilities and support structures which are available.

### Disability Advisers

**Tel: +44 (0)1224 273935**  
**Email: [student.disability@abdn.ac.uk](mailto:student.disability@abdn.ac.uk)**  
**[www.abdn.ac.uk/students/disability-information](http://www.abdn.ac.uk/students/disability-information)**

The International Student Advisers can provide information on many aspects of international student life at Aberdeen and in the UK, and are professionally trained to provide specialist advice on visa and immigration matters. British immigration legislation is complex. Our immigration advice and services are regulated by the Office of the Immigration Services Commissioner.

### International Student Advisers

**Tel: +44 (0)1224 273935**  
**Email: [student.international@abdn.ac.uk](mailto:student.international@abdn.ac.uk)**  
**[www.abdn.ac.uk/students/international](http://www.abdn.ac.uk/students/international)**

The Student Support Advisers offer confidential, independent and non-judgemental advice on matters ranging from personal problems and academic issues to University procedures and financial matters such as student funding.

### Student Support Advisers

**Tel: +44 (0)1224 273935**  
**Email: [student.advice@abdn.ac.uk](mailto:student.advice@abdn.ac.uk)**  
**[www.abdn.ac.uk/student-support/advice](http://www.abdn.ac.uk/student-support/advice)**

The University can provide financial assistance to matriculated UK students, primarily from the government's Discretionary Fund, aimed at students who meet unexpected and/or exceptional financial difficulties (but not meet the cost of tuition fees or general maintenance), and a Childcare Fund to contribute towards the costs of formal childcare arrangements.

**[www.abdn.ac.uk/students/financial-assistance](http://www.abdn.ac.uk/students/financial-assistance)**

### Counselling Service

The University Counselling Service is a free, confidential and professional service for students who have personal, social, emotional or educational concerns.

### Counselling Service

**Tel: +44 (0)1224 272139**  
**Email: [counselling@abdn.ac.uk](mailto:counselling@abdn.ac.uk)**  
**[www.abdn.ac.uk/counselling](http://www.abdn.ac.uk/counselling)**

### Chaplaincy Centre

The University Chaplaincy team is available to the whole community for people of all faiths and none. The Chaplaincy Centre will also provide you with details of denominational chaplains, chaplains for other faiths, and meeting and prayer facilities.

### Chaplaincy Centre

**Email: [g.cursiter@abdn.ac.uk](mailto:g.cursiter@abdn.ac.uk)**  
**[www.abdn.ac.uk/chaplaincy](http://www.abdn.ac.uk/chaplaincy)**

More information on student support is available on our website at **[www.abdn.ac.uk/student-support](http://www.abdn.ac.uk/student-support)**

### Looking After Your Health

Full National Health Service (NHS) medical services are available to students. The Old Aberdeen Medical Practice and Old Machar Medical Practice are located close to the King's College campus and cater for the general population of the surrounding area, including the student population of the University.

Aberdeen Royal Infirmary is the city's main hospital. It is a teaching hospital with the full range of medical and surgical specialities, which can be accessed through a medical practice when appropriate.

### Nursery

The campus-based Rocking Horse Nursery provides childcare for pre-school age children of students and staff. There are 47 full-time places available, and the nursery has three "departments" which cater for 0-2, 2-3 and 3-5 year olds respectively.

### Our Obligations and Yours

The University has a Student Charter, which sets out the responsibilities of the University and of students, and gives details of grievance and other procedures. All students are also required, as a condition of enrolment in the University, to abide by the University's Code of Practice on Student Discipline, as amended from time to time. Copies of these documents are available on request from the Registry, University Office, King's College, Aberdeen, AB24 3FX.

## Finance

**Finance is essential to university life. To help with money matters, the University has a range of financial support to help assist postgraduate students throughout their period of study.**

### International Students

These figures provide an approximate guide to assist you with your financial planning. They may alter at any time and will vary between individual students.

### Tuition Fees

Tuition fees may vary depending on your chosen degree. Please visit **[www.abdn.ac.uk/registry/tuitionfees](http://www.abdn.ac.uk/registry/tuitionfees)** for detailed information.

As well as scholarships offered by the British Council, charities and organisations, the University of Aberdeen has a number of special scholarships particularly for research students, as well as bursaries for some taught Masters courses.

You will need to have financial evidence demonstrating that you have sufficient funds to accommodate and maintain yourself without earnings from any work you might do.

For further information please see **[www.abdn.ac.uk/international/finance](http://www.abdn.ac.uk/international/finance)**

### European Union Students

These figures provide an approximate guide to assist you with your financial planning. They may alter at any time.

### Tuition Fees

#### Full-time Students

For 2012/13 students from within the EU pay tuition fees of £3,400 for the majority of taught courses including MSc, MLitt, LLM, MLE and MTh programmes.

Tuition fees for research degrees including PhD and Masters by Research courses are currently £3,600 for the majority of programmes.

At the time of print the 2013/2014 fees have not been confirmed for UK/EU students. Please refer to the following website for a full listing of postgraduate tuition fees: **[www.abdn.ac.uk/registry/tuitionfees](http://www.abdn.ac.uk/registry/tuitionfees)**

### Part-time Students

The part-time fee rate for taught and research postgraduate programmes is 50% of the relevant full-time fee rate for Home/EU student; for Overseas students the part-time fee rate for taught and research postgraduate programmes is 37.5% of the relevant full-time Overseas rate.

Certain courses do charge additional costs for field trips etc, therefore students should refer directly to the relevant departmental website for further information.

### All Postgraduate Students

Up-to-date information on tuition fees for taught degree programmes and research study can be found at **[www.abdn.ac.uk/postgraduate/finance](http://www.abdn.ac.uk/postgraduate/finance)**

If you accept an offer of a place for any postgraduate taught course within the Business School, you will be asked to pay a deposit to confirm your place. The deposit is later deducted from the tuition fees payable at registration. Further information can be found at **[www.abdn.ac.uk/postgraduate/finance](http://www.abdn.ac.uk/postgraduate/finance)**

### Cost of Living

In addition to tuition fees, students will require a further £800 per month (minimum) to cover additional costs. A married student who wishes to bring his/her family should have additional funds of at least £450 per month, per dependent.

### Funding

There are a number of Government research councils and other bodies who are able to provide financial assistance to postgraduate students. The University also has a number of bursaries and scholarships available. For more information on internal and external sources of funding visit **[www.abdn.ac.uk/postgraduate/funding](http://www.abdn.ac.uk/postgraduate/funding)** or search our funding database at **[www.abdn.ac.uk/funding](http://www.abdn.ac.uk/funding)**

Students should also contact the College in which they are studying in, as they also have information on funding opportunities.

