

-PUBLICATIONS

Stephen Robert REID

1. Reflection of finite elastic waves, Ph.D. Thesis, University of Manchester, July 1969.
2. On the construction of a mathematical model for the inelastic deformation of concrete, CEGB Report, RD/L/N106/70, 1970.
3. Amplitude of interface waves in explosive welding, with W. Johnson, Nature (Physical Science), 231, No. 26, 205-206, June 28th 1971.
4. The displacement field and its significance for certain minimum weight two dimensional frames using the analogy with perfectly plastic flow in metal working, with W. Johnson, N.R. Chitkara and I.F. Collins, Int. J. Mech. Sci., 13, 547-561, 1971.
5. The influence of non-linearity upon the reflection of finite amplitude shock waves in elastodynamics, Quart. Journal Mech. and Applied Math., XXV, Pt. 2, 185-206, 1972.
6. On the influence of acceleration stresses on the yielding of discs of uniform thickness, Int. J. Mech. Sci., 14, 755-763, 1972.
7. The impact, rebound and flight of a well-inflated pellicle as exemplified in Association Football, with W. Johnson and R.E. Trembaczowski-Ryder, The Manchester Engineer, No. 5, 1972-1973.
8. The rolling torus: Some elastic-plastic considerations, with W. Johnson, Int. J. Mech. Sci., 16, 45-62, 1974.
9. A discussion of the mechanism of interface wave generation in explosive welding, Int. J. Mech. Sci., 16, 399-413, 1974.
10. Investigation of the modulation of interface waves in explosive welding, with D.J. Langdale, Proc. 15th M.T.D.R. Conference, Sept. 1974, 391-398, MacMillan Press Ltd.
11. Ricochet of spheres off water, with W. Johnson, J. Mech. Eng. Sci., 17, No. 2, 71-81, 1975.
12. Prediction of the wavelength of interface waves in symmetric explosive welding, with N.H. Sherif, presented Int. Conf. on High Energy Rate Metalworking using Explosives, Warsaw, Feb. 1975. Also in J. Mech. Eng. Sci., 18, No. 2, 87-94, 1976.

13. Experimental investigation of the rolling torus load limiter, with W. Johnson and L.B. Singh, *Int. J. Mech. Sci.*, 17, 603-615, 1975.
14. The Gadd Severity Index and measurements of acceleration when heading an Association Football, with W. Johnson and J. Skorecki, *Proc. Int. Conf. on Biokinetics of Impacts*, IRCOBI, Birmingham, England, 187-196, Sept. 1975.
15. The effect of spherical projectile speed in ricochet off water and sand with A.S. Soliman and W. Johnson, *Int. J. Mech. Sci.*, 18, 279-284, 1976.
16. Photoelastic approach to the determination of the flexural rigidity of rectangular beams with abrupt changes in section, with N. Sanderson, *Int. J. Mech. Sci.*, 18, 341-346, 1976.
17. Large deformations of thin-walled circular tubes under transverse loading. I. An experimental survey of the bending of simply supported tubes under a central load, with S.G. Thomas and W. Johnson, *Int. J. Mech. Sci.*, 18, 325-333, 1976.
18. Ditto. II. Experimental study of the crushing of circular tubes by centrally applied opposed wedge-shaped indenters with A.R. Watson, W. Johnson and S.G. Thomas, *Int. J. Mech. Sci.*, 18, 387-397, 1976.
19. Ditto. III Further experiments on the bending of simply supported tubes with A.R. Watson and W. Johnson, *Int. J. Mech. Sci.*, 18, 501-509, 1976.
20. The compression of crossed layers of thin tubes with W. Johnson and T. Y. Reddy, *Int. J. Mech. Sci.*, 19, 423-437, 1977.
21. Effect of strain hardening on the lateral compression of tubes between rigid plates, with T. Yella Reddy, *Int. J. Sol. Struct.*, 14, 213-225, 1978.
22. Wake instability mechanism for wave formation in explosive welding, *Int. J. Mech. Sci.*, 20, 247-253, 1978.
23. Metallic energy dissipating systems, with W. Johnson, *Applied Mechanics Reviews*, 31, No. 3, 277-288, March, 1978.
24. Communication: Inextensional collapse of thin-walled tubes under axial compression, *J. Strain Anal.*, 13, No. 4, 240-241, October, 1978.
25. Influence of geometrical parameters on the mode of collapse of a "pinched" rigid-plastic cylindrical shell, *Int. J. Sol. Struct.*, 14, 1027-1043, 1978.
26. A note on fracture and deformation in cubical box structures due to impulsive loading, with A.G. Mamalis, *Int. J. Mech. Sci.*, 21, 53-61, 1979.

27. Effect of strain hardening on the large plastic deformation of a cantilever, with T.Y. Reddy, *J. Appl. Mech.*, 45, 953-5, 1978.
28. Lateral compression of tubes and tube-systems with side constraints, with T.Y.Reddy, *Int. J. Mech. Sci.*, 21, 187-199, 1979.
29. On obtaining material properties from the ring compression test, with T.Y. Reddy, *Nucl. Engg. Design*, 52, 257-263, 1979.
30. Effects of strain rate on the dynamic lateral compression of tubes, with T.Y. Reddy, *Proc. Conf. on Mechanical Properties at High Rates of Strain*, held in Oxford, March 1979, *The Institute of Physics Conf. Series No. 47*, Ch. 3, 288-298.
31. Phenomena associated with the crushing of tubes between rigid plates, with T.Y. Reddy, *Int. J. Solids and Structures*, 16, 545-562, 1980.
32. Large deformation behaviour of thick rings under lateral compression, with T.Y. Reddy, *Proc. of Symposium on Large Deformations*, Delhi, 1979, 108-121, *South Asian Publishers PVT Ltd.*, 1982.
33. Pipe-whip restraint systems, S.R. Reid, W. Johnson and T. Yella Reddy, *Chartered Mechanical Engineer*, 55-60, June 1980.
34. Inertia effects in the dynamic compression of tube and ring systems, *Proc. Symposium on Large Deformations*, Delhi, 1979, 73-87, *South Asian Publishers PVT Ltd.*, New Delhi, 1982.
35. Piercing of cylindrical tubes with W. Johnson and S.K. Ghosh, *Proc. Conf. on Pressure Vessels and Piping - Pipe Whip Tech. Session*, San Francisco, 12-18 August 1980, also *J. Press Vess. Tech.*, ASME, 103, 255-260, August 1981.
36. The quasi-static piercing of cylindrical tubes or shells, with W. Johnson, S.K. Ghosh, A.G. Mamalis and T.Y. Reddy, *Int. J. Mech. Sci.*, 22, 9-20, 1980.
37. Device for applying localised constant force pulses to a structure, with S.K. Ghosh and M. Golshekan, *5th Symposium on Engineering applications of Mechanics*, Ottawa, 16-17 June 1980, 189-193.
38. Dynamic deformation of tube and ring systems, with T. Yella Reddy and C.D. Austin, *5th Symposium on Engineering Applications of Mechanics*, Ottawa, 16-17 June 1980, 301-305.
39. Piercing and hole flanging of sheet metals; a survey, with W. Johnson and S.K. Ghosh, *11th IDDRG Conf.*, France 1980.

