

HEALTH PSYCHOLOGY (MSc/PgDip/PgCert)

57C841B1/61C841VX/62C841VZ

Duration: 12 months full-time or 24 months part-time (MSc)

Content: The MSc in Health Psychology aims to equip students with the knowledge and skills to achieve Stage 1 of the British Psychological Society's requirements for Chartered Membership of the society and full membership to the Division of Health Psychology.

The course covers the full British Psychological Society Health Psychology MSc curriculum with both theory and methodology focused taught courses. Taught courses provide skills which are then applied in the independent research review and empirical research project. It is important to note however that while the MSc Health Psychology confers Stage 1 of the British Psychological Society's training requirements for Chartered Health Psychologist status, the PgDip does not.

Candidates shall be required to attend the following designated courses:

FULL TIME ROUTE

Stage 1

GS50M2 Study Skills for Life (0 credit points)