A thriving local economy in the North-east means that part-time and holiday employment in Aberdeen is plentiful and the University's Joblink service can help you find part-time work. Advertised work does not exceed 20 hours per week, except during vacations. For more information visit **[www.ausa.org.uk](http://www.ausa.org.uk)**

### Alumni Discount Scheme

The University of Aberdeen offers a 20% discount in postgraduate tuition fees for all alumni who have graduated with a degree from the University of Aberdeen. The Alumni Discount Scheme applies to both home and overseas students, and applies to the self-funding element of the postgraduate tuition fee.

For more information visit **[www.abdn.ac.uk/postgraduate/funding](http://www.abdn.ac.uk/postgraduate/funding)**

# International Students

**A warm welcome awaits all international students at Aberdeen. Here you will find a thriving cosmopolitan community which includes 120 nationalities, making up over 20% of the student population.**

The University of Aberdeen has a long tradition of welcoming both international students and staff to Aberdeen. As one of the six Ancient Universities in the UK, Aberdeen boasts tradition which is rooted in our 500 year history - but we are focused firmly on the future and are at the cutting-edge of research in many fields. Postgraduate students are attracted to Aberdeen by the quality of our courses and teaching, the research opportunities we provide and our excellent facilities.

## English Language Requirements

You must refer to the College you will be studying in to confirm the English Language requirements for your programme of study.

For further information please visit [www.abdn.ac.uk/international/english-requirements](http://www.abdn.ac.uk/international/english-requirements)

## English Language Support

The University of Aberdeen offers various English Language Programmes which are provided by a team of experienced and friendly tutors at our fully-equipped Language Centre. Before the start of term, we have a number of English language courses that you can take including an Academic English Preparatory Programme (AEPP) and an intensive English Language Summer School, both focusing on the development of English for Academic Purposes.

The AEPP is a 1-year English language foundation Programme from October to September each year for students whose English is below the minimum level required

by the University. This course is offered full-time with a range of different entry points depending on individual needs and profiles. The course focuses on developing the four main language skills (speaking, listening, reading and writing) and also helps to expand vocabulary and develop effective self-study skills.

## Summer School

The English Language Summer School runs between June and September each year and is aimed at students whose English proficiency is slightly below the level needed for direct University entry. The Summer School has two entry points depending on individual needs and profiles and consists of intensive language and skills preparation for studying at a UK university. It provides students with a solid base on which they can build their academic development.

After commencing academic studies, you will still have access to the wide range of language learning resources at the Language Centre and can sign up for in-session language support.

For further details visit [www.abdn.ac.uk/languagecentre](http://www.abdn.ac.uk/languagecentre)

## Tuition Fees

Specific information on international student tuition fees are online at [www.abdn.ac.uk/international/finance](http://www.abdn.ac.uk/international/finance)

In addition to tuition fees, we estimate that you will need at least £800 per month to cover all of your other costs.

You will need to have financial evidence demonstrating that you have sufficient funds to accommodate and maintain yourself without earnings from any work you might do.

As well as scholarships offered by the British Council, charities and organisations, the University of Aberdeen has a number of special scholarships particularly for research students, as well as bursaries for some postgraduate taught Masters courses.

For more information on internal and external funding visit [www.abdn.ac.uk/international/scholarships](http://www.abdn.ac.uk/international/scholarships) [www.abdn.ac.uk/funding](http://www.abdn.ac.uk/funding)

## After Your Studies

International students have the opportunity to remain in the UK for four months following completion of their studies. There are a number of different visa schemes that students can apply for and these can be seen on the UK Border Agency (UKBA) website at [www.ukba.homeoffice.gov.uk/visas-immigration](http://www.ukba.homeoffice.gov.uk/visas-immigration)

## International Student Advisers

Once you have arrived in Aberdeen, members of staff in our Student Support Services are available to give confidential advice, information and support on a wide range of topics. They can provide information on many aspects of international student life at Aberdeen and in the UK, with specialist guidance on visa and immigration matters. Our immigration advice and services are regulated by the Immigration Services Commissioner.

Email: [student.international@abdn.ac.uk](mailto:student.international@abdn.ac.uk)  
[www.abdn.ac.uk/international](http://www.abdn.ac.uk/international)

## Meet a University Representative

Our staff travel all over the world meeting with prospective students. For more information on where and when they visit check: [www.abdn.ac.uk/international/my-country](http://www.abdn.ac.uk/international/my-country)

## Careers

**At Aberdeen, we have a proven track record in helping our graduates to take the first successful steps on the ladder of their chosen career.**

In July 2012, the Daily Telegraph ranked the University of Aberdeen 7th of all UK universities for employability – and no wonder. In 2010-11, 95.3% of our postgraduates who went on to work or further study within 6 months after their graduation.

## Careers Service

The University maintains a professional Careers Service to support you in developing and fulfilling your career aspirations, throughout your studies and after your graduation. We provide:

- > A team of Careers Advisers specialising in specific subject areas who work with academic programmes and offer one-to-one careers guidance interviews
- > A Duty Careers Adviser available every day for quick queries and application checks
- > Access to careers advice and guidance at any time and from anywhere through our Virtual Adviser Service
- > Careers Fairs and a programme of presentations and skills sessions run by local, national and multi-national employers who recruit our graduates
- > A library with information on a huge range of careers, postgraduate study, application advice and more
- > An extensive website, including up-to-date events, vacancies and our Virtual Library of careers resources

## Contact:

Careers Service, The Hub, 2nd Floor  
Elphinstone Road, Aberdeen  
Tel: +44 (0)1224 273601  
Email: [careers@abdn.ac.uk](mailto:careers@abdn.ac.uk)  
[www.abdn.ac.uk/careers](http://www.abdn.ac.uk/careers)

## Employment During Your Studies

Aberdeen City and Shire's buoyant local economy means there is no shortage of holiday and part-time work.

Most international students in Aberdeen can undertake up to 20 hours per week of part-time employment during term-time, and full-time hours during vacations. However, part-time employment will not be sufficient to cover fees and living expenses. Immigration Rules require that you are able to meet certain maintenance levels at the point when you apply for your visa.

For further information, please see [www.abdn.ac.uk/international/employment](http://www.abdn.ac.uk/international/employment)

## Employment After Study

Top companies target the University of Aberdeen. We have strong, ongoing links with a full range of employers, and the calibre of our previous graduates has created many opportunities for those who are completing their studies.

## Researcher Development

As a graduate of the University of Aberdeen, you will be valued both within and outside academia. We are committed to providing you with skills that will both support your research as a postgraduate research student (PhD and Masters by Research) and will also enhance your employability at the end of your degree.