40. Model road-tank metal vessels subjected to internal explosive or static penetration, with W. Johnson and T. Yella Reddy, *J. Strain Analysis*, 15, No. 4, 225-233, 1980.
41. Pipe whip: Tubular cantilever beams subjected to localised constant force pulses, with S.K. Ghosh, M. Golshekan and W. Johnson, *Proc. 6th Structural Mech. in Reactor Technology Conf.*, Paris, August 1981, paper F8/3.
42. On thin rings and short tubes subjected to centrally opposed concentrated loads, with W. Johnson, S.K. Ghosh and T.X. Yu, *Int. J. Mech. Sci.*, 23, 183-194, 1981.
43. Bending of long steel and aluminium rods during end impact with a rigid target, with A.J. Edmunds and W. Johnson, *J. Mech. Eng., Sci.*, 23, No. 2, 85-92, 1981.
44. Mechanics of high speed impact at normal incidence between plasticine long rods and plates, with W. Johnson, A.K. Sengupta and S.K. Ghosh, *J. Mech. Phys. Sol.*, 29, 413-445, 1981.
45. Influence of strain hardening on the deformation of thin rings subjected to opposed concentrated loads, with W.W. Bell, *Int. J. Sol. Struct.*, 18, 643-658, 1982.
46. Energy dissipation characteristics of steel tube clusters, with J.F. Carney and C.D. Austin, *Proc. 23rd AIAA/ASME/ASCE/AIIS Structures, Structural Dynamics and Materials Conf.*, New Orleans, 10-12 May 1982 (also submitted to *AIAA Journal*). AIAA 83-0759-CP, 420-428.
47. The normal impact of square section long rods on "rigid" and "soft" targets, with A.K. Sengupta, C.J. Wigglesworth, S.K. Ghosh and W. Johnson, *J. Mech. Eng. Sci.*, 24, No. 1, 31-35, 1982.
48. Modelling the dynamic behaviour of long rods impacting inclined rigid targets using plasticine, with W. Johnson, A.K. Sengupta and S.K. Ghosh, *Int. J. Impact Eng.*, 1, 73-83, 1983.
49. Aspects of car design and human injury, with W. Johnson and A.G. Mamalis, *Human Body Dynamics, Impact, Occupational and Athletic aspects*, ed. D.N. Ghista, Ch. 4, 164-180, Clarendon Press, Oxford, 1982.
50. Human body mechanics in some sports and games, with W. Johnson and A.G. Mamalis, *Human Body Dynamics, Impact, Occupational and Athletic aspects*, ed. D.N. Ghista, Ch.15, 524-542, Clarendon Press, Oxford, 1982.
51. Dynamic response of a pulse-loaded ring immersed in an acoustic medium, with S.R. Hendry, *J. Appl. Mech. ASME Trans. Series, E.*, 50, 224-225, 1983.
52. Experimental investigation of inertia effects in one dimensional metal ring systems

- subjected to end impact. I : Fixed ended systems with T. Yella Reddy, *Int. J. Impact Engineering*, 1, 85-106, 1983.
53. Modelling of steel tube vehicular crash cushion, with J.F. Carney and C.D. Austin, *J. of Transportation Engineering*, ASCE, 109, No. 3, 331-346, 1 May 1983.
 54. Structural plastic shock model for one-dimensional ring system with W.W. Bell and R.A. Barr, *Int. J. Impact Eng.*, 1, 175-191, 1983.
 55. Energy absorbing capacity of braced metal tubes, with S. Drew and J.F. Carney, presented at Symposium on Structural Crashworthiness, Liverpool, September 1983, *Int. J. Mech. Sci.*, 25, 649-667, 1983.
 56. Laterally compressed metal tubes as impact energy absorbers, *Structural Crashworthiness - Proceedings of Symposium held at Liverpool University, September 1983*, Ed. N. Jones and T. Wierzbicki, Butterworths, London, ch.1, 1-43, 1983.
 57. Response of one-dimensional ring systems to end impact, with W.W. Bell, proceedings of Third International Conference on the Mechanical Properties of Materials at High Rates of Strain, 9-12 April, 1984, Oxford, Institute of Physics Conf. Series No. 70, 471-478, 1984.
 58. Response of fluid-backed metal beams to central impact, with S.R. Hendry, proceedings of International Conference on Structural Impact and Crashworthiness, 16-20 July 1984, Imperial College, *Structural Impact and Crashworthiness*, Vol.2, ed. J. Morton, Elsevier Applied Science Publishers, 411-426, 1984.
 59. Tubular rings as impact energy absorbers, with C.D. Austin and R. Smith, *ibid*, 555-563, 1984.
 60. The large deflection impulsive loading of clamped circular membranes, with S.K. Ghosh and W. Johnson, *ibid.*, 471-481, 1984.
 61. Influence of inertia in structural crashworthiness, with C.D. Austin, proceedings of International Conference on Vehicle Structures, organised by I.Mech.E., 17-19 July 1984, Cranfield Institute of Technology, C173/84, 63-70, 1984.
 62. Impact response of fluid-backed metal beams, with S.R. Hendry, Symposium on Advances and Trends in Structures and Dynamics, 22-25 October 1984, NASA/George Washington University, Washington D.C., *Int. J. of Computers and Structures*, 20, Nos. 11-13, 321-338, 1985.
 63. Net or near-net shape manufacturing of metallic components: a survey, with S.K. Ghosh, Proc. 25th Int. Machine Tool Design and Research Conference, MacMillan, 487-496, 1984.

