

## Using Firefox

1. Download and install FireFTP (download from <http://fireftp.mozdev.org/> or do a search)
2. When installed, restart Firefox
3. Launch FireFTP by selecting Tools-FireFTP
4. A new Firefox tab will open; select 'Create an account'.

On the Main tab,

At 'Account name', enter relevant name  
At 'Host', enter **wegener.uoa.abdn.ac.uk**  
At 'Login', enter userid provided  
At 'Password', enter password used to access secure site

Select OK

5. Select **Connect** to connect to FTP server.

The left hand window lists files on your PC, the right hand window lists files on FTP server.  
Select relevant files and use arrow keys in window to transfer