Researcher Development aims to support you as a researcher and provide a vibrant programme of development opportunities to foster transferrable skills, stimulate enterprise and creativity, encourage self-reflection and empower you to excel in your chosen field, regardless of whether you choose to remain within academia. Should you remain in the academic sector, we continue to value your development and offer a progressive range of activities to support you as your career develops.

The Researcher Development Training programme focuses on the skills required to excel as a researcher, for example, the knowledge and intellectual abilities to conduct research, the personal qualities and professional standards required and the skills to demonstrate the impact of your research within the wider community.

Throughout your time at Aberdeen you will be able to plan a development programme tailored to your individual needs at the appropriate stage of your research. For example, you will have the chance to develop your skills in areas such as presenting your research and managing your research project, through to helping you to design your CV and enhancing your interview skills.

A sample development programme might look like this:

**Stage 1: Project and time management, working with your supervisor, presenting your research statistics training**

**Stage 2: Creativity & research, public engagement with research, making an impact at conferences, enterprise skills, writing for publication**

**Stage 3: Strategies for research success, intellectual independence, negotiation skills, career planning, writing your CV, interviewing skills**

These are, of course, only a sample of the skills training available and although we recommend them in the year illustrated many are applicable across the entire postgraduate research process.

Complementing and supporting the skills training available is a range of e-learning opportunities ranging from an online research skills course to podcasts designed to assist the impact of the "live" skills training offered.

As well as the group skills training offered there is also a variety of supportive events as well as one-to-one support for postgraduate research students.

At Aberdeen you'll find study options to suit your academic interests, and social and leisure activities that will contribute to your enjoyment and personal growth.

# Student Life

## Accommodation

Living with other students can give you a great start at university. You'll make new friends that will stay with you throughout your university life and beyond.

### Make Yourself at Home

Aberdeen is unusual for a big city university as most of its student accommodation is within walking distance of its main teaching site. University accommodation houses approximately 2,500 students and all single, new students are guaranteed a place as long as they apply by the stated deadline. This is a real benefit compared with other universities of a similar size.

### Halls of Residence

Effective administration and a comprehensive structure of care are ensured in all the Halls. Friendly help is available from the halls management and from Student Resident Assistants (SRAs), who are usually members of the University academic staff, senior students, or mature students, and are there to assist and advise students as part of the University's commitment to student support.

**Hillhead student village** is a mix of traditional halls and flats; all are self-catered with single study bedrooms. The campus is on the north bank of the river Don overlooking Seaton Park. It is 15 minutes walk from the main campus and there is a regular bus service to the King's College campus and city centre.

**Crombie Johnston Halls** are catered halls with single study bedrooms offering a mix of shared and ensuite facilities. The complex is situated in the heart of the King's College campus with a regular bus service to the city centre and Foresterhill campus (Contract for 39 weeks - meals are provided for 37 weeks, you will be required to vacate your room during the 2-week Christmas break but you will be able to leave your belongings). These halls are normally allocated to undergraduate students.

**Kings Hall** consists of single ensuite study bedrooms within flats; they are located on the King's College campus. The contract will be for 51 weeks.

**Elphinstone Road** complex consists of single study bedrooms within flats, located in the heart of the King's College campus, only a minute away from the Library and the Hub. The contract is for 39 weeks and is likely to attract undergraduates.

### Other Accommodation

Students choosing not to live in a Hall of Residence - or not wishing to stay in a Hall after their first year - can choose from a wide range of alternative accommodation throughout the city. There are student lodgings available in all parts of Aberdeen - single or shared rooms, at various levels of luxury, with prices ranging accordingly. There are also private flats which many students prefer to seek out and rent, or even buy, on their own or sharing with friends. The Students' Association can provide a list of solicitors and estate agents on request.

Information regarding alternative accommodation can also be obtained from the Students' Association.

[www.ausa.org.uk](http://www.ausa.org.uk)

### Costs

Up-to-date information on University accommodation, including costs, is available from the University accommodation website.

[www.abdn.ac.uk/accommodation](http://www.abdn.ac.uk/accommodation)

### Applications

Information regarding how to apply online for accommodation will be sent as part of your joining pack. Please ensure that you apply by the stated deadline. Every effort will be made to reserve accommodation for you, though we cannot guarantee late applicants a place. Before accepting any agreement with the University concerning accommodation please read everything carefully. It will not be possible to release you from your commitments without financial penalty.

### Further Information

Accommodation Office

Tel: +44 (0)1224 273502

Fax: +44 (0)1224 272022

Email: [studentaccomm@abdn.ac.uk](mailto:studentaccomm@abdn.ac.uk)

[www.abdn.ac.uk/accommodation](http://www.abdn.ac.uk/accommodation)

## FAQ's

### 1. Is There Special Accommodation For Postgraduates?

Yes, most halls have a postgraduate block. However, you cannot be guaranteed to be placed there. This will depend on when you apply.

### 2. What Kind of Accommodation Can I Apply For?

You can apply for a single study bedroom or flat, catered or self-catered, on-campus or off-campus, 39-51 week leases. The Accommodation Office aims to match your preferences as closely as possible, although it will not always be possible to offer you your first choice.

### 3. I Have a Family, Can I Get University Accommodation?

The University does not offer family accommodation but the Accommodation Office can help by providing a list of local solicitors and estate agents who may be able to assist in locating appropriate accommodation. You can also contact the Students' Association as they advertise private accommodation. Their email address is [infoadvice@abdn.ac.uk](mailto:infoadvice@abdn.ac.uk)

### 4. What are the Different Lengths of Leases?

- 39 weeks catered - runs from mid-September to mid-June (meals provided for 37 weeks, you will be required to vacate the room during the 2-week break at Christmas but you will be able to leave your belongings)
- 39 weeks self-catering - runs from mid-September to mid-June, including holiday period
- 40 weeks self-catering - runs from mid-September to end-June including holiday period
- 51 weeks self-catering - runs from mid-September to early-September, including holiday period

In general, it is better for postgraduate students to choose accommodation with a longer lease (i.e. 51 weeks) as it means then they do not have to move out during holiday periods.

### 5. When Do I Get My Application Form?

Information on how to apply for accommodation will be sent with your joining pack. Please ensure that you apply by the stated deadline.

## Life in Scotland

Life in Scotland is a vibrant and exciting experience that celebrates a rich diversity of cultures. From stunning landscapes to dynamic cities, Scotland offers a unique mix of tradition and innovation.

Scotland is a beautiful country that boasts some of the most spectacular scenery in the world. Dramatic skylines accompany breathtaking seascapes in a place that is soaked in heritage and history. Yet, Scotland possesses a great diversity of landscapes and cultures, and cosmopolitan city living neighbours unspoilt countryside.

