Curriculum Vitae
July 2013

EDUCATION
Ph.D. in Public Health – Applied Economics, Analyse de la qualité de l’offre de soins de médecine générale du point de vue des patients [Quality analysis of the general practice care from the patients’ perspective], University of Paris-Sud XI (France), Grade: Honours, 2012.
Master of Science in Public Health – Health Economics, University of Paris-Sud XI (France), Grade: Upper second 2.1, 2008.
Master of Science in Development Economics, University of Paris Panthéon-Sorbonne I (France), Grade: Upper second 2.1, 2007.
B.Sc. in Economics, University of Rouen (France), Grade: Lower second 2.2, 2005.

EMPLOYMENT
Postdoctoral fellow in health economics, French National Institute of Health and Medical Research (France), 2012 to present
Doctoral fellow in health economics, French National Institute of Health and Medical Research (France), 2009 to 2011
Temporary teacher of Microeconomics in Master of Science in Public Health – Health Economics, University of Paris-Sud XI (France), 2009 to 2011
Research internship (6 months), Institute for Research and Information in Health Economics (France), 2008
Professional internship (6 months) at the Clinical Research and Development Department of Paris Hospitals (France), 2007

PUBLICATIONS
International peer-reviewed journals

National peer-reviewed journals
Krucien N, Pelletier-Fleury N. Difficultés et enjeux de la prise en compte du point de vue des patients [Issues and challenges to consider the patients’ perspective]. La Lettre du Collège n°1, 2012.

SUBMITTED ARTICLES
Krucien N, Gafni A, Fleury B, Pelletier-Fleury N. Empirical Testing of the External Validity of a Discrete Choice Experiment to Determine Preferred Treatment Option: The Case of Sleep Apnea. Health Economics (Resubmitted after minor revisions).
Krucien N, Le Vaillant M, Pelletier-Fleury N. What are the patients’ preferences for the Chronic Care Model? A discrete choice experiment. Health Expectations.

WORK IN PROGRESS
Krucien N, Watson V, Pelletier-Fleury N. The importance of the behavioral component in the analysis of individuals’ preferences: A literature review of the discrete choice experiments.
Krucien N, Le Vaillant M, Pelletier-Fleury N. The effect of individual experience in discrete choice experiments: Taking into account the “hidden” alternative.

RESEARCH PROJECT
Using the eye-tracking approach in discrete choice experiment
Using the discrete choice experiment in cost-effectiveness evaluation
Identifying the preferences of medical students in Scotland for 1-year practice foundation
The role of the regret and emotions in the patients’ choices
Analysing the properties of the choices made in best-worst scaling experiment

MEDIA COVERAGE
Results from the “Patients with obstructive sleep apnoea syndrome (OSAS) preferences and demand for treatment: a discrete choice experiment” were reported in Sciences & Santé, INSERM, 2013.

RESEARCH GRANTS AND AWARDS
“Comprendre les préférences des patients et des aidants pour améliorer le dépistage et le traitement du cancer” [Understand the patients’ and relatives’ preferences to improve the screening and the treatment of Cancer], Postdoctoral research grant from the “Fondation de France”, 2013.
“Analyse de la qualité de l’offre de soins de médecine générale du point de vue des patients” [Quality analysis of the general practice care from the patients’ perspective], Doctoral research grant from the French National Ministry of Research, 2009-2011.

TEACHING
Introduction to micro-economics, 4th year undergraduate course, lectures, 2010-2011.
The use of the discrete choice experiment approach in health, 5th year undergraduate course, seminar, 2012.

PRESENTATIONS
Seminars
Health Economics Research Unit (HERU), University of Aberdeen, 2013
Research center in medicine, science, health and society (CERMES), Paris, 2011
Institute for Research and Information in Health Economics (IRDES), Paris, 2011
Research center in medicine, science, health and society (CERMES), Paris, 2010

Conference presentations
6th Congress of French General Practice, Nice, 2012
14th Biennial Society for Medical Decision Making European Meeting, Oslo, 2012
3rd Joint College of French Health Economists (CES)/Health Economics Study Group (HESG), Aix-en-Provence, 2012
European Public Health Conference, Copenhagen, 2011
Annual conference of the French health economists, Rennes, 2010

REFEREEING
Journals
Revue d’Economie Publique, European Journal of Health Economics, Health Expectations

OTHER ACTIVITIES
Organising health economics seminar at CERMES, 2011-2012
Organising and scientific committee of the doctoral seminar at CERMES, 2010-2011