64. Metal tubes as impact energy absorbers, *Metal Forming and Impact Mechanics*, ed. S.R. Reid, Pergamon Press, 249-269, 1985.
65. Axial splitting of circular metal tubes, with T.Y. Reddy, *Int. J. Mech. Sci.*, 28, 111-131, 1986.
66. Axially loaded metal tubes as impact energy absorbers, with T.Y. Reddy, *Inelastic Behaviour of Plates and Shells*, IUTAM Symposium, 5-9 August 1985, Rio de Janeiro, Brazil, Springer-Verlag, 569-595, 1986.
67. Stress waves in laterally loaded cylindrical shells, with J.F. Carney III and S.T. Choi, *Computational Mechanics '86: Theory and Application*, Proc.Int.Conf.Computational Mechanics, May 25-29, 1986, Tokyo, Vol. VI, 301-308, 1986.
68. Hysteresis and energy dissipation in metallic tubes, with J.F. Carney III and J.R. Veillette II, *AIAA/ASME/ASCE/AHS 27th Structures, Structural Dynamics and Materials Conference*, May 19-21, San Antonio, Texas, Paper 86-0086, 180-188, 1986.
69. Static and dynamic axial crushing of foam-filled sheet metal tubes, with T.Y. Reddy and H.D. Gray, *Int.J.Mech.Sci.*, 28, 295-322, 1986.
70. Static and dynamic crushing of tapered sheet metal tubes of rectangular cross-section, with T.Y. Reddy, *Int.J.Mech.Sci.*, 28, 623-637, 1986.
71. Axial crushing of foam-filled tapered sheet metal tubes, with T.Y. Reddy, *Int.J.Mech.Sci.*, 28, 643-656, 1986.
72. *Metallic Energy Dissipating Systems*, with W. Johnson, *Applied Mechanics Update 1986*, Ed. C.R. Steele, ASME, 303-319, 1987.
73. Crushing analysis of braced metal rings using the equivalent structure technique, with T.Y. Reddy, J.F. Carney III and J.R. Veillette, *Int.J.Mech.Sci.*, 29, 655-668, 1987.
74. On the elastic plastic deformation of cantilever beams subjected to tip impact, with X.G. Gui, *Int.J.Impact Engng.*, 6, 109-127, 1987.
75. A new method for high rate tension tests, with M.M. Al-Mousawi and W.F. Deans, Paper MB85, *Impact '87*, Int.Conf. on impact loading and dynamic behaviour of materials, Bremen, W.Germany, May 18-22, 1987.
76. Denting and bending of tubular beams under local loads, with K. Goudie, *Structural Failure* ed. T. Wierzbicki and N. Jones, John Wiley & Sons, ch.10. 1989.
77. Double-hinge modes in the dynamic response of plastic cantilever beams subjected to step loading, with Y.L. Hua and T.X. Yu, *Int.J.Impact Engng.*, 7, 401-413, 1988.

78. A study of the Case-Western system for dynamic measurement of pile bearing capacity, with Ming Te Liang and A.A. Rodger, 3rd. Int.Conf. on the application of stress wave theory to piles, Ottawa, 25-27 May 1988.
79. The mechanics of pipe whip, with N.K. Prinja, Proc.I.Mech.E., Conf. on Pipework Engineering and Operation C376/044, 21-22 February 1989, 315-326.
80. Dynamic indentation of two dimensional ring systems, with T.Y. Reddy and A.S. Kaddour, 4th Int. Conf. on Mech. Props. of Mats. at High Rates of Strain, Oxford 20-22 March 1989, Inst. Phys.Conf. Series, No. 102, 447-455.
81. Dynamic axial crushing and penetration of wood, with C. Peng and T.Y. Reddy, *ibid.*, 535-542.
82. Buckling and crushing of GRP plates including the effects of foam reinforcement, with A. Russell, T.Y. Reddy, and P.D. Soden, Composite Materials Technology 1989, Ed. D. Hui and T.J. Kozik, 12th Annual Energy-Source Technology Conference and Exhibition, Houston, Texas, 22-25 January 1989, ASME, PD-Vol. 24, 195-201 (Awarded 'Best Paper' award).
83. Static and dynamic penetration of steel tubes by hemispherically nosed punches, with G.G. Corbett and S.T.S. Al-Hassani, *Int. J. Impact Engng*, 9, 165-190, 1990.
84. Resistance of steel-concrete sandwich tubes to penetration, *ibid*, 191-203, 1990.
85. Development of double hinge mechanisms in a bent cantilever subjected to a force pulse applied at its tip normal to its plane, with Y.L. Hua and J.L. Yang, *Int. J. Impact Engng*, 9, No. 4, 485-502, 1990.
86. Relationship between the elastic buckling of square tubes and rectangular plates, with S. Li, *J. Appl. Mechs*, ASME Trans., 57, 969-973, Dec. 1990.
87. Material deformation mechanisms in crashworthiness applications, S.R. Reid, *Advances in Materials and their Applications*, Ed. P. Rama Rao, Wiley Eastern Limited, 165-200, 1993.
88. Quasi-static and dynamic axial crushing of foam-filled FRP tubes, A.T. Russell, T.Y. Reddy, S.R. Reid and P.D. Soden, *Composite Materials Technology* 1991, Ed. D Hui and T.J. Kozik, 14th Annual Energy Source Technology Conference and Exhibition, Houston Texas, PD-Vol. 37, 145-152, 20-23 January 1991, ASME.
89. Experimental investigation of inertia effects in one-dimensional metal ring systems subjected to end impact - II free ended systems, T.Y. Reddy, S.R. Reid and R. Barr, *Int. J. Imp. Engng*, Vol. 11, No. 4, 463-480, 1991.

90. Performance of GRP pipes under impact loading, S.R. Reid and G.G. Corbett, Proc. Conf. on the Maritime and Offshore Use of Fibre-Reinforced Composites, Gateshead, 2-3 June 1992.
91. Lateral indentation of filament wound GRP tubes, B. Mustafa, S. Li, P.D. Soden, S.R. Reid, C.M. Leech and M.J. Hinton, *Int. J. Mech. Sci.* 34, 443-457, 1992.
92. The plastic buckling of axially compressed square tubes, S. Li and S.R. Reid, *J.App.Mech.*, *ASME Trans.*, 114, pt. 1, 276-282, 1992.
93. On the symmetry conditions for laminated fibre-reinforced composite structures, S. Li and S.R. Reid, *Int. J. Sol. Struct.*, 29, 2867-2880, 1992.
94. Geometrically non-linear analysis of thin filament wound laminated tubes under lateral indentation, S. Li, S.R. Reid and P.D. Soden, Proc. UK ABAQUS User Group Meeting, 17-18 September 1992, Jesus College Cambridge, 246-257.
95. Indentation of laminated filament wound composite tubes, S. Li, P.D. Soden, S.R. Reid and M. Hinton, *Composites*, 24, 407-421, No.5, 1993.
96. Dynamic enhancement of the crushing strength of wood, S.R. Reid and C.Peng, XVIIIth International Congress of Theoretical and Applied Mechanics, IUTAM, 22-28 August 1992, Haifa, Israel, Abstracts pp. 122-123.
97. Response of wood and cellular structures to impact loading, S.R. Reid, Keynote Lecture, Proceedings of International Symposium on Impact Engineering, Sendai, Japan, 2-4 November 1992, Ed. I. Maekawa, 691-698.
98. Deformation mechanisms in impact energy absorbing components and materials, S.R. Reid, Keynote paper, Advances in Engineering Plasticity and its Applications, Proc. Asia-Pacific Symposium, Hong Kong, 15-17 December 1992, Ed. W B Lee, Elsevier, 19-26, 1993.
99. Out-of-plane impulsive loading of a right-angled bent beam, B. Wang, T.X. Yu and S.R. Reid, Advances in Engineering Plasticity and its Applications, Proceedings Asia-Pacific Symposium, Hong Kong, 15-17 December 1992, Ed. W B Lee, Elsevier, 491-496, 1993.
100. Dynamic compression of cellular structures and materials, S.R. Reid, T.Y. Reddy and C. Peng, *Structural Crashworthiness and Failure*, Ed. N. Jones and T. Wierzbicki, Elsevier Applied Science London, Ch. 8, 295-340, 1993.
101. The effects of high strain rates on material properties, S.T.S. Al-Hassani and S.R. Reid, OTI 92 602, ISBN 0 11 882093 1. Work Package number BR4 - Blast Response Series - Blast and Fire Engineering Project for Topside Structures, 1991.