To many, Scotland is characterised by castles, kilts and ceilidhs, William Wallace and the works of Burns. However, Scotland's colourful cultural life creates a backdrop to its thriving arts and creative industries. For a modest sized country of just over five million, Scotland has proven to be a breeding ground for innovation and ingenuity, whilst retaining a unique cultural identity; although one of the four countries that make up the UK, Scotland possesses its own legal and educational system and, since 1999, its own devolved Parliament.

Scotland's businesses and education institutions are internationally recognised world leaders in many areas, specifically life sciences, computing and oil and gas. Higher Education in Scotland was established in the 15th century and many countries have since adopted a similar system, including the US and France. With an emphasis on independent thinking, a Scottish education encourages skills that are much sought-after by employers.

### Made in Scotland

Scotland has been the birthplace for an impressive number of inventions that have changed and shaped the world we live in. For example, the television and telephone belong to the Scottish-based scientific pioneers John Logie Baird and Alexander Graham Bell, respectively; whilst in the field of medicine, penicillin, antiseptic and anaesthesia have all been discovered and developed by Scots, as well as the more recent cloning of Dolly the sheep.

Today, Scotland's research economy goes from strength to strength. Ranking as 3rd in the world - ahead of the US and Germany - in terms of research publications and citations per capita, Scotland boasts many centres of research excellence.

### Arts & Culture

Scots are famous for their friendliness and zest for life and this can be seen first-hand during the year round programme of events and festivals. From the Edinburgh Fringe festival (the largest arts festival in the world) to Aberdeen's cultural engagement programme (University of Aberdeen Music Prize, Café Science Programme, Sound Festival and the Aberdeen International Youth Festival etc), through to T in the Park, one of the most critically acclaimed music events on the international festival circuit - Scotland has it all.

Museums and galleries showcase a wide variety of collections whilst theatre thrives. With plenty to offer in the way of bars, clubs, restaurants and shopping, Scotland doesn't disappoint.

### Religion

Like the rest of the United Kingdom, Scotland is a multi-ethnic society, where all backgrounds are welcome and all major religious denominations are represented.

### Weather

Although often epitomised as cold and wet, Scotland, on the whole, has a mild climate and four very distinct seasons. On the east coast, in particular, the climate is relatively dry, temperate in the summer and rarely very cold in the winter.

## Students' Association

**Student Life at Aberdeen offers the best of both worlds with beautiful coast and countryside neighbouring a bustling, lively city that has something for everyone. On-campus our student centre houses everything you could need and more.**

### The Students' Association

The Aberdeen University Students' Association (AUSA) is the organisation that represents and serves your interests, and works to make your time in Aberdeen as happy and enjoyable as possible.

### Advice & Services

AUSA attempts to alleviate student hardship through the provision of its services. It has a Student Advice Centre to answer all your important questions from healthcare to bus routes and everything in between. AUSA also provides a money advice service, which can help you manage your money and help keep you out of debt. The Centre provides a comprehensive resource of private accommodation which is also available online. AUSA is able to provide advice on contracts, landlords and living on your own for the first time.

The AUSA Sabbatical Officers are there to help you with any problems you may have during your time at University. AUSA hosts a comprehensive overnight support service called Niteline, which is a confidential listening and information service run by trained volunteers. AUSA also runs a part-time job service and Volunteering Centre with services to help you find part-time work and volunteering opportunities to enhance your CV.

### Societies and Student Activities

AUSA runs over 120 societies. All of them are different and have something to offer every taste. There's no reason not to get involved!

AUSA has a plethora of activities going on at all times and run successful 'Give it a Go' sessions throughout the year. Students can take part in one-off activities on campus or try out the activities of a particular society before deciding to become a full member. All current societies hold regular events and socials which offer a fantastic opportunity to meet like-minded students.

### Sporting Competition

AUSA is very proud of its sporting achievements, with many of its students actively participating in one of its large number of sports clubs. Successes have been achieved in a wide variety of sports: British University medals have been won in rowing, boxing, shooting, climbing and athletics; and in team events such as volleyball, golf, fencing, rugby and tennis. The University has an excellent record in the Granite City Challenge, where our students compete fiercely against our local rivals: The Robert Gordon University (RGU).

If you don't want to compete, AUSA organises a wide range of non-competitive clubs, intra-mural leagues and one-off sporting events.

### Student Media

The University of Aberdeen has its own radio station, Aberdeen Student Radio, and is one of the only institutions in the UK with a free, fortnightly newspaper. This comes in the form of *Gaudie*, totally run by students, for students, which reports on news from the University and the wider world.

### Aberdeen Students' Charities Campaign

Aberdeen Students' Charities Campaign is a collection of students from across Aberdeen who raise huge amounts of money for local charities through a variety of events.

Two of the largest events are the Student Show, an annual musical show put on by students at the famous His Majesty's Theatre in Aberdeen, and the Torch Parade, the largest torch-lit parade in Europe involving around 2,000 students, 45 lorries and 50,000 spectators.

### Aberdeen University Students' Association

Butchart Building, University Road  
Aberdeen, AB24 3UT  
Tel: +44 (0)1224 272965  
www.ausa.org.uk

### University Music

Even if you are not intending to study for a postgraduate qualification in music, there are many opportunities for musicians of all standards to take part in musical activities at the University. There are ensembles of all sizes, including a symphony orchestra, a concert band, a recorder consort, the chapel choir, a choral society and a new music group. University Music promotes a regular series of concerts, including recitals by visiting international artists as well as by students.

For more information:

Email: [music@abdn.ac.uk](mailto:music@abdn.ac.uk)  
www.abdn.ac.uk/universitymusic

### Events

On a large scale, AUSA organises and hosts a variety of events each year including Freshers' Week and the Graduation Ball. It also hosts smaller events and campaigns such as the Super Teams Sporting Challenge and various campaigns supporting students rights.

## University Sport

**Aberdeen is one of the most successful universities in Scottish and British levels of university sporting competition. The University aims to be the centre of excellence for sport in north-east Scotland, with the opening of Aberdeen Sports Village - our £28 million sports development.**

### Aberdeen Sports Village

Whether a budding sports star of the future or just an occasional exerciser, it is the most exciting time in the University's history for those interested in sport, exercise and health. In summer 2009, phase 1 of a new £28 million flagship sports facility opened, in partnership with Aberdeen City Council and supported by sportscotland. These first-class sports facilities, backed up with an array of excellent services, provide the ideal venue for a range of activities, available to all students, at all levels.

