

SS Overlay

For advice on accessing this and other resources please go to www.abdn.ac.uk/atech/

SS Overlay allows the user to alter the colour of the screen. It is designed to assist people who have Scotopic Sensitivity/Irlen Syndrome and is the electronic equivalent of placing a coloured overlay on piece of paper.

How to...

Access SS Overlay

- Double-click the icon in the **Assistive Technology** folder on University PCs

Change Settings

- Right-click the SSOverlay icon in the system tray and choose **Settings**

- Choose a colour from the drop-down list

- Drag the slide control to increase/decrease the transparency
- Click OK

Further Information

SSOverlay is a freeware application which can be downloaded from <http://www.fx-software.co.uk/ssOverlay>

for use on any PC
