1. Introduction

These guidance notes are for individuals wishing to make a direct application to Advance HE for Associate Fellowship using the Professional Standards Framework (PSF 2023). If you are applying for Associate Fellowship through an Advance HE accredited programme/scheme, then please refer to the guidance provided by your institution.

This document explains Advance HE requirements for Associate Fellowship and provides guidance to support you to develop your application.

Associate Fellowship is the appropriate category of fellowship to professionally recognise individuals from a wide variety of different contexts whose higher education (HE) teaching and/or support for learning practice enables them to evidence some of the PSF 2023 Dimensions to meet the requirements of PSF 2023 Descriptor 1.

By applying to become an Associate Fellow you will have the opportunity to:

+ Demonstrate your commitment to teaching, learning, and the student experience, through engagement in a practical process that encourages research, reflection and professional development
+ Gain professional recognition for your higher education teaching and/or support for learning practice that is increasingly recognised by international institutions
+ Benchmark your practice against professional standards and sector expectations
+ Identify and celebrate your strengths and achievements through reflecting on your experience

Individuals applying for Associate Fellowship may be fairly new to a role in teaching and/or support for learning or may have a limited teaching portfolio; for example, some sessional/part time staff or early career researchers with some teaching responsibilities. They may be new or experienced staff with specific roles in supporting HE learning such as technicians, librarians, professional staff, learning technologists, careers advisors, etc. It is not role dependent; you will need to explore whether you have sufficient evidence of appropriate teaching and or/support for learning practice to make a successful application.

We recommend that prior to starting your application you use our free online Fellowship Category Tool (FCT). Answering the online questions about your higher education teaching and/or support for learning practice should:

+ help you to check that Associate Fellowship is the best match for your current practice
+ prompt your thinking about different aspects of your practice as you plan your application.

The fee for a direct application for Associate Fellowship is on the Advance HE website and is subject to annual review.
1.1 Higher education and eligibility for Associate Fellowship

The PSF 2023 sets out the professional standards for higher education (HE). All the experience and evidence included in an application for Associate Fellowship must relate to teaching and/or support for learning practice related to higher education provision, such as:

- level 4 or above within the Framework for Higher Education Qualifications (FHEQ) in England, Wales and Northern Ireland, or equivalent;
- level 7 or above within the Scottish Credit and Qualifications Framework (SCQF) in Scotland on the Framework for Qualifications of Higher Education Institutions (FQHEIS) or equivalent;
- level 5 or above of the European Qualifications Framework;
- first cycle or above of the Qualifications Framework in the European Higher Education Area (QF-EHEA);
- level 5 or above of the Australian Qualifications Framework (AQF) or equivalent;
- level 5 or above of the New Zealand Qualification Framework (NZQF) or equivalent;
- other equivalent higher education frameworks;
- activity focused on supporting learners within a Higher Education context, providing the learner(s) are enrolled on a Higher Education Qualification may also be considered as evidence equivalent to the higher education frameworks above;
- delivery of some non-accredited continuing professional development for academic and learning support staff may also be considered as evidence equivalent to the higher education frameworks.

The PSF 2023 acknowledges the wide variety of local and global contexts in which higher education operates, and the diverse practices and roles that contribute to high-quality learning.

In defining what constitutes higher education teaching and learning within different national contexts in order to determine eligibility for fellowship, Advance HE uses UK ENIC (UK National Information Centre) for information about global education frameworks and qualifications. Programmes will be defined as HE for the purposes of staff teaching and supporting learning on the programme being eligible for fellowship if they are an integral part of a programme defined as higher education within the context of the country of study.

The definition of what constitutes higher education has been further defined for staff in UK and Australasia. If you are unsure whether the examples of practice within your application meets the eligibility requirements above, please contact fellowship@advance-he.ac.uk
2. The Professional Standards Framework 2023 (PSF 2023)

The Professional Standards Framework 2023 (PSF 2023) for teaching and supporting learning in higher education provides a comprehensive set of professional standards and guidelines for all those who are involved in teaching and supporting learning in higher education. The PSF 2023 can be used by individuals to plan their development and evidence their practice to achieve professional recognition, by institutions as a basis for initial and continuing professional development and recognition programmes, and at a national level to improve teaching quality and celebrate success.

The PSF 2023 acknowledges the wide variety of local and global contexts in which higher education operates, and the diverse practices and roles that contribute to high-quality learning.

