

Ebook Central - how to download e-books

Ebook Central Support Center and Ewan Grant & Rebecca Hankinson, July 2020

QG DBS009 [www.abdn.ac.uk/library/documents/guides/qgdb009.pdf]

Ebook Central offers an option to download an entire book to your personal computer to read offline. To do this you need to install a free program called **Adobe Digital Editions (ADE)**. This software provides temporary access to up to 10 Ebook Central e-books at a time. From ADE you can read, search, highlight and annotate the text and transfer books to mobile devices.

How do I install Adobe Digital Editions and download a book on my own PC?

1. Go to the [Ebook Central website](#) on your computer and, when prompted, **login** using your University computer username and password.
2. Find the book you want to download and click the **Download** button found in the results list, or click on the title of the book and select the **Full Download** button from the Table of Contents screen.
3. Ebook Central will recognise the type of computer you are using, i.e. **Laptop/Desktop**; select **I'm using my own computer**, then **Continue**.
4. If you want to transfer the downloaded book from your personal computer to a mobile device or another pc/laptop you will need to register a free Adobe ID at this point – click on the link **Adobe ID** and follow the instructions.
 - Ignore this step if you do not wish to transfer an e-book to another device.
5. Return to the Ebook Central **Install** screen (**Stage 2** in the download process), click on the orange **Get Adobe Digital Editions** button and follow the instructions.
6. Once ADE is installed click on the **Done with this step** link on the Ebook Central **Install** screen (Stage 2).
7. On the **Download** window (**Stage 3**) click on the blue button to **Download Your Book**.
 - The book is downloaded as a **.acsm file** on your computer.
 - Double-click on this file to launch ADE and open the e-book.
8. The e-book is stored in ADE for up to 21 days, after which time it becomes inaccessible. You can **renew** the loan by downloading the book again from the Ebook Central website.

Are there any limits on full-document downloading?

Yes - there can be. If you find that you cannot download an Ebook Central e-book to your computer it could be because:

1. Some publishers prohibit full-document downloading.
2. You have reached the maximum limit of 10 e-books in ADE. In which case you need to **return** a book in order to download another.

Can I print the entire book from ADE?

No - there are printing restrictions after downloading an e-book. A portion may be printed from ADE but, for copyright reasons, never the entire book. The number of pages you can print depends on the publisher.

Can I sync across computers to access a book?

Yes - the first time you open a book, you will be asked to authorize. Do this with your Adobe ID, mentioned earlier in this guide. This associates the book with your ID. If you later open the book on another computer, you can simply supply the same ID to open the book.

If you don't have an Adobe ID, click the Create an Adobe ID link. After creating the ID on the Adobe website, you can close that browser window, return to ADE, and enter the newly-created Adobe ID.

How do I transfer a downloaded e-book to a mobile device?

ADE allows you to transfer items to (and from) many e-readers and mobile device. You will need to download and install the Bluefire Reader App to your Apple or Android device.

FIRST TIME ONLY:

1. **Sign in with your Adobe ID, or create one:**

- Go to the [Sign In](#) page for Adobe ID.
 - Either sign in, or click “**Get an Adobe ID**” and follow the prompts.

2. **Install Bluefire** on your device.

- On your device, click **App Store** (for iOS) or **Google Play** (for Android).
- Search for **Bluefire Reader** and **install** it on your device.

START HERE (if you've done the above steps before):

3. **Download an Ebook Central book to your computer** (see [here](#) for more information).

4. Connect your mobile device to your computer

5. **iOS** – to transfer the downloaded e-book to your mobile device:

- **Open iTunes**, then from within iTunes... **Sync your iOS device**
- Click on the **iPhone** (or other) icon in the left pane
- Click on the **Apps** tab and scroll down to select **File Sharing**, then click on **Add**
- Go to your **My Digital Editions** folder and select the **downloaded e-book** you'd like to transfer – be sure to select the **.pdf** file, not the .acsm file
- **Re-sync your iOS device**
- Open **Bluefire** on your device and **view the book**

6. **Android** – to transfer the downloaded e-book to your mobile device

- Copy the **.acsm file** from your computer to the “**Bluefire**”, “**Imports**” folder on your device
- Open **Bluefire** on your device and **view the book**

How can I return a book early?

You may need to return a book early if you already have 10 books in your Library in ADE and you want to borrow another one:

1. Open your **Library** in ADE and with your mouse **right click** on the book you want to return.
2. Select **Return Borrowed Item** from the menu.
3. In the pop-up window select **Return**.

Can I use screen-readers with Ebook Central and ADE?

Ebook Central

There is a special screen-readable **accessibility mode** for use with text-to-speech screen readers, such as JAWS, NVDA, or VoiceOver. To activate this special screen-readable accessibility mode, either:

1. If you are running a text-to-speech screen reader, simply have it ‘read’ the banner at the top of the Ebook Central page. It will ‘read’ the option of displaying the book’s content in screen-readable-text mode...or
2. Contact the [Ebook Central Support Team](#) to have screen-readable-text mode enabled for your Ebook Central username. Supply your **full User ID** when you contact the Support Team. To find your username select **Settings** then **Profile** from the top of the screen. It is not the same as your University of Aberdeen username and will be a long string of letters and numbers.

ADE

Works with JAWS, NVDA, or VoiceOver. ADE v.3.0, and above, are designed with full keyboard support (tab navigation and shortcuts) and high-contrast support. Read the **Getting Started** e-book pre-loaded to ADE for full details.