### Facilities in the Sports Village include:

- > Full size, 3rd Generation FIFA-approved indoor football pitch
- > IAAF-approved indoor athletics area with 135 metre running straight, throwing and jumping areas, and free-weights zone
- > Large multi-purpose sports hall
- > 4 squash courts (2 glass-backed)
- > Large state-of-the-art fitness suite and performance gymnasium
- > 2 studios
- > IAAF-approved outdoor athletics area comprising 400 metre outdoor track, jumping and throwing areas, and stadium
- > Full-sized grass football pitch
- > Floodlit water based hockey pitch
- > Performance and well-being Centre, with physiotherapy clinic
- > Crèche, café and spectator seating

### Services provided include:

- > Exercise classes that cater for a wide range of tastes and levels of ability - from novice to advanced, including morning, lunchtime and evening classes such as aerobics, circuits, sports conditioning, boxfit, body conditioning, step and studio cycling
- > Personal advice on all aspects of fitness and training, health-related fitness, nutrition and weight management, fitness assessments, body fat analysis and one-to-one training

The next phase of the facility, Aberdeen Aquatics Centre, is currently in development and is expected to open in January 2014. This world-class facility will include a 50-metre, 10-lane Olympic-standard swimming pool, an international-standard diving pool with moveable floor, a land conditioning suite and a health suite. The Aquatics Centre will be located adjacent to Aberdeen Sports Village.

This fantastic facility enabled the North of Scotland to play an integral part in the run up to the London 2012 Olympic Games through the hosting of Cameroon's Pre-Games Training Camp. It will also facilitate the city's involvement in the 2014 Commonwealth Games. It is a regular training ground for elite athletes and allows sports stars of the future to achieve their full potential and compete at the highest level. Add to this a vibrant and growing Sports Union with over 50 sports clubs, 3,500 members, numerous events and six intra-mural leagues. We look forward to greeting students for a sporting experience second to none.

### Other Sports Facilities

#### King's Pavilion and Playing Fields

The King's Pavilion contains the current swimming pool, a strength and conditioning suite and changing facilities. The attractive outdoor playing fields boast two rugby pitches, a lacrosse pitch, an artificial cricket wicket, as well as a single tennis court and three additional tennis courts, which double as a floodlit training area during winter.

#### Balgownie Playing Fields

Situated two miles from the King's campus in the Bridge of Don, Balgownie plays host to football and shinty teams, providing extensive pitches and changing rooms.

#### Hillhead Centre

Situated approximately one mile from King's campus next to the Hillhead Halls of Residence, the Hillhead Centre boasts a full-size grass football pitch, a full-size sand-dressed synthetic pitch suitable for 7-a-side football and hockey, and an impressive sports pavilion. We also have a boathouse on the banks of the river Dee which serves the thriving rowing club, as well as a climbing bothy in Royal Deeside.

#### Who Are We?

The University Sport & Exercise Team and the Sports Union work in partnership to provide sporting activities for everyone.

#### Sports Union

The Sports Union is responsible for the management of all aspects of the sports clubs at the University of Aberdeen. Aberdeen boasts the second largest number of clubs of any Scottish University and are proud to offer competitive sport aimed at beginner level all the way up to international. Most clubs compete regionally, in British University & College Sport (BUCS) and Scottish University Sport (SUS) leagues against teams from any of 150 universities across the UK.

Alongside supporting our sports clubs, the Sports Union runs a series of one-off events and competitions throughout the year. We start with the Ironman challenge in October before really getting going after Christmas with the Sports Ball, Boat Race, Granite City Challenge and Superteams competitions.

The annual Blues Ball sees around 600 guests celebrating the year's sporting achievements. Our showcase event is Superteams, a multi-discipline event which attracts over 500 participants and is designed for those wishing to enjoy a light-hearted, fun-filled day of sport with a healthy element of competitiveness!

There is a friendly rivalry with The Robert Gordon University (RGU), culminating in the annual university Aberdeen Asset Boat Race and Granite City Challenge in March, in which all University of Aberdeen teams compete against their RGU counterparts.

We stay busy after Easter too with big one-day tournaments in Rugby 7's, Football 6's and Hockey. If you want to play sport we have something for you!

### Sport & Exercise Team

Our professional team consists of highly qualified and experienced staff including sports scientists and physical education teachers. We provide excellent sporting, and health and fitness-related services for students, staff and members of the public. The team provides first-class instruction of exercise classes, from pilates through to specialist sports conditioning, for all levels of participant. The team also boasts a diverse range of sporting expertise, including Strength and Conditioning (coaching for the Scottish and Local Institutes of Sport), and extensive experience in coaching a variety of sports, from recreational to elite level.

### Sports Scholarship and Bursary Scheme

On an annual basis we provide support for high performance athletes through our Bursary and Scholarship Schemes. This allows us to provide strength and conditioning, physiotherapy support and a seminar programme as well as financial support for up to 20 sport bursars who will be competing at, or close to national level, in their chosen sport. We are also proud to offer the John Robertson Scholarship and the George Yule Sports Scholarship, which provide support of up to £3,000 and £1,250 per annum to two outstanding athletes during their studies at the University.

### What Does it Cost?

Students and staff of the University automatically obtain use of facilities and services at a reduced rate. A flexible membership scheme also exists, providing excellent value for regular users.

### How Do I Find Out More?

For more information please visit our websites:

## The Hub

The Hub is located in the heart of the campus at the University of Aberdeen and is a great place to meet friends, eat, shop, go online or just relax.

### Thirsty?

Grab a coffee. Get a vitamin and energy boost with a range of fruit smoothies.

### Need to Check Your Emails?

Comfy chairs, funky desks, wireless internet connection - what more could you ask for? Special sofas where you can slouch in style and pop your laptop on the arm? We've got those too.

### HubGrub. Food, Glorious Food...

How hungry are you? In a hurry? Fancy something a little bit spicy? Or just after some good old comfort food? Take a wander up to the first floor and discover what we are serving up today.

### ShopHub

Indulge in some retail therapy. ShopHub gives you a huge choice of snacks, magazines, stationary, gifts and clothing. Our clothing range is full of University branded clothing, ties, hoodies and sports gear – loads of stuff to get your mitts on!

### Infohub

The Infohub is your first port of call for all student services, information and enquiries. You can drop in at any time to get key information or guidance from one of our friendly and experienced staff, or make an appointment to see a specialist adviser. As well as providing information on most student-related issues, the Infohub can check your registration status, prepare student letters, provide directions, issue ID cards, help with payment queries and much more!

[www.abdn.ac.uk/infohub](http://www.abdn.ac.uk/infohub)

### It's Good to Talk

If you need to talk to someone, head to the Student Advice & Support Office where we can offer an impartial and confidential ear. The University Careers Service is also available for advice on future career planning.

