MEDICAL STUDENT ELECTIVE PRIZE

The Royal Society of Tropical Medicine and Hygiene offers an annual prize of £500 for an account of work carried out by a medical student of any nationality during an elective period spent in a tropical or developing country. In awarding this prize emphasis will be laid on the originality of the work and on its contribution to knowledge or understanding of tropical diseases. Particular weight will be given to projects that have been developed and carried out by the students themselves

UNDERGRADUATE PROJECT PRIZE

The Royal Society of Tropical Medicine and Hygiene offers an annual prize of £500 for an account of work carried out of relevance to tropical developing countries by a non-medical undergraduate student of any nationality. The work, which may be laboratory-based and not necessarily carried out in a tropical or developing country, will add to the knowledge of human or veterinary health or hygiene in the tropics. Particular attention in the award of the prize will be directed towards originality and quality. It is anticipated that the prize will act as a stimulus for the pursuit of excellence in research carried out by undergraduates.