The Professional Standards Framework (PSF) 2023 consists of two components: **Descriptors and Dimensions.**

*Figure 1: Professional Standards Framework (PSF) 2023*

The **PSF Descriptors** (PSF, p6) are a set of criteria statements (referred to as Descriptor ‘criteria’). These define the key characteristics of four broad categories of practice.
Incorporating the Dimensions, each Descriptor identifies the extent of practice required to meet it and recognises the variety of practice and roles undertaken by professionals who teach and/or support learning. Each Descriptor consists of an introduction and a set of three criteria statements.

The Dimensions of the Framework (PSF 2023, p4) are arranged as three related sets of five Professional Values, five forms of Core Knowledge and five Areas of Activity.

- **Professional Values (V1-5):** underpin all forms of Core Knowledge and Areas of Activity. They are the foundation of professional practice.
- **Core Knowledge (K1-5):** informed by the Professional Values, representing key forms of knowledge required to undertake the Areas of Activity. There are multiple and diverse forms of knowledge which are connected to and shaped by communities and contexts.
- **Areas of Activity (A1-5):** bring together the Professional Values and forms of Core Knowledge, showing the essential activities that support delivery of effective practice.

Advance HE operates the fellowship scheme and aligns its fellowships to the PSF 2023 Descriptors as follows:

- Descriptor 1 (D1) aligns to Associate Fellow
- Descriptor 2 (D2) aligns to Fellow
- Descriptor 3 (D3) aligns to Senior Fellow
- Descriptor 4 (D4) aligns to Principal Fellow

An individual providing teaching and/or support for learning can be recognised by Advance HE depending on their professional practice and experience at one of four categories of fellowship. This guidance document is focused on Associate Fellowship (Descriptor 1).

To achieve Associate Fellowship, you need to evidence that your teaching and/or support of learning practice demonstrates the requirements of the three Descriptor 1 (D1) criteria, which are as follows:

- **Descriptor 1** is suitable for individuals whose practice enables them to evidence some Dimensions. **Effectiveness of practice in teaching and/or support of learning is demonstrated through evidence of:**
  - D1.1: use of appropriate Professional Values, including at least V1 and V3
  - D1.2: application of appropriate Core Knowledge, including at least K1, K2 and K3
  - D1.3: effective and inclusive practice in at least two of the five Areas of Activity

As shown above, the Descriptor 1 criteria statements incorporate specified Dimensions; the 15 PSF 2023 Dimensions are shown below in Figure 2.
Figure 2: PSF 2023 Dimensions of the Framework

Professional Values
In your context, show how you:

V1 respect individual learners and diverse groups of learners
V2 promote engagement in learning and equity of opportunity for all to reach their potential
V3 use scholarship, or research, or professional learning, or other evidence-informed approaches as a basis for effective practice
V4 respond to the wider context in which higher education operates, recognising implications for practice
V5 collaborate with others to enhance practice

Core Knowledge
In your context, apply knowledge of:

K1 how learners learn, generally and within specific subjects
K2 approaches to teaching and/or supporting learning, appropriate for subjects and level of study
K3 critical evaluation as a basis for effective practice
K4 appropriate use of digital and/or other technologies, and resources for learning
K5 requirements for quality assurance and enhancement, and their implications for practice

Areas of Activity
In your context, demonstrate that you:

A1 design and plan learning activities and/or programmes
A2 teach and/or support learning through appropriate approaches and environments
A3 assess and give feedback for learning support and guide learners
A4 enhance practice through own continuing professional development
3. Developing your application

In planning and developing your application, we recommend that you access the Advance HE resources and follow the sequence of activities set out in Figure 3 below.

Figure 3 – Steps in developing your application

Step 1
Section 2 above explains the Professional Standards Framework (PSF) 2023. Your application will be reviewed against Descriptor 1 of this framework.

Before starting to use this guide, we advise you to complete the Advance HE Fellowship Category Tool (PSF 2023 version), which is free to use on the Advance HE website here.

The Fellowship Category Tool (FCT) consists of a set of statements that are aligned to the different PSF 2023 Dimensions of the Framework and Descriptors. This self-analysis tool will ask about your professional activities in teaching and/or supporting learning in higher education (HE). By using the tool to consider your current and recent practice, your choice of statements as you progress should help to confirm that Associate Fellowship is the most appropriate category of fellowship for you. Please note that the accuracy of the tool depends on the choices you select as you work through it. As you look through the guidance documents, if you feel that you are not yet able to provide sufficient evidence for Descriptor 1 then you can use the report provided by undertaking the FCT to guide the development of your practice further before making a successful application.
In your **Associate Fellow applicant pack**, you will have the following:

- Guide to the PSF 2023 Dimensions – Associate Fellowship
- Associate Fellowship Applicant Guidance (this document)
- Associate Fellowship Draft Application Template
- Guidance for Referees writing a Supporting Statement and associated Supporting Statement Template (for use by your referee)
- Professional Standards Framework (PSF) 2023

**Step 2**

**Guide to the PSF 2023 Dimensions - Associate Fellowship (D1)**

We recommend that you start by reading the Advance HE ‘Guide to the PSF 2023 Dimensions - Associate Fellowship (D1)’. This guide introduces and explains the PSF 2023 and then focuses on each of the 15 PSF 2023 Dimensions to support you in thinking about your practice and identifying potential evidence appropriate to PSF 2023 **Descriptor 1 (D1)**, which is the basis for the award of **Associate Fellowship**.

This Guide focuses on each Dimension in great detail. We include lots of different examples of practice to reflect the wide range of roles and contexts in which HE practitioners work within the global higher education sector. There are also prompt questions to help you to think about your practice in relation to each Dimension. The questions and examples provided are **indicative only** and may not be relevant to your practice; you may have different appropriate examples, depending on your own unique context.

The starting point for your application will be to decide which **two of the five Areas of Activity** are most appropriate to your own practice. You will then be able to focus your use of the Guide on the sections most relevant to you and your context, to start to identify evidence to use in your application.

**Associate Fellow applicant guidance**

Once you have decided which two Areas of Activity you are going to base your application around, and you have identified how **in your context** you have used appropriate Professional Values (at least V1 and V3) and applied Core Knowledge (at least K1, K2 and K3) in your practice, you should then start to use this applicant guidance document to understand the format and requirements of the application as well as how to submit an application.

**Associate Fellow Draft Application Template** (in the applicant pack you downloaded)

Use this Word document template to write and finalise your draft application offline, prior to using our online application system to submit your application.
Step 3

Once your draft application is finalised within the template, you need to share this with your referee. They will then be able to use the ‘Guidance for Referees writing a Supporting Statement’ and associated Supporting Statement Template.

When you have your Supporting Statement and are ready to pay the application fee, you are ready to use the My Advance HE portal to submit your application. Information about how to submit is in the ‘Submitting your application via MyAdvance HE’ guide on the MyAdvance HE portal.

4. Your Account of Professional Practice

There are two parts to your direct application for Associate Fellowship:

+ written Account of Professional Practice; Context Statement and Reflective Narrative against two PSF 2023 Areas of Activity (see Section 5)
+ one Supporting Statement (see Section 6)

Associate Fellowship is based on meeting Descriptor 1 (D1) of the PSF 2023 and your Account of Professional Practice is the core of your application.

The Account of Professional Practice consists of a Context Statement (see Section 4.2) and a Reflective Narrative against two PSF 2023 Areas of Activity.

Your Context Statement provides a brief summary of your higher education roles, responsibilities and professional experience and your Reflective Narrative should provide evidence that your professional practice meets the requirements of PSF 2023 Descriptor 1.

Higher education takes many forms and there is considerable variation in the different roles higher educational professionals carry out; for example, in experience, disciplinary background, job role, institutional context, etc. Your Account of Professional Practice is a personal account and its focus throughout should be on your own professional practice; make it personal to your specific, individual and distinctive practice. Your Supporting Statement will verify and endorse that what you write about in your Account of Professional Practice represents your practice in a genuine way (see Section 6).

The award of Associate Fellowship is based on evidence of your effective and inclusive practice; you might briefly mention future plans as part of identifying what has worked well and any changes you plan to make in future, however, your application will be judged on whether your evidence of current and recent practice meets the requirements of Descriptor 1.

In your Reflective Narrative you should include appropriate rationale for the approaches you took and evidence the success and effectiveness of your teaching and/or supporting learning practice. Your Reflective Narrative should be based around real examples from your practice.
and should make clear what you did, why/how you did it that way and how you know that this was effective.

Writing about the ‘why you did it that way’ will enable you to provide evidence for V3: use scholarship, or research, or professional learning, or other evidence-informed approaches as a basis for effective practice.

Provide selective examples of practice in your Reflective Narrative and ensure they have direct relevance to your claim for Associate Fellowship. The quality of the examples of evidence is much more important than the quantity (see Section 4.3).

Examples should be drawn from current and recent practice (within the last 3 years) and must relate to higher education teaching and/or supporting learning. If you need to refer back to practice from more than 3 years ago, you need to ensure that you focus on how this now influences your current practice.