102. Quasi-static and dynamic local loading of monolithic simply supported steel plates, G.G. Corbett and S.R. Reid, *Int. J. Impact Engng.*, 13, 423-441, 1993.
103. Local loading of steel-grout sandwich plates, G.G. Corbett and S.R. Reid, *Int. J. Impact Engng.*, 13, 443-461, 1993.
104. Axisymmetric dynamic buckling of submerged cylindrical shells, B. Mustafa, S.T.S. Al-Hassani and S.R. Reid, *Int. J. Computers and Structures*, 47, no.3, 399-405, 1993.
105. Modelling the damage due to transverse matrix cracking in fibre-reinforced laminates, S.Li, S.R. Reid and P.D. Soden, *Proc. 2nd Int. Conf. on Non-linear Mechanics (ICNM-2)*, August 23-26, 1993, Beijing, China, Peking University Press (ISBN 7-301-02168/0.318), 320-323, 1993.
106. Dynamic cavitation in elastic-plastic materials, Z. Huang, K.L. Pan and S.R. Reid, *Int. Seminar on Microstructures and Mechanical Properties of New Engineering Materials (IMMM'93)*, Mie University, Japan, 3-5 August 1993.
107. Dynamic failure mechanisms of bent pipes under out-of-plane end loading on the design safety of high pressure piping systems, B. Wang, S.R. Reid and T.X. Yu, *Joint ASME/IEEE Power Generation Conference*, Kansas, Oct. 17-22, 1993, ASME Paper 93-JPGC-PWR-12.
108. Hardening softening behaviour of tubular cantilever beams, T.X. Yu, S.R. Reid and B. Wang, *Int. J. Mech. Sci.*, 35, 1021-1033, 1993.
109. Plastic deformation mechanisms in axially compressed metal tubes used as impact energy absorbers, S.R. Reid, *Int. J. Mech. Sci.*, 35, 1035-1052, 1993.
110. Failure of composite pipes under local loading with a hemispherically-tipped indenter G.G. Corbett and S.R. Reid, *Int. J. Impact. Engng.*, 15, 465-490, 1994.
111. A finite strip analysis of cracked laminates, S.Li, S.R. Reid and P.D. Soden, *Mech. of Mats.*, 18, 289-311, 1994.
112. Impact energy absorption mechanisms in crushing and indentation of wood, S.R. Reid, *Proc. IUTAM Symposium on Impact Dynamics*, Beijing, PRC, 11-15 October 1993, Peking University Press, (ISBN 7-301-02489-4/0.338), 390-406, 1994.
113. Hardening-softening behaviour of circular pipes under bending and tension, S.R. Reid, T.X. Yu and J.L. Yang, *Int. J. Mech. Sci.* 36, 1073-1085, 1994.
114. Discussion on: Strain-hardening in the moving hinge method, T.Y. Reddy, S.R. Reid and T.X. Yu, *Int. J. Sol. Struct.*, 31, 3323-3326, 1994.
115. Hardening and softening characteristics of tubular cantilever beams under dynamic loading, B. Wang, T.X. Yu and S.R. Reid, *Proc., 6th Symp. on Tubular Structures*, 14-16 Dec. 1994, Monash University, Melbourne, Australia. *Tubular Structures VI*, Ed. Grundy, Holdgate and Wong, ISBN 90 54105208, Balkema, Rotterdam, 225-231, 1994.

116. Yield mechanisms of a bent cantilever beam subjected to a suddenly applied, constant, out-of-plane tip force. S.R. Reid, B. Wang and T.X. Yu, *Int. J. Impact Engng.*, 16, 49-73,1995.
117. Triple plastic hinge mechanism for a bent cantilever beam subjected to an out-of-plane tip force pulse of finite duration, S.R. Reid, B. Wang and Y.L. Hua, *Int. J. Impact Engng.*, 16, 75-93, 1995.
118. Deformation and failure of clamped beams under low speed impact loading, H.M. Wen, T.Y. Reddy and S.R. Reid, *Int. J. Impact Eng.*, 16, 435-454, 1995.
119. Inertia-sensitive impact energy absorbing structures, Part I: Effects of inertia and elasticity, X.Y. Su, T.X. Yu and S.R. Reid, *Int. J. Impact Engineering*, 16, 651-672, 1995.
120. *ibid*, Part II: Effect of strain rate, *Int. J. Impact Engineering*, 16, 673-689, 1995.
121. Impact loading of plates and shells by free-flying projectiles: a review, G.G. Corbett, S.R. Reid and W. Johnson, *Int. J. Impact Eng.* 18, 141-230,1996.
122. Large deflection analysis of whipping pipes: Part I Rigid, perfectly-plastic model, S.R Reid and B. Wang , *ASCE, J. of Engineering Mechanics*, 121, 881-887, 1995.
123. *ibid*, Part II Rigid, perfectly-plastic model with elastic deformation at its root, B. Wang and S.R. Reid 121, 888-895, 1995.
124. Response of an elastic-plastic tubular cantilever beam subjected to a force pulse at its tip: small deflection analysis, S.R. Reid, T.X. Yu and J.L. Yang, *Int. J. Sol. Struct.* 32, 3407-3421, 1995.
125. Pipe whip: The effects of hardening and softening in dynamic structural plasticity, S.R. Reid *Plasticity '95, Proc. 5th Symposium on Plasticity and its Current Applications, Osaka, 17-21 July 1995, Ed. S. Tanimura and A.S. Khan, Gordon and Breach Publishers, S.A., ISBN No. 2-88449-072-8, 89-92, 1995.*
126. Dynamic indentation of thick fibre-reinforced composites, S.R. Reid, T.Y. Reddy, H.M. Ho, I.G. Crouch and L.J. Greaves, *Proc. Symp. on High Strain Rate Effects on Polymer, Metal and Ceramic Matrix Composites and other Advanced Materials, ASME (IMECE), San Francisco, 12-17 November 1995.*
127. Dynamic behaviour of elastic-plastic free-free beams subjected to impulsive loading, T.X. Yu, J.L. Yang, S.R. Reid and C.D. Austin, *Int. J. Sol. Struct.*, 33, 2659-2680, 1996
128. Out-of-plane impact at the tip of a right-angled bent cantilever beam, B. Wang, T X Yu and S.R. Reid, *ASME J. Appl. Mech.*, 62, 887-892, 1995.
129. The mechanics of pipe whip, S.R. Reid, Keynote paper, *Proc. Symposium on Mechanics in Design, CSME '96, University of Toronto, 6-9 May 1996, pp 1-11.*

