

## Several issues relating to DNA-Information in the criminal justice system

Speaker: Dr. Jungnyum Lee

Dr. Jungnyum Lee is a Lecturer (Ewha University, South Korea) and an Alexander von Humboldt Scholar (Georg-August-University Göttingen, Germany). She has taught Criminal Law, Criminal Procedural Law, Criminology and Forensic Science (on scientific investigation) since 2008. She has worked for the National Assembly of South Korea as a Senior Legislation Research Official in Criminal Law (2009-2011). She has also worked as an Advisory Committee Member of the Korean National Forensic Service (2010-2012). She specializes in Criminal Law, Criminal Procedural Law, Criminology and Forensic Science (on scientific investigation) and Legislation Policy. Her research areas are among other things international comparative criminal law with a focus on the legal systems of Germany, the United Kingdom, the United States of America and South Korea. Furthermore, she has issued many expert opinions on the criminal legislative policies in South Korea. She is author of various articles and books on matters such as forensic evidence (especially DNA evidence), hate crime, crimes against children and women (sexual abuse, sexual assault, violence), crime prevention policies (preventive custody, electronic anklet) etc.