There is so much more to see and do at the hub... you'll just have to come and see for yourself.

[www.abdn.ac.uk/hub](http://www.abdn.ac.uk/hub)

## The University and the Environment

Almost 20,000 people create a big impact on our environment. Here at the University of Aberdeen we take this very seriously. Since 2005 the Environment Office has been working hard, putting environmental protection at the forefront of policy and practice.

The main role of the Environment Office is to reduce the impact the University has on the environment. This means that we give advice and support to help staff and students make informed decisions on travel, energy use, water use, recycling and waste disposal. Some of the things we get up to include:

### Travel

The University has a Sustainable Travel Plan which incorporates lots of projects and initiatives to help staff and students travel in environmentally sustainable ways. The University promotes many forms of sustainable transport from walking and cycling to public transport and car-sharing. The University also works closely with the local authority, bicycle groups and public transport operators to provide facilities and discounted rates to encourage sustainable travel.

### Energy and Water

The University has developed a Carbon Management Plan and this details the carbon emissions for the base year 2008/09 together with the target to reduce these emissions by 20% by 2014. One area where the University has reduced carbon emissions is by installing a Combined Heat and Power (CHP) plant. This provides over 50% of the electricity and over 90% of the heating for the Old Aberdeen Campus, reducing CO<sub>2</sub> emissions by over 3,000 tonnes p.a. compared to the old system. Additionally where electricity is purchased off the grid over 27% is green electricity.

The Carbon Management Plan details a number of additional measures to be implemented, some of which have already been completed. The latest development is the University now has an internal web page where users can view current electricity use in buildings together with details on the cost. In addition to reducing carbon dioxide emissions we place a high priority on water conservation, fitting toilet and showering facilities with a range of water saving technology and automatic controls.

### Recycling and Waste Disposal

The University currently recycles 35% of its waste and re-uses just over 1%. On campus, there are Recycling Points at two locations, at Hillhead and Crombie-Johnson, which cater for domestic waste from halls of residence including plastic bottles, glass bottles, food and drink cans, paper, cardboard and textiles. We support waste re-use in particular and actively endorse the local charities including the New Hope Trust, Oxfam and the Creative Waste Exchange.

We also have a partnership with Edinburgh based ReusingIT, donating between 400-600 phased-out PCs a year to NGOs, charities and community projects in the UK and Africa.

The University runs a thermal mug promotional called 'SMUG Mugs' where if you use a thermal mug at Tiki outlets on campus you will receive a discount on your purchase. This, along with many other initiatives, have successfully raised the profile of sustainable waste management on our campus.

### Fairtrade

The University of Aberdeen and the Students' Association have been awarded Fairtrade University status. Fairtrade gives power back to consumers who can make a difference to the lives of disadvantaged producers in developing countries by choosing Fairtrade certified products.

For more information, please visit [www.abdn.ac.uk/fairtrade](http://www.abdn.ac.uk/fairtrade)

[www.fairtrade.org.uk](http://www.fairtrade.org.uk)

Choose products with the FAIRTRADE Mark

## able

to do your bit

### Able Campaign

Our impact is not just local but affects us nationally and internationally. It is so important that we encourage students and staff to adopt sustainable working practices which can also be adopted outside the University environment.

The Environment Office has developed the able campaign to highlight environmental information and initiatives. Whilst the overall task of minimising our environmental impact on the planet is huge, we can all take steps ourselves. You will see the able campaign on notice boards, e-bulletins, events, and more.

Check out [www.abdn.ac.uk/able](http://www.abdn.ac.uk/able) for more information.

### Follow the Environment Office top tips to becoming a sustainable student:

- > Consider walking, cycling or taking the bus to campus. One third of all journeys are less than a mile in Aberdeen
- > Try taking the train home when term finishes. Students can save a third on most rail fares
- > Switch off unused appliances
- > Report any faults such as leaking taps to the Estates Section
- > Only boil enough water in your kettle for what you want to use
- > Switch off lights when there is sufficient daylight
- > Do not obstruct radiators
- > Instead of turning the heating up put on a jumper
- > Only print what is necessary
- > Duplex print and photocopy – this can be done on campus and will save you money!
- > Use single sided scrap paper for note taking
- > Use the 'Shred-It' Recycling Points to recycle the waste paper you produce
- > Consider giving unwanted clothing to charity through the textile banks and giving other items to charity by participating in the end of term hall clearances

Aberdeen is an attractive city in which to live, from the buzz of a cosmopolitan city centre to the green parks, open spaces and sandy beaches.

THE DIFFERENCE IN

# Aberdeen the City

# The City

> Third largest city in Scotland

> Ranked safest in the UK

> Vibrant cosmopolitan city

> Rugged coastline and beautiful countryside

Welcome to Scotland's third largest city - a place with a lively combination of historic charm, thriving economy and cosmopolitan community. Aberdeen, home to 250,000 people, is the perfect centre for work, leisure and play.

Big enough for the 'big city' experience, student-friendly Aberdeen is compact enough to make it easy to find your way around and make friends. From the historic 15th century University campus in Old Aberdeen it's just a short bus ride to the bustling city-centre of Europe's energy capital. Local crime rates are low, and the University operates a 'Safe Campus' code for the benefit of students.

Aberdeen is an attractive city in which to live, with green parks and open spaces. To the east of the city lies the North Sea and a coastline of sandy beaches, while to the west stretches Royal Deeside, the beautiful valley of the River Dee. It's just half-an-hour from the buzz of Union Street to the tranquillity of the nearby hills and countryside in one of the most beautiful parts of Scotland.

Where else can you have lectures in the morning and ski in the afternoon, or sail, or wind surf, or hill climb, or canoe or...? From seaside to mountainside - it is all on your doorstep at Aberdeen! Look on our website for the huge range of sports and other activities waiting for you.

#### Nightlife

At night Aberdeen really lights up with a nightlife second to none. The huge variety of pubs and clubs ranges from trendy nightclubs, to cosy, old world pubs full of atmosphere and everything in between.

A vibrant music scene includes regular major tours by the biggest names around and an eclectic mix of venues and dance floors promote the home-grown talent of local acts and DJs.

With a student population of over 50,000, Aberdeen caters for all tastes in arts, culture, leisure and entertainment. Aberdeen has lots to offer, with the well-known His Majesty's Theatre, Music Hall and Aberdeen Exhibition and Conference Centre (AECC) regularly attracting national and international artists and companies. Four cinema multiplexes, Art Gallery, Maritime Museum and first-class sports and leisure facilities means there is always plenty going on.

