This section consists of papers which are not obviously connected with the financial administration of the Scottish Mission. One or two items are related to finances, but these items would not have been among the Procurator's working 'files'. Most are obviously stray items which should have been incorporated into the Presbrite collection.

In this section are two papers by Mr George Matheson of Auchincauldy. These two papers concern a dispute about a legacy and are obviously financial. Presumably the two odd documents in this section came to Buckie along with the financial ones.
