These instructions have been written for OS X 10.10+. If your OS is an older version, some of the screenshots and steps may be different. If you need help, please contact the Service Desk.

1. Remove old Account Settings

If you have not previously connected your mac to University email, you can skip this step and go straight to step 2.

1. Launch Apple Mail from the dock.
2. Click Mail, then Preferences...
3. In the Accounts dialog, highlight your Exchange account from the list on the left.
4. Click on the minus symbol (-).

2. Set up a new account

1. Launch Apple Mail.
2. Choose mail account to add: click Exchange
3. Click Continue.
4. Enter your Exchange account information:
   - Name: type your full name eg Joe Bloggs
   - Email address: type your email address in the format username@abdn.ac.uk eg s02jb1@abdn.ac.uk
   - Password: type your University password
5. Click Continue.
6. If you see a Verify Certificate warning prompt, click Connect.
7. Your Account Summary will appear, click Continue.
8. Tick the apps you want to use with Apple Mail, eg Mail, Calendar, Contacts.
9. Click Done. You should now have access to your University Office 365 mail account.