#### Culture

The University is committed to supporting a wide range of cultural activities. Highlights include the Director's Cut series that attracts leading film-makers to Aberdeen to discuss their work, University Music which offers a programme of concerts throughout the academic year, and the University's Music Prize - now an established international composition event. This year, the University of Aberdeen was proud to host Europe's biggest science festival. The British Science Festival welcomed a host of celebrated scientists and leading thinkers to Aberdeen for a vibrant celebration of science, engineering and technology.

#### Shopping

Aberdeen has everything a city in the UK should have and more. You'll find all the major supermarket and retail chains in Aberdeen, with five large city-centre shopping malls, including the piazza-style Academy and the Union Square centre adjacent to the bus and train station. From high street stores and designer boutiques to quirky independent outlets and thrift shops, shopaholics will be delighted by the quantity and quality of places on offer.

#### More for Your Money

You may be surprised to hear that students find Aberdeen a cheaper city to live in than Edinburgh or Glasgow. If you need to boost your budget, Aberdeen City and Shire's buoyant local economy means there is no shortage of holiday and part-time work. Visit [www.ausa.org.uk](http://www.ausa.org.uk) for more information.

#### More Information

For more information about Aberdeen, visit [www.acsef.co.uk](http://www.acsef.co.uk)  
[www.aberdeencity.gov.uk](http://www.aberdeencity.gov.uk)  
[www.visitscotland.com](http://www.visitscotland.com)

To download the Lonely Planet Guide to studying in Aberdeen, visit [www.abdn.ac.uk/documents/lonely-planet.pdf](http://www.abdn.ac.uk/documents/lonely-planet.pdf)

Alternatively you can download the free Study Aberdeen iPhone app. Either download a QR code reader to your phone and scan the code or search the App Store for 'Study Aberdeen'.

## Fast Facts

- > A 15-minute walk east of the campus leads to the salt-tanged air of Aberdeen's miles and miles of sandy beach
- > As well as a mind-expanding stretch of sandy beach, Aberdeen has its own permanent fun fair, complete with 100ft Grampian Eye Ferris wheel, three roller coasters and a log flume. Nearby you'll also find a swimming pool, sauna, climbing walls, skate park, restaurants, cafés and a 10-screen cinema
- > Aberdeen is full of great multi-cultural grazing grounds. Restaurants and takeaways include Chinese, Vietnamese, Greek, Indian, Italian, Spanish, Japanese, Mexican, Polish and Turkish
- > Aberdeen's harbour mouth is one of the best locations in Scotland for watching dolphins from the shore
- > Three of Scotland's five main ski centres are only two hours from campus. Aviemore, the Cairngorm Mountain, Glenshee and the Lecht provide perfect pistes for board-riders and alpine skiers
- > The University's cultural engagement programme includes year-round events like Director's Cut Series, Café Science Programme and University of Aberdeen Music Prize
- > Fifteen miles south of campus the historic fishing port of Stonehaven has an attractive cliff fringed harbour and the gloriously crumbling Dunnottar Castle. It's so picturesque Franco Zeffirelli filmed Hamlet with Mel Gibson here
- > For 267 years the city of Aberdeen had two universities when there were only two universities in the whole of England
- > "Bon Accord". Knowing what Aberdeen's motto means really helps you feel at home. In case anybody asks it means: 'happy to meet, sorry to part, happy to meet again'.

## September

### Freshers' Week

Freshers' Week is the first week of term for new students. There is a whole schedule of events to keep you entertained, from the society and sports fayres, to pub quizzes and nights out. The general rule is to just have fun and meet lots of new people!

### British Science Festival 4-9 September

This year, the University of Aberdeen was proud to host Europe's biggest science festival with an exciting programme of events for people of all ages and interests.

[www.britishtscienceassociation.org/web/britishtsciencefestival](http://www.britishtscienceassociation.org/web/britishtsciencefestival)

## November

### Sound Festival 1-11 November

Sound, North East Scotland's festival of new music is partnered by the University. It is driven by the passion to make new music accessible to audiences of all ages and backgrounds, and brings together a large range of musical genres, appealing to a wide variety of tastes and encourages people to discover new sounds and widen their musical horizons.

[www.sound-scotland.co.uk](http://www.sound-scotland.co.uk)

### Postgraduate Open Days

Find out about applying, funding, careers, university life and the city. You'll also be able to explore the campus and visit student services. The Arts, Humanities and Social Sciences day is on the 3rd November and the Medical, Natural and Physical Sciences event is on the 7th November.

[www.abdn.ac.uk/pgopenday](http://www.abdn.ac.uk/pgopenday)

## December

### Hogmanay/ New Year's Eve

Aberdeen hosts a number of New Year's Eve celebrations. To mark the beginning of 2012 the city put on a spectacular fireworks display launched from the roof of His Majesty's Theatre. There was also a series of Happy New Year messages in a number of languages projected on the historic building during the countdown, acknowledging the multi-cultural population of Aberdeen City and Shire.

### New Year Stonehaven Fireballs 31 December

Stonehaven welcomes the new year in each year by swinging "The Fireballs" – a unique and colourful festival.

[www.stonehavenfireballs.co.uk](http://www.stonehavenfireballs.co.uk)

## March

### Aberdeen Jazz Festival

Bringing together all styles of jazz including blues, hip-hop, soul, funk and Rat Pack swing, the Aberdeen Jazz Festival has something to suit everyone's musical tastes.

[www.aberdeenjazzfestival.com](http://www.aberdeenjazzfestival.com)

### Aberdeen Asset Boat Race and Granite City Challenge

There is a friendly rivalry with The Robert Gordon University (RGU) culminating in the annual University Aberdeen Asset Boat Race and Granite City Challenge. Two of the biggest inter-varsity events of the year, they're not to be missed!

[www.ausa.org.uk/boat\\_race](http://www.ausa.org.uk/boat_race)

[www.ausa.org.uk/granite\\_city\\_challenge](http://www.ausa.org.uk/granite_city_challenge)

## April

### Student Show

The Student Show has been running for 90 years, putting on an outstanding musical comedy show at His Majesty's Theatre every year. Written and performed by students, the show raises thousands of pounds for the Aberdeen Students' Charities Campaigns.

[www.ausa.org.uk/student\\_show](http://www.ausa.org.uk/student_show)

### Torch Parade

Torch Parade is the largest torch-lit parade in Europe involving around 2,000 students, 45 lorries and 50,000 spectators.

[www.ausa.org.uk/torch](http://www.ausa.org.uk/torch)

## May

### University of Aberdeen May Festival 10-12 May

We'll be hosting a festival of writing, science, culture, art and food with international speakers coming from all over the UK and abroad including great writers, scientists, musicians, filmmakers and media personalities.