130. Dynamic elastic-plastic behaviour of whipping pipes: experiments and theoretical model, S.R. Reid, T.X. Yu, J.L. Yang and G.G. Corbett, *Int. J. Impact Engng.*, 18, 703-733, 1996.
131. Plastic inversion and nosing of metal tubes used as impact energy absorbers, S.R. Reid and J.J. Harrigan, Keynote paper, Proc. 3rd Asia-Pacific Symposium on Advances in Engineering Plasticity and its Applications (AEPA '96), Hiroshima, 21-24 August 1996, pp.61-66.
132. Tolerance of composite pipes to local impact damage, S.R. Reid, C. Peng and J.N. Ashton, *Proc.I.Mech. E., Part E, J.Process Mech.Engng.*, 210, 181-192, 1996.
133. Incipient deformation mechanisms of a semi-circular cantilever beam subjected to out-of-plane step loading, T.X. Yu, Y.L. Hua and S.R. Reid, *Int.J.Impact Engng.*, 18, 829-848, 1996.
134. Interaction between reflected elastic flexural waves and a plastic 'hinge' in the dynamic response of pulse loaded beams, T.X. Yu, J.L. Yang and S.R. Reid XIXth Int. Congress of Theoretical and Applied Mechanics IUTAM, 25-31 August 1996, Kyoto, Japan, Abstracts p. 396.
135. Elastic-plastic response of hardening-softening cantilever beams to transverse force pulses applied at their tips, S.R. Reid, J.L. Yang and T.X. Yu, *ibid*, p.397.
136. Dynamic uniaxial crushing of wood, S.R. Reid and C. Peng , *Int. J. Impact Engng.*, 19, 531-570, 1997.
137. Interaction between reflected elastic flexural waves and a plastic 'hinge' in the dynamic response of pulse loaded beams, T.X. Yu, J.L. Yang and S.R. Reid, *Int. J. Impact Engng.*, 19, 457-475, 1997.
138. In-plane whipping of bent cantilever pipes, S.R. Reid and J.L. Yang, Structures under Extreme Loading Conditions, PVP-Vol. 351, Ed. Y.S. Shin, ASME Pressure Vessels and Piping Conference, 27-31 July 1997, Orlando, Florida. ISBN No. 0-7918-1568-4, 165-175, 1997.
139. Dynamic perforation of composite sandwich panels by projectiles with hemispherical and conical tips, H.M. Wen, T.Y. Reddy, S.R. Reid and P.D. Soden, Structures under Extreme Loading Conditions, PVP-Vol. 351, Ed. Y.S. Shin, ASME Pressure Vessels and Piping Conference, 27-31 July 1997, Orlando, Florida. ISBN No. 0-7918-1568-4, 151-163, 1997.
140. Transient effects in the quasi-static and dynamic plastic inversion and nosing of metal tubes, S.R. Reid and J.J. Harrigan, *Int. J. Mech. Sci.*, 39, No. 12, 263-280,1997.
141. Dynamic behaviour of rigid, perfectly-plastic free-free beams subjected to step loading at any cross-section along their span, J.L. Yang, T.X. Yu and S.R. Reid, *Int. J. Impact Engng.*, 21, 165-175, 1998

142. Approximate estimation of hardening-softening behaviour of circular pipes subjected to pure bending, J.L. Yang and S.R. Reid, *Acta Mechanica Sinica (English Series)*, 13, 227-240, August 1997 (ISSN 0567-7718).
143. Modelling transverse matrix cracking in laminated fibre-reinforced composite structures, S. Li, S.R. Reid and P.D. Soden, *Damage and Failure of Interfaces*, Ed. H-P Rosmanith, published by A.A. Balkema, ISBN No. 90-5410-899-1, 131-138, 1997.
144. The use of the split Hopkinson pressure bar techniques in high strain rate materials testing, M.M. Al-Mousawi, S.R. Reid and W.F. Deans, *J. Mech. Engng. Sci., Proc. Instn. Mech. Engrs. Part C*, 211, 273-292, 1997.
145. Pipe whip: In-plane whipping of bent cantilever pipes, S.R. Reid and J.L. Yang, *ASME J. Press. Vess. Technology*, 120, 170-178, 1998.
146. Penetration and perforation of composite sandwich panels by projectiles with hemispherical and conical tips, T.Y. Reddy, H.M. Wen, S.R. Reid and P.D. Soden, *ASME J. Press. Vess. Technology*, 120, 186-194, 1998.
147. Indentation penetration and perforation of composite laminates and sandwich panels under quasi-static and projectile loading, with H.M. Wen, T.Y. Reddy, S.R. Reid and P.D. Soden, *Key Engineering Materials*, 141-143 (Special Issue), 501-552, 1998.
148. Accurate measurement of impact force pulses in deforming structural components, J.J. Harrigan, S.R. Reid and T.Y. Reddy, *Experimental Mechanics*, ed. I.M. Allison, *Proc. 11th Int. Conf. on Experimental Mechanics*, Oxford, Balkema, Rotterdam, 149-154, 1998
149. Inertial effects on the crushing of wood loaded along the grain, J.J. Harrigan, S.R. Reid and T.Y. Reddy, *Proc. 11th Int. Conf. on Experimental Mechanics*, Oxford, Aug. 1998, ed. I.M. Allison, pub. Balkema, 193-198, 1998
150. An elastic-plastic hardening-softening tubular cantilever subjected to a force pulse at its tip: a model for pipe whip, S.R. Reid, T.X. Yu and J.L. Yang, *Proc. Roy. Soc. Lond.* A454, 997-1029, 1998.
151. A continuum damage model for transverse matrix cracking in laminated fibre-reinforced composites, S. Li, S.R. Reid and P.D. Soden, *Phil. Trans. Roy. Soc.*, A356, 2379-2412, 1998.
152. Inertia effects in impact energy absorbing materials and structures, J.J. Harrigan, C. Peng and S.R. Reid, *Transient loading and response of structures*, Ed. M. Langseth and T. Krauthammer, *International Symposium in honour of Arnfinn Jenssen*, May 25-27 1998, Trondheim, Norway. ISBN No. 82-7482-044-4, 447-474, 1998
153. Deformation and perforation of cylindrical shells struck normally by blunt projectiles, H.M. Wen and S.R. Reid, *Int. J. Press. Vess. and Piping*, 75, 213-219, 1998.
154. Composite risers - a first appraisal, L.C.M. Meniconi, S.R. Reid and P.D. Soden, *Proc. 7th Int. Conf. on Fibre Reinforced Composites*, Newcastle, 15-17 April 1998.