4.1 Your Account of Professional Practice is a personal account

Think of your application as a ‘claim’; you are making a claim that your work is effective and has a positive impact on student learning. Your application will be reviewed by two experienced peer reviewers and you need to show these reviewers that there is a clear rationale behind the way you work and the choices you make in your practice.

Write in the first person (use ‘I’) so it makes clear what you do/ have done. Try to avoid discussing teaching in general or abstract terms as this moves the application away from being about you and your own personal practice and will not help your personal ‘claim’ against Descriptor 1. If you want to include work you did as part of a team/with colleagues, you need to be clear what your personal contribution was.

Your application must be submitted in English (please refer to the Fellowship FAQ document for further information).

Please note that the Advance HE online application system only accepts plain text; it will remove any formatting from your text and will not accept diagrams, images, hyperlinks or any other documents/appendices such as curriculum vitae/resume.

4.2 Context Statement

A Context Statement (up to 300 words) is the first part of your Account of Professional Practice and you should briefly introduce yourself and outline your role(s) and responsibilities in teaching and/or supporting learning in higher education. The information in your Context Statement will help the reviewers to understand the nature of your work and the context in which you practice, before they look at the evidence you provide in your Reflective Narrative against the PSF 2023 Descriptor 1; this section provides the background to your Reflective Narrative and is not ‘assessed’ against Descriptor 1.
In no more than 300 words your Context Statement should:

- Provide a brief summary of your teaching and/or support of learning experience, including the context in which you currently work, your current role and responsibilities in teaching and/or support of learning. Identify the type and location of institution(s) you work for, as this will help to set out the context for your work, but keep this brief and relevant to your role. Do not include details about the history and prestige of the institution(s), as your Account of Professional Practice is about you and your practice;

- Identify the learners that you work with; for example, the level of study (e.g. year of study, undergraduate, postgraduate, etc.), programme(s)/unit(s) of study, discipline/specialist area of work, number and types of learners, etc.;

- Focus on your current or recent practice, which should be within the last 3 years. Please remember that your application for Associate Fellowship is based on your higher education practice; if you also work in other teaching or learning roles outside of higher education you should not include this in your application (please refer to Section 1.1 for further information about eligibility for Associate Fellowship).

As the Context Statement is not an assessed part of your application, you do not need to link this information to the PSF. The reviewers will not take account of the information in the Context Statement when they assess your application; therefore, it cannot be used to provide supplementary information that would add evidence of effective practice to your ‘claim’ for Associate Fellowship in your Reflective Narrative (i.e. it cannot be used to extend the word limit of your Reflective Narrative).

The two examples below illustrate the types of information that are useful to include in the Context Statement to set the background to your practice:

Example 1:

I am a PhD student in my third year at a research-intensive university. I have been involved in various teaching and support of learning activities over the last two years.

I lead seminars for groups of between 10-15 undergraduate students studying Spanish in years 1 and 2. Seminar topics cover Spanish culture, history and politics. These normally last between one and two hours and provide the opportunity to discuss particular topics in more detail. Although the seminar schedule and topics are set, I develop my own seminar materials with support from the academic team. I use the University’s VLE platform to host resources and activities.

I also teach the module Mandarin for Beginners, which is offered to all second year undergraduate language students; this involves a weekly lecture to around 40 undergraduate students and four tutorials a week to groups of 4-5 students.
Example 2:

I am an experienced, professionally qualified librarian at the University of X with specific responsibility for supporting students in the Faculty of Humanities and Social Sciences, whilst also helping to deliver the library’s academic skills agenda. I have worked at the University for three years and am part of a small team of four library staff within the faculty. The University is a large modern university with four faculties and around 20,000 Undergraduate and 8,000 Postgraduate students. My faculty attracts a high proportion of international second-language students.

My main teaching is face-to-face in-class timetabled sessions with groups of 20-30 first year undergraduate students in their first semester. I work closely with academic staff and design my sessions to fit alongside their programme objectives. My sessions are usually up to 1.5 hours in length.

I also design and deliver face to face self-sign-up sessions with small groups of undergraduate and postgraduate students at our main site and students in our two overseas campuses via video link.

I am currently involved in a university-wide project to identify correlation between skills workshop attendance and attainment, especially for traditionally underperforming groups.

4.3 Structuring your Reflective Narrative

The written Reflective Narrative is structured into two sections; you write about your practice in relation to two of the five PSF 2023 Areas of Activity. You should choose to write about the two Areas of Activity that are most appropriate to your own practice (see Section 5 below for further guidance).