[www.abdn.ac.uk/events](http://www.abdn.ac.uk/events)

## June

### RockNess

Winner of NME's 'Best Small Festival' Award for two years running, RockNess hosts a foray of music artists in Loch Ness. Headliners in 2012 included Biffy Clyro, Mumford & Sons and Ed Sheeran.

[www.rockness.co.uk](http://www.rockness.co.uk)

### The Royal Highland Show

A very Scottish affair with pipe bands, tossing the caber, highland dancing and traditional music. A must for anyone wanting to experience some authentic Scottish culture.

[www.royalhighlandshow.org](http://www.royalhighlandshow.org)

## August

### International Youth Festival

One of the world's biggest celebrations of youth arts celebrated its 40th anniversary in 2012. Aberdeen International Youth Festival offers the very best in International performing arts.

[www.aiyf.org](http://www.aiyf.org)

# What's going on

### Throughout the year:

**The Director's Cut:** Presenting a series of discussions staged at the University of Aberdeen's King's College campus with well-known and innovative international filmmakers and broadcasters. Previous broadcasters have included the likes of Sir David Attenborough.

[www.abdn.ac.uk/directorscut](http://www.abdn.ac.uk/directorscut)

**The Concert Season:** The Music Department's annual programme of events includes a winter and spring series and presents a series of concerts and recitals ranging from early music to first performances.

[www.abdn.ac.uk/events](http://www.abdn.ac.uk/events)

**Café Scientifique:** The Café Scientifique series is an informal programme of events featuring discussion and debate on the latest topics in scientific research.

[www.abdn.ac.uk/science/public/cafescience](http://www.abdn.ac.uk/science/public/cafescience)

**Elphinstone Institute Tuesday Evening Lectures:** Publicised as part of the King's Museum Tuesday evening lecture series, these events are organised by the Elphinstone Institute and examine and celebrate the traditions of the North and the North-East of Scotland.

[www.abdn.ac.uk/events](http://www.abdn.ac.uk/events)

### Fancy a Laugh?

Breakneck Comedy is the most dynamic and fastest growing Comedy Club in Aberdeen and the North East of Scotland. Showcasing the best up and coming comedians from all over Scotland, Breakneck Comedy presents a brilliant weekly line up of great Stand Up Comedy throughout the city and Shire.

[www.breakneckcomedy.co.uk](http://www.breakneckcomedy.co.uk)

### What else?

As you can see, Aberdeen has lots to offer. The His Majesty's Theatre, Music Hall and Aberdeen Exhibition and Conference Centre (AECC) regularly attract national and international artists and companies. Recent big acts include Noel Gallagher, Snow Patrol and Emeli Sandé.

> Inexpensive travel options

THE OLD TOWN HOUSE

## Getting Here

Located within Aberdeen city at the heart of a diverse and thriving regional economy, Aberdeen's pivotal role in the international oil and gas industry means that it enjoys excellent communications and travel links.

### By Air

Aberdeen's international airport is served by a number of major carriers, providing an extensive network of routes throughout the UK, direct to Europe and worldwide through major hubs. British destinations include three London airports (Heathrow, Gatwick and Luton - just over an hour's flight time at fares from around £50 return), Belfast, Birmingham, Bristol, Cardiff, Dublin, Durham Tees Valley, Exeter, Humberside, Leeds, Bradford, Manchester, Newcastle, Norwich, Nottingham, East Midlands, Southampton, as well as the Scottish Highlands and Islands. Other destinations include Amsterdam, Antalya, Bergen, Copenhagen, Dalaman, Esbjerg, Frankfurt, Malaga, Oslo, Paris, Stavanger and Tenerife.

There is a frequent bus link to the city centre, and taxis from the airport to the University cost around £15.

[www.aberdeenairport.com](http://www.aberdeenairport.com)

### By Bus

First-class roads south to Edinburgh, Glasgow, and onwards, carry fast coach services linking Aberdeen with the UK's major cities. Competitive return fares, using Travelcard schemes, make coach travel popular with students. The earlier you book your travel, the cheaper the prices, for example:

> **Birmingham: £22.00** > **Manchester: £13.95**  
 > **Cardiff: £71.60** > **Edinburgh: £6.30**  
 > **Glasgow: £6.30** > **Inverness: £1.00**  
 > **London: £16.20**

NUS Extra travelcards cost £12.00. Taxis from the bus station to the University cost around £7.00.

Sample fares taken from:  
[www.megabus.com](http://www.megabus.com),  
[www.stagecoachbus.com](http://www.stagecoachbus.com) and  
[www.nationalexpress.com](http://www.nationalexpress.com) and  
 are correct as at August 2012.

### By Train

Rail services connect Aberdeen both north and south. There are regular direct trains to London, and services from Edinburgh and Glasgow link with other mainline routes. Inverness, the scenic West Coast and Highlands are reached northwards. Sample return fares using a 16 – 25 Railcard, excluding Friday travel are:

> **Birmingham: £90.55** > **Manchester: £72.65**  
 > **Cardiff: £122.45** > **Edinburgh: £27.40**  
 > **Glasgow: £34.60** > **Inverness: £26.95**  
 > **London: £92.25**

Please note that the above prices are based on booking an off-peak return. If you book in advance you can often buy cheaper single tickets.

A 16 – 25 Railcard costs £28. Taxis from the railway station to the University cost around £7.00. Sample fares correct as at August 2012.

### By Car

Entering the city from the south or west, follow signs for the A90 (Fraserburgh and Peterhead). This leads round the ring road (Anderson Drive). Exiting from a roundabout (signed Old Aberdeen) onto Cairncry Road, continue to follow the A90 signs through two further roundabouts onto St. Machar Drive. After a third roundabout, the road bisects Old Aberdeen and local signs will direct you to University sites. From the north, Old Aberdeen is signposted on the A96 (from Dyce and Inverness) and on the A90 (from Peterhead).

**University Postcode:** AB24 3FX

### GPS:

Lat: 57:09:54N (57.16501)  
 Lon: 2:05:57W (-2.09912)

**Grid Ref:** NJ 941 082

### By Local Bus

The number 20, from Littlejohn Street, next to Marischal College, links the city centre with the main Old Aberdeen site, and the Hillhead Halls student village. The number 19, from Broad Street, opposite Marischal College, passes to the west of the University along Bedford Road. From Union Street, the city's main thoroughfare, the numbers 1, 2, and 14, travelling east, all run along King Street and pass the University. Alight just after the King's playing fields on your left. Aberdeen buses require exact fare, so have 10p and 5p coins ready, or buy a bus Farecard from local shops.

### Nearest stops to University:

Old Aberdeen (bus no. 20)  
 Bedford Road (bus no. 19)  
 King Street (bus no. 1, 2 and 14)