155. Non-linear dynamic analysis of cantilever whipping pipes, S.R. Reid and J.L. Yang, Proc. I. Mech. E., Part E, 212, J. Process Mech. Eng., 133-149, 1998.
156. Forces generated in impact energy absorbers: measurements and modelling, S.R. Reid, J.J. Harrigan and T.Y. Reddy, Proc. 3rd Int. Conf. on Impact Engineering, Singapore, 1998, Impact Response of Materials and Structures, Ed. V.P.W. Shim. S. Tanimura and C.T. Lim, Oxford University Press, 48-59, 1999.
157. Response of Single Skin Laminates and Sandwich Panels to Projectile Impact, S. R. Reid, H. M. Wen, P. D. Soden, and T. Y. Reddy, *Composite Materials for Offshore Operations – 2*, S. S. Wang, J. G. Williams, and K. H. Lo, Eds., American Bureau of Shipping, 1999, pp. 593-617.
158. Strength and Long-Term Behavior of Impact-Damaged GRE Pipes, P. D. Soden, S. R. Reid, J. N. Ashton, C. Peng, M. Heaton, S. Li, and M. J. Hinton, *Composite Materials for Offshore Operations – 2*, S. S. Wang, J. G. Williams, and K. H. Lo, Eds., American Bureau of Shipping, 1999, pp. 489-512.
159. Inertia effects in impact energy absorbing materials and structures, J.J. Harrigan, S.R. Reid and C. Peng, Int. J. Impact Engng., 22, 955-979, 1999.
160. Preliminary design of composite riser stress joints, L.C.M. Meniconi, S.R. Reid and P.D. Soden, Composites Part A, 32, 597-605, 2001.
161. Measurement of the critical energy release rate, G_{IIc} , for filament wound GRP pipes, Z. Zou, S.R. Reid, P.D. Soden and S.Li, Composites: Part A, 32, 271-280, 2001.
162. Damage, deformation and residual burst strength of filament wound composite tubes subjected to impact or quasi-static indentation, J. Curtis, M.J. Hinton, S. Li, S.R. Reid and P.D. Soden, Composites: Part B, 31, 419-433, 2000
163. Perforation of FRP laminates and sandwich panels subject to missile impact, S.R. Reid and H.M. Wen, ch. 8 'Impact Behaviour of Fibre-Reinforced Composite Materials and Structures', ed. S.R. Reid and G. Zhou, Woodhead Publishers Ltd., pp. 239-279, 2000.
164. Deformable body impact: dynamic plastic behaviour of a moving free-free beam striking the tip of a cantilever, T.X. Yu, J.L. Yang and S.R. Reid, Int. J. Sol. Struct., 38, 261-287, 2001.
165. Mode separation of energy release rate for delamination in composite laminates using sublaminates, Z. Zou, S.R. Reid, P.D. Soden and S. Li, Int. J. Sol. Struct., 38, 2597-2613, 2001.
166. Spring constants of filament wound composite circular rings, P.C. Tse, S.R. Reid and S.P. Ng, Proc. I.Mech.E. Part C, JMES, 215, 211-226, 2000.
167. Softening effects in the bending of tubular structures and components, S.R. Reid and T.-H. Kim, Key Engng. Mats., 177-180, 679-690, 2000, (Plenary Lecture, AEPA 2000, Hong Kong, June 2000).

168. Simplified crash analysis of thin-walled frameworks, T.-H. Kim and S.R. Reid, 14th ABAQUS User Group Conference, 13-14 September 2000, Warrington, U.K., Paper P5 (Mr. Kim - Student Paper 1st Prize Winner).
169. Impact damage assessment of GRP pipes, S.R. Reid, S. Li, P.D. Soden and Z. Zou, CMOO-3, Proc. 3rd Int. Conf. on Composite Materials for Offshore Operations, Houston, Texas, USA, 31st Oct. – 2nd November 2000, ed. S.S. Wang, J.G. Williams and K.H. Low, pub. Univ. of Houston – CEAC, 319-336, 2001.
170. Long-term and short-term leakage strength of composite pipes, S.R. Reid, P.D. Soden, J.N. Shahady and J. Katramados, *ibid.* 337—354, 2001
171. Dynamic behaviour of double cantilever beams subjected to impact, T.X. Yu, J.L. Yang, S.R. Reid, *Int. J. of Press. Vess. and Piping* (ISSN: 0308-0161), 78, 49-57, 2001.
172. The nonlinear structural response of laminated composites, S. Li, S.R. Reid, P.D. Soden and M.J. Hinton, Proc. 6th Int. Conf. on Deformation and Fracture of Composites (DFC6), 4-5th April 2001, MCC, UMIST, UK, IOM Communications, Chamelion Press (ISBN 1-86125-143-2), 145-154, 2001.
173. Modelling combined delamination and matrix cracking in laminated composite structures, Z. Zou, S.R. Reid, S. Li and P.D. Soden, Proc. 13th Int. Conf. on Composite Materials (ICCM13), Beijing, China, June 2001.
174. Experimental and theoretical investigation of transverse cracking damage in $\pm 45^\circ$ laminates subjected to equal biaxial tension, S.Li, S.R. Reid, P.D. Soden and M.J. Hinton, Proc. 13th Int. Conf. on Composite Materials (ICCM13), Beijing, China, June 2001.
175. Multi-axial softening hinge model for tubular vehicle roll-over protective structures, T.H. Kim and S.R. Reid, *Int. J. Mech. Sci.*, 43, 2147-2170, 2001.
176. The crushing strength of aluminium alloy foam at high rates of strain, S.R. Reid, P.J. Tan and J.J. Harrigan, Invited Lecture, Proc. 4th Int. Symposium on Impact Engineering, Kumamoto, Japan, 16-19 July 2001, Elsevier Science, Vol. 1, pp 15-22.
177. Influence of cell size and morphology on the dynamic compressive strength of aluminium alloy foams, P.J. Tan, J.J. Harrigan and S.R. Reid, *Proceedings MetFoam 2001*, ed. Ashby, Fleck and Bahnardt, Aug. 2001.
178. Superposed standing waves in a Timoshenko beam, K.T. Chan, X.Q. Wang, R.M.C. So and S.R. Reid, *Proc. Roy. Soc. Lond.* A454, 83-108, 2002.
179. Bending collapse of thin-walled rectangular section columns, T.-H. Kim and S.R. Reid, *Int. J. Computers and Structures*, 79, 1897-1911, 2001
180. General expressions for energy release rates for delamination in composite materials, Z.Zou, S.R. Reid, S. Li and P.D. Soden, *Proc. Roy. Soc. Lond.* A454, 645-667, 2002

