## PRE-DEPARTURE

Website for international students	This website with information on life in the Netherlands and practical matters such as Visa, Housing and Financial Matters will help students prepare their stay.
Housing	<p>Leiden University does not have its own dormitories; instead, students live in accommodation offered by external housing agencies and private landlords throughout Leiden and The Hague. Because housing in the Netherlands is limited and can be expensive, we strongly encourage students to begin their search well in advance and not rely solely on university-arranged options.</p> <p>Each year, the university reserves a limited number of rooms through DUWO for new international students, <b>with priority given to short-term students, such as exchange students and one-year master's students.</b> Although housing cannot be guaranteed, students may apply for university housing as soon as they submit their application for admission—there is no need to wait for an admission decision—and are encouraged to pay the €285 housing fee early. Once a room is reserved, DUWO</p>

	will guide students through the next steps. We also advise all students to explore additional private housing options, and Leiden University is happy to provide guidance and tips during this process. Leiden University can give <a href="#">advice and tips</a> . Please be informed that private housing can be expensive and is scarce.
<b>Visa and residence permits</b>	Holders of EU/EEA passports do not require a residence permit to study at Leiden University. Students with a non-EU nationality must have a residence permit and in many cases an entry visa as well. Once a student has been admitted to Leiden University, the International Relations Office will work with the student to apply on their behalf. Students should note that there is a fee of €243* for visas/permits and strict deadlines for submission of documents. Please note: the amount of living fee a student has to prove is €1150* p/m (for one semester is this amount €5750* and for 2 semesters €11500*). You must demonstrate <a href="#">proof of sufficient funds</a> for living expenses for the duration of your exchange programme.
<b>Insurance</b>	All students are obliged to have health insurance to cover any medical costs incurred during their stay. We strongly recommend that students ensure they have medical insurance before their arrival. Students are also highly recommended to take out liability insurance to cover any accidental damage caused to other persons or property.
<b>Estimated living expenses</b>	On average, students will need at least €968 – €1338 per month. Also see <a href="#">financial matters</a> .  Please note that public transport is not free for exchange students, but discount cards are available.

The Resident Assistants try to create a home away from home for the new tenants by organizing community building events, lending a sympathetic ear, and helping them with issues or questions they may be experiencing. They also function as a contact point, referring them to the appropriate Student Support Services, and as a liaison between DUWO, and the interests of the tenants.

Due to a high demand, spaces are limited, and registration cannot be guaranteed. Students who wish to participate in these courses are strongly advised to list backup courses that also meet the requirements of their home university.</p>
Languages of instruction	English and Dutch
Credit and grading	<p>Leiden University uses the ECTS credit transfer system. Most courses carry a load of 5 or 10 ECTS credits. As is common in the Netherlands, the top grades of 9 and 10 are rarely given. A grading table will be provided on all transcript of records. Please check the website for <a href="#">more information on the grading table</a>.</p>
Standard course load	<p>15-30 ECTS per semester for non-degree students.  30 ECTS is the standard full-time semester load for degree students.  1 ECTS credit equals 28 hrs of study, including contact hours and self-study.</p> <p><b>Important note:</b> To be admitted as an exchange/study abroad students, students must be admitted to at least 20 EC for one semester. However, home universities will usually require that students take more credits than that. We recommend that students make sure they are admitted to a sufficient number of courses to meet their credit requirements before the application deadline!</p>
Course approval & registration	<p>Course approval occurs at the time of application to the exchange program. This process reserves a place in the approved courses for most programmes.*  Registration for approved courses in our online registration system occurs prior to the start of the semester. This process differs per faculty; students will receive further instructions close to the start of the semester.</p> <p>Questions regarding course registration after arrival should be directed to the <a href="#">academic coordinator at the faculty</a> responsible for the course a student wishes to take.</p> <p><b>*Please refer to our <a href="#">website</a> for detailed information about course selection. About the course restrictions, refer to the information under <i>Important faculty-specific considerations</i>.</b></p>
Examinations	<p>Many exams for courses that are available to international exchange students are held before the Christmas holidays so that students may return home by the end of December. There is, however, no guarantee that this will always be possible. Alternative arrangements for assessments may be possible, only at the discretion of the lecturer/department.</p> <p><b>Please note:</b> Alternative arrangements for psychology exams are not possible. If students need to return to their home university in early January, they will not be able to take the resits. Students should carefully consider whether they are comfortable with having only one exam opportunity.</p>
