Quick Guide to Printing

About Campus Printing

Print files using:

MFDs

MFDs (Multi Function Devices) copy and scan, or print SELECTED items from your print queue. Some MFDs offer A3 and colour printing.

Printers

Printers print ALL of the items from your queue. Manage your queue using the e-pay Print Manage system online. Some printers offer colour printing.

You can:

- Print single or double-sided sheets
- Print in black and white or colour
- Change paper size (A4, A3, letter, legal)
- Change page orientation (landscape/portrait)
- Print booklets, labels, headed paper etc.

Note: Some MFDs have more functionality than others.

To print on campus, send your output to a holding queue. Print from this queue at any device, using your ID card or username/password to login. There are printers/MFDs in or near all PC classrooms, clusters and in public areas, and also on each floor of the library.

**Printing onto Headed Paper, Labels etc.**

To print onto compliment slips, headed paper, labels etc., use the bypass tray on the side of the MFD.

From the **Print** menu, select **Printer Properties**. Click the **Layout** tab. Under **Print Type**, select **1-Sided**. Click the **Basic** tab. Under **Paper Tray**, select **Bypass Tray**. Press **OK**, then **Print**.

At the side of the MFD, the bypass tray opens downwards, providing a shelf for you to place your input face down between the guides.

Login to the MFD and print your document.

**Note:** If using labels, only print onto each sheet once so the glue does not melt.

**Printing Booklets**

**Note:** Currently available for MFD-PULL-BW and MFD-PULL-COLOUR.

From the **Print** menu, select **Printer Properties**. Click the **Layout** tab. Under **Print Type**, select **Booklet**. Press **OK**, then **Print**. Fold your printout to create the booklet.

**Booklet** prints each page of the booklet at half size.