181. Modelling interlaminar and intralaminar damage in filament wound pipes under quasi-static indentation, Z. Zou, S.R. Reid, S. Li and P.D. Soden, *J. Composite Mats.*, **36**, 477-499, 2002.
182. A review on inverse analysis of indirect measurement of impact force, H. Inoue, J.J. Harrigan and S.R. Reid, *Applied Mechanics Reviews (ASME)*, 54, No. 6, 503-524, Nov. 2001.
183. Spring stiffnesses of composite circular springs with extended flat contact surfaces under unidirectional line-loading and surface loading configurations, P.C. Tse, K.J. Lau, W.H. Wong and S.R. Reid, *Composite Structures*, 55, 367-386, 2002
184. Application of a delamination model to laminated composite structures, Z. Zou, S.R. Reid, S. Li and P.D. Soden, *J. Composite Structures*, 36, No. 4, pp36, 2002
185. Mathematics of Impact and Impact of Mathematics, *Mathematics To-day, IMA*, 38, 21-28, 2002.
186. Inertia effects in the uniaxial dynamic compression of a closed-cell aluminium alloy foam, P.J. Tan, J.J. Harrigan and S.R. Reid, *Institute of Materials, Materials Science and Technology*, 18, 480-488, 2002.
187. Vibrations of structures with a weakened support, K.K. Ng, W.O. Wong, K.T. Chan and S.R. Reid, *Proc. 8th International Congress on Sound and Vibration*, 2-6th July 2001, 3117-3122, 2001.
188. A vibration method for structural damage identification, K.K. Ng, W.O. Wong, K.T. Chan and S.R. Reid, *Proc. 8th International Congress on Sound and Vibration*, 1653-1660, 2001
189. Inversion of metal cylinders, rigid-plastic model for the first stage of forced inversion J.J. Harrigan and S.R. Reid, invited contribution, 2002, *New Approaches to Structural Mechanics, Shells and Biological Structures*, Calladine Feschrift, September 2002, Kluwer, pp 303-314.
190. A continuum damage model for delaminations in laminated composites, Z. Zou, S.R. Reid and S. Li, *J. Mech. Phys. Sol.*, 51, 333-356, 2003.
191. Reid, S.R. Gross deformation of metal structures under static and dynamic loads, *Plasticity and Impact Mechanics*, *Proc. 8th Int. Symp. IMPLAST 2003*, 16-19 March 2003, ed. N.K. Gupta, Phoenix Publishing House Pvt Ltd., pp. 15-26, 2003
192. A Gaussian sinc-collocation approach for whipping cantilever with a follower shear force at the tip, S.R. Reid and D. Roy, *Int. J. Numerical Methods in Engineering*, 58, 869-892, 2003.
193. Dynamic plastic behaviour of a free-free beam striking the mid-span of a clamped beam with shear and membrane effects considered, J.L. Yang, X.H. Liu and S.R. Reid *Int. J. of Mech. Sci.*, **45**, 813-830, 2003.

194. Large deflections of composite circular springs with extended flat contract surfaces under unidirectional line-loading and surface-loading configurations, P.C. Tse, S.R. Reid, K.J. Lau and W.H. Wong, *Composite Structures*, 63, 253-260, 2004
195. Stretching process of single- and multi-walled carbon nanotubes for nanocomposite applications, K-T. Lau, C. Gu, G-H. Gao H-Y. Ling and S.R. Reid, *Carbon*, 42 (2), 426-428, 2004.
196. Modelling damage of multiple delaminations and transverse matrix cracking in laminated composites due to low velocity lateral impact, S. Li, S.R. Reid and Z. Zou, *Composites Science and Technology*, 66, issue 6, 827-836, 2006
197. Penetration Resistance of Aluminium Foam, Q.M.Li, R.N.Maharaj and S.R.Reid, 37, *Int. J. Vehicle Design*, parts 2 and 3, 175 – 184, 2005,
198. About one-dimensional shock propagation in a cellular material, Q.M. Li and S.R. Reid, *Int. J. Impact Eng.*, 32, 1898-1906, 2006
199. Simple full-field method for the elastic characterisation of orthotropic composite plates, W.O. Wong, P. Feng, S.R. Reid and K.T. Chan, *AIAA Jnl.*, 42, 2216-2224, November 2004
200. Non-destructive evaluation of impact damaged composite pipes and pipe couplings with bond-line defects, J.N. Ashton, S.R. Reid, P.D. Soden, C. Peng and M. Eaton, *Nondestructive Testing and Evaluation*, 19, 165-186, 2004
201. Wavy-edged fractures in axially split aluminium tubes, Z. Zou and S.R. Reid, *IJSS*, 42, 4519-4540, 2005.
202. Helical structure of travelling waves in a spinning Timoshenko beam, K.T. Chan, N.R. Stephen and S.R. Reid, *Proc. Roy. Soc. Lond. Series A*, 461, 3913-3934, 2005
203. Dynamic crushing of a one-dimensional chain of Type II structures, Z. Zou, P.J. Tan, S.R. Reid, S. Li and J.J. Harrigan, *Int. J. Impact Engng.*, 34, 303-328, 2007
204. Dynamic compressive strength properties of metal foams: Part I Experimental data and observations, P.J. Tan., S.R. Reid, J.J. Harrigan, Z. Zou and S. Li, *J. Mech. Phys. Sol.*, 53 (10), 2174-2205, 2005
205. Dynamic compressive strength properties of aluminium foams. Part II – Shock theory and comparison with experimental data and numerical models, P.J. Tan., S.R. Reid, J.J. Harrigan, Z. Zou and S. Li, *J. Mech. Phys. Sol.*, 53 (10), 2206-2230, 2005
206. Modelling transverse cracking damage in thin, filament-wound tubes subjected to lateral indentation followed by internal pressure, S.Li, S.R. Reid, P.D. Soden and M.J. Hinton, *Int. J. Mech. Sci.*, 47, 621-646, 2005
207. High rate crushing of wood along the grain, J.J. Harrigan, S.R. Reid, P.J, Tan and T.Y. Reddy, accepted by *Int. J. Mech. Sci.*, 47, 521-544, 2005

