Guidelines for Poster Presenters

Posters will be displayed from the refreshment break on the morning of 21 April 2022 until the refreshment break on the afternoon of 22 April 2022. All posters will be spread throughout Elphinstone Hall and the adjacent Linklater Rooms at King’s College.

Please note that any posters remaining at the end of the afternoon refreshment break on 22 April 2022 will be removed and can be collected from the main reception desk in King’s College Conference Centre until the end of the conference that day.

Posters will be secured by means of Velcro stickers which will be provided on your board ready for use.

Poster Size and Layout

We recommend a poster size of A1 (59cm x 84cm) as this will fit within the poster board in both portrait and landscape layouts. Size A0 (84cm x 118cm) would be the largest possible size, and poster of this size will only fit if they are portrait style.

Poster boards will be set up for you to display your posters on. You do not have to stick to these exact sizes, any size between A1 and A0 is acceptable, as long as it fits within the dimensions of the poster boards.

Remember, if you do use the whole of the poster board, delegates may find it hard to read what is at the bottom of your poster. Try to make your poster as easy to read as possible.
Make sure you clearly display the title of your poster, your name, your department or faculty and institution. In order to make posters accessible, please remember that the colours red, blue and green in combination are difficult to read for some people.

**Virtual Posters**

Those presenting virtual posters should email their poster to cpdservices@abdn.ac.uk by 13 April 2022. Posters will be made available to delegates on a dedicated webpage – located within the main conference webpages. The link will be circulated once it is open.

In-person poster presenters can also provide an electronic copy of their poster should they want to.

**General**

Please remember to acknowledge all authors, funders and other contributors to your research.
