

Bringing  
the public,  
researchers  
and clinicians  
together

SUTTIE CENTRE CAFÉ  
Foresterhill Health Campus

All events FREE and start at  
6pm on the dates listed

**September** Mon 11th

### Teaching tomorrow's doctors

*Professor Kim Ah-See (Consultant Surgeon, NHS Grampian and Director of Undergraduate Medical Education) and Professor Phyto Myint (Chair in Old Age Medicine).*

Patients in Aberdeen are helping to create the best possible doctors of the future. We will discuss the advantages of being part of a teaching hospital and how academic theory builds clinical excellence.

**October** Mon 9th

### Informing birth choices: a legal predicament

*Dr Mairead Black (Senior Clinical Lecturer in Obstetrics and Honorary Consultant Obstetrician) and Midwife (NHS Grampian)*

A 2015 landmark court ruling in the UK has put the onus on health professionals to ensure that patient management plans (including birth plans) reflect how the patient, rather than the professional, values risk. So how do midwives and doctors get it right for every woman planning to give birth? We will discuss the research needed to answer this question.

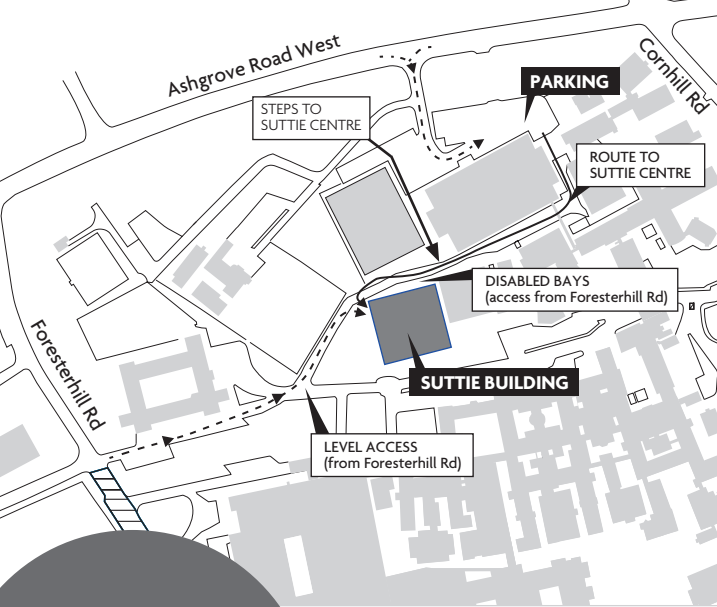

**November** Mon 20th

### Novel approaches to treating antibiotic resistant infections

*Professor Stefania Spanò (Chair in Molecular Microbiology) and Dr Alexander Mackenzie (Consultant Infectious Diseases, NHS Grampian)*

Resistance to antimicrobial drugs, including antibiotics, is one of the greatest threats to human health today. Join us as we explain what antimicrobial resistance is and highlight research into combating bacterial defences and boosting immune responses. We will also illustrate the strategies used to treat patients infected with resistant organisms and preserve the effectiveness of antibiotics.

Autumn  
2017

# Foresterhill Health Campus

---

All events are free and held on Mondays from 6pm to 7.30pm in the Suttie Centre Café, Foresterhill Health Campus

---

## Welcome...

to a special series of Café MED events where we invite our top researchers and clinicians to discuss how current research is being translated into improved treatments and care in an informal café setting.

Professor Steve Heys - Head of School of Medicine, Medical Sciences and Nutrition, University of Aberdeen

---

## Where and When

Events are held at the Suttie Centre for Teaching & Learning in Healthcare, Foresterhill Health Campus, in the Suttie Centre Café from 6pm to 7.30pm.

Public parking is allowed in the PARKING areas shown after 5pm. The barriers will be raised between 5 - 8.30pm to allow access.

Presentations last about half-an-hour and are followed by an interval allowing informal chat and the opportunity to purchase drinks or snacks. An audience discussion will follow.