208. Modelling damage of multiple delaminations and transverse matrix cracking in laminated composites due to low velocity lateral impact, S. Li, S.R. Reid and Z. Zou, *Composites Science and Technology*, 66 (6), 827-836, 2006.
209. Local impact effects of hard missiles on concrete target, Q.M.Li, S.R.Reid , H.M.Wen and A.R. Telford, *Int. J.Impact Engng.*, 32, (1-4) , 224-284, 2006
(Fifth International Symposium on Impact Engineering, ISIE)
210. Indentation of ring-stiffened cylinders by wedge-shaped indenters, Part I An experimental and finite element investigation, C.G. Karroum, S.R. Reid and S. Li, *IJMS*, 49 13-38, 2007
211. Indentation of ring-stiffened cylinders by wedge-shaped indenters, Part II Scale model tests, C.G. Karroum, S.R. Reid and S. Li, *IJMS*, 49, 39-53, 2007
212. Modelling multiaxial bending-torsion behaviour of thin-walled rectangular section columns, S.R.Reid and T.H. Kim, presented (on CD) at Int. Symposium on Crashworthiness of Light-Weight Automotive Structures, NTNU, Norway 17-18th June 2004
213. Discussion: The Resistance of Clamped Sandwich Beams to Shock Loading
(Fleck, N.A. and Deshpande, V.S., 2004, *ASME J. Appl. Mech.*,71, pp. 386-401),
Journal of Applied Mechanics, Transactions ASME 72 (6), pp. 978-980 2005
214. High-rate compaction of aluminium alloy foams, J.J. Harrigan, Y-C. Hung, P.J. Tan, N.K. Bourne, P.J. Withers, S.R. Reid, J.C.F. Millett and A.M. Milne, Session SCCM-05, Proceedings 14th American Physical Society Topical conference of Shock Compression of Condensed Matter, Baltimore, 31st July – 5th August 2005.
215. Critical impact energies for scabbing and perforation of concrete target, Q.M. Li, S.R. Reid and A.M. Ahmad-Zaidi, *Nuclear Engineering and Design*, 236, 1140-1148, 2006.
216. Influence of overall structural response on perforation of concrete targets, Q.M. Li, Z.Q. Ye, G.W. Ma and S.R. Reid, *Int J. Impact Engng.*, 34, 926-941, 2007.
217. Pipe Whip – Recent modelling developments, Keynote lecture, Proc. 6th Int. Conf. on Shock & Impact Loads on Structures (SILO-05), 7-9 December 2005, Perth, W. Australia, 71 – 82, 2005. ISBN : 981-05-3550-3
218. Pipe Whip – Dealing with instabilities, Keynote lecture, Proc. The Structural Engineering Convention (SEC-2005), Dec 14-16 2005, Bangalore, India, Published by Department of Civil Engineering, Indian Institute of Science Bangalore 560 012, 175 – 186, 2005.
219. Dynamic crushing of a one-dimensional chain of type II structures, Zou, Z., Tan P.J., Reid S.R., Li, S. and Harrigan, J.J., *Int. J. Impact Engng.*, 34, 303-328, 2007.
220. Reproducing kernel collocation method applied to the non-linear dynamics of pipe whip in a plane, Shaw, A., Roy, D., Reid, S.R. and Aleyaasin, M., *Int.J. Impact Engng.*, 34, 1637-1654, 2007.

221. Dynamic crushing of honeycombs and features of shock fronts, Zhou, Z., Reid, S.R., Tan, P.J., Li, S. and Harrigan, J.J., *Int.J. Impact Engng*, 36, 165-176, 2009
222. The correct analysis of shocks in a cellular material, Harrigan, J.J., Reid, S.R. and Yaghoubi, A.S., *Int.J.Impact Engng*, 37, 918-927, 2010
223. Heuristic acceleration correction algorithm for use in SPH computations in dynamic structural mechanics, Shaw, A and Reid, S.R., *Computer Methods in Applied Mechanics and Engineering*, 198, 3962-3974, 2009
224. Experimental Study and Numerical Simulation of Pipe-on-Pipe Impact, Yang, J.L., Lu, G.Y., Yu, T.X. and Reid, S.R., *Int.J.Impact Engng* 36 (10-11), 1259-1268, 2009
225. Engineering application of SPH with acceleration correction algorithm in Impact computations, Shaw, A. and Reid, S.R., *Current Science*, 97 Number 8, 1177-1186, 2009
226. New Computational Approaches for Wrinkled and Slack Membrane, N. A. Pimprikar, B Banerjee, D Roy, R. M. Vasu and S. R. Reid *IJSS* 47, 2476-2486, 2009.
227. Effective elastic properties of randomly distributed void models for porous materials, Li, B., Wang, B. and Reid, S.R. *Int.J.Mech.Sci.* (Special Issue in honour of T.X. Yu), 52, 726-732, 2010.
228. Structural modelling and testing of failed high energy pipe runs: 2D and 3D pipe whip, Reid, S.R., Aleyaasin, M. and Wang, B., *IJPVP*, 88, 189-197, 2011.
229. Out-of-plane pipe whip for a bent cantilever pipe: comparison between experiment and FEM models, Reid, S.R. Aleyaasin, M. and Wang, B., to be published *ASME J. Applied Mechs.*, DOI: 10.1115/1.4004712, April 2011
230. An Optimally Corrected Form of Artificial Viscosity within SPH-based Simulations of Impact Dynamics, Shaw, A., Roy, D. and Reid, S.R. to be published *IJSS* 2011
231. Smooth DMS-FEM applied to elasto-static problems in 2D and 3D domains, Sunilkumar N., Roy D. and Reid S.R., to be published *IJMS*, 2011
232. Dynamic crushing of cellular materials: Continuum-based shock wave models for the transitional and shock modes, Zhijun Zheng, Liu, Y., Yu, J., Reid, S.R. to be published *IJIE* 2011
233. Wrinkled and slack membranes: Non-linear solutions via smooth DMS-FEM and experiment, Sunilkumar, N., Lalmoni, Roy,D., Reid, S.R. and Vasu, R.M., to be published *I.J. Num. Methods in Engineering*, 2011
