DEGREE OF MASTER OF ENGINEERING IN ENGINEERING (07H10454)

Students must also comply with the University General Regulations and the Supplementary Regulations for the Degree of Master of Engineering

All the courses listed below are prescribed for this degree

The MEng in Engineering is intended for candidates who are uncertain as to which branch of engineering they wish to specialise in. Students must transfer to one of the other programmes before or at the commencement of the third year of the programme.

In order to be eligible to proceed to one of the discipline specific honours programmes in Engineering, all candidates must select discipline breadth options which satisfy the requirements of at least one discipline specific honours programme. The following table is provided as a guide to aid course choice for general engineering students.

| | Notes |
|----|--|
| 1. | Candidates registering for this degree programme who wish to register for CM 1513 Chemistry for the Physical Sciences 2 should note that CM 1021 Chemistry for the Physical Sciences 1 is a prerequisite for this course and must therefore also be selected. |
| 2 | All course choices at Level 2 and above are subject to students holding the appropriate pre- requisites. |
| 3. | Candidates seeking entry to the Junior Honours programme must have accumulated, by award or recognition, or been exempted from, at least 225 credit points at levels 1 and 2, including those compulsory courses required to enter programme year 3. |
| | If missing one compulsory course which is a pre requisite course for level 3, Head of School approval will be required to progress into Junior Honours, if approval is not granted students would progress onto programme year 3 on the BScEng degree programme. |
| | Students will also be expected to meet the standards required for MEng as publicised in the |
| | Student Handbook. |
