Honours programmes are generally a combination of taught modules (with seminars and laboratory time) and a research thesis component. Master's programmes are either a combination of taught modules (with seminars and laboratory time) or a substantial research thesis component or programmes based on research only.

Doctoral programmes have a minimum registration period of two years before the degree may be conferred. Students however typically study for around three years and are expected to work independently under the guidance of a supervisor.

Doctoral candidates in all faculties must submit a substantial dissertatior and will generally be required to complete an oral examination. The academic year consists of two semesters:

SEMESTER 1 13 February - June

SEMESTER 2 24 July- December

Each semester has a mid-term break (around May for semester one and September for semester two)

STUDENT

Student Support

Moving from the cosy confines of wherever you call home to the strange and wonderful (or initially far from wonderful) ways of a new land, a new people and a new culture, is certainly no easy task. In fact, it rates very high upon the ladder of the most stressful things we do in our lives.

To minimise the stress and hassles, inconveniences and insecurities - be well informed about each aspect of your new life.

MAKING THE MOST OF VOLID E EXPEDIENCE

Interact with your neighbours.

Get out and about and explore the area on your own or with one friend (better yet with a South African friend)

If you enjoy sport, find a way to continue with it – the activity is also good for you! Meet more often with other exchange or study abroad students and try to meet more local students – have lunch in the Neelsie Student Centre.

Refrain from doing daily activities in large groups of friends from your home country. Try to occasionally read the local news in the local paper (not just the news about home). This will give you a whole new perspective and enable you to converse much more easily with South Africans about issues that are important to them.

Talk to people from different walks of life (younger or older than yourself... not just students) when a safe opportunity presents itself. (For example a store attendant initiates conversation with you while you're shopping).

Try not to be too critical of the host culture and ways. And try not to constantly compare everything to home. Some things may work wonderfully in your own country but others are better here... Try to appreciate the culture for what it is – people over centuries have adapted their behaviour in different ways... making each culture so unique. Have an open mind, and let it enrich you.

Watch some South African television.
Watching TV will also give you insight as to how
this culture ticks.

Talking to South Africans that have visited your country about what they didn't like sometimes helps to open our eyes to the fact that, just maybe, your country isn't as perfect in every aspect as you thought.

Don't always frequent the same bars, cafes, etc.

CAMPUS SECURITY

Campus Security is a service division which assists all students, staff and visitors in creating a safe and orderly environment for the university community.

They are situated at 62 Merriman Avenue, on the corner of Merriman Ave and De Beer Street.

Where you live

Establish relationships with hosts, neighbours and local authorities

Always lock your door

Ensure access to emergency medical care

If you live on the ground floor, do not place valuable items close to an open window

Try and secure a flight as close as possible to the start of Orientation week, as Stellenbosch will be quiet without students during the holidays. New students that seem lost will be easy targets.

Develop an emergency support/ communications network

Report any suspicious persons loitering around residences or instructional facilities or following you to the responsible authority; keep your residence area locked; use common sense in divulging information to strangers about your study programme and your fellow students.

When you travel

Project certainty regarding your route and destination

Restrict night-time travel Inspect vehicle for safety (tires, overloading, brakes, etc.)

Do NOT

Do not make use of public transport to Cape Town before Orientation Week as the trains are normally empty during holiday times.

Avoid "high risk" regions.
Check with Stellenbosch University
International regarding unsafe areas
in South Africa.

Notify Stellenbosch
University International of your
travel plans and possible
contact number(s)

Determine the risk levels of different means of transport (bus. train. taxi) Do not draw undue attention to yourself, either through expensive dress or personal accessories (cameras, radios, sunglasses etc.)

While travelling:
Do not overnight in your
car or take a nap. When
tired, drive to the
nearest town and rest.

Make sure that you know the traffic laws of SA Do NOT use your cell phone while driving

Establish rapport with regular drivers

Travel with a friend/trusted other. Inspect vehicle for safety (tires, overloading, brakes, etc.)

Do not pick up hitch-hikers!

Listen and heed the counsel you are given. Do not drive after consuming alcohol and drugs/ Do not drive under the influence

If you travel to countries beyond your programme site and expect to be there for more than a week, register your arrival at your consulate or the embassy with jurisdiction over the location

Develop a plan for regular telephone or e-mail contact with your family so that they are at ease about your safety.

Make sure Stellenbosch University
International, resident director, host family
or university official who is assigned
responsibility for your welfare always
knows where and how to contact you in an
emergency. Also provide them with your
schedule and itinerary if you are travelling,
even if only overnight.

IMPORTANT:

Tourists are sometimes targeted at Automatic Teller Machines (ATM) and approached by people that either seek assistance or offer assistance.

- Keep other people at a safe distance when using an ATM (ask them to step back and stay behind the line)
- Do not offer assistance but rather indicate that they phone the helpline.
- If you encounter any problems at an ATM, leave immediately but in the case of your card being 'swallowed', stay and call the number as indicated at the particular ATM.
- It is possible to draw money inside a bank or, if after hours, rather make use of an ATM machine situated at a bank.

Drugs and alcohol

Avoid any involvement with drugs. Drug laws can be severe. Bail might be granted under certain conditions, but do remember that Stellenbosch University International does not take responsibility for paying bail for students. Do not assume that buying or carrying small amounts of drugs cannot result in your arrest.

Be aware that alcohol abuse does occur amongst students at universities. This may occur for several reasons: as an international visitor, one may have a mistaken impression of how alcohol is used in the new country. South Africa may have a lower drinking age than elsewhere, or people abuse alcohol in an attempt to fit in.

If you are interested in exploring South Africa, or just going on a short outing,

Taxis and airport shuttle service Several taxi companies operate in and around Stellenbosch. For transport to and from Cape Town International Airport, you can make a reservation at the airport shuttle services

Feel free to consult Stellenbosch University International for a recommendation

Students should be extremely cautious when buying a car, as from experience we know that students often spend more money repairing a second-hand car than the initial amount which was paid for the vehicle

Students must ensure that the vehicle is roadworthy, registered and insured. It is a good idea to take out insurance for your car.

Feel free to inquire at Stellenbosch University International about a recommendation in this regard.
