

## **Saf-T-Pak trained staff on Foresterhill campus**

Shipments containing biological products or diagnostic specimens must be packed in UN approved packaging with appropriate labelling. Such shipments must always be checked before despatch by a trained person who has completed the Saf-T-Pak training course. Packages will only be accepted by administrative staff for despatch with confirmation of inspection by trained staff.

A list of trained persons is given below. Online training can be provided, if you are interested consult your local safety coordinator.

### **List of trained staff**