As well as covering two Areas of Activity (D1.3), to address D1.1 and D1.2 you also need to make sure that across the two sections of the Reflective Narrative you include evidence that you are effectively using appropriate Professional Values at least V1 and V3; and applying appropriate Core Knowledge at least K1, K2 and K3.

In addition to the mandatory Dimensions required for Descriptor 1, you are likely to also identify other Professional Values that you used and other forms of Core Knowledge that you applied within the examples of practice you are writing about. Where this is the case then make clear why and how you used/ applied these.

Please remember to continue to use the Guide to Understanding the PSF 2023 Dimensions – Associate Fellowship to support you in making links between your practice and the most relevant Dimensions and to choose evidence to include as you develop your narrative.

As you provide evidence against the Dimensions, you should highlight this where applicable. One way to do this is to refer to the Dimension in your text, e.g. (V1) or (K1) etc. Ensure that you only link to the most relevant Dimensions in each case (eg one or two that you have engaged with in a meaningful way in that specific example of practice) and avoid producing
long lists of links to Dimensions (e.g. K1, K2, K4, V1, V2, V3) as this will not demonstrate your meaningful engagement with the Dimensions.

When deciding which examples of practice you are going to use for each of the two Areas of Activity, try to **use different examples** in each Area that best evidence the specific Dimensions required. It is important that you don’t rely on the same examples in each of the two Areas of Activity as this is unlikely to provide *sufficient* evidence that your practice meets all the requirements of Descriptor 1. Select your examples carefully as too many examples will restrict your ability to demonstrate your effective practice against each Area of Activity in order to make a strong ‘claim’ against Descriptor 1.

Within the limited words available you will not be able to write about everything you do and **must be selective** about the examples you choose to write about. Select examples that best exemplify your work in each chosen Area of Activity and which also allow you to demonstrate the specific elements of the Professional Values and Core Knowledge required (see Section 4.4 below related to word limit).

### 4.4 Reflective Narrative word limit

The overall word limit for the Associate Fellow Reflective Narrative is **1,400 words plus citations (200 words); overall maximum 1,600 words.** Please note that the Advance HE online system will not exceed this limit.

Although you can choose how to spread the balance of the word limit across your Reflective Narrative, we recommend that you should aim to use around 700 words in each of the two sections plus citations.

### 4.5 Reflect on your practice throughout your Reflective Narrative

Developing your Reflective Narrative requires you to identify/gather and consider evidence of your practice, reflecting on the impact you have made on student learning. You should avoid long descriptions of what you ‘did’ and take a reflective stance so that it is clear what you did, how/why you did it that way, how you know this was effective and what you will do in future as a result.

A **simple reflective model** for you to use throughout your Reflective Narrative could be to clearly explain:

+ **What** you did (be selective with the examples you choose to include – see Section 4.3)
+ **Why** you did it in this way; clearly explain your approach and justify your choices and decisions (eg use of an appropriate evidence-informed approach to suit your context, etc.)
+ **How** you carried out this approach (eg including any specific challenges or practical issues you had to overcome)
+ How you **evaluated the effectiveness** of what you did (explain the kinds of ‘information’ you used to review and evaluate your work including the impact this had on your learners’ learning)
**What changes** you made as a result of evaluating your effectiveness (for example, you might have modified a session in response to learner/peer feedback and then evaluated the effectiveness of the change you implemented).

### 4.6 Reference list

Throughout your Reflective Narrative you will refer to the sources of information that you have drawn on within your teaching and/or support for learning practice. For example, K2 requires that you bring to your practice a knowledge base of approaches to teaching and/or supporting learning, appropriate to your context. In evidencing K2, you might explain why you chose an approach and how you came to know about it (e.g. journal article, professional development, conference, mentoring from colleagues, etc.).

Where you do refer to a source of information that has influenced your practice, you should ‘cite’ the reference within your text to provide appropriate credit to the author(s)/organisation. This will enable those reviewing your application to be clear about which sources have influenced and inspired your practice. Whenever you cite in the text, you need to include the full reference in a list at the end of your Reflective Narrative. Please note that footnotes are not accepted by the online application system.

The word limit for the Reference List is 200 words.

The short excerpt of an Associate Fellowship application below illustrates how the applicant cites the journal article that inspired their design of a lecture and includes the full reference in their Reference List:

‘When it came to designing my seminar sessions, I was influenced by Burgstahler’s (2015) theory of universal design. I thought about the diverse nature of learners in my group and the cultures and educational backgrounds they came from, to ensure that the activities I chose reflected their identities, interests and needs. (V1)’

**Reference List for excerpt**

5. Evidencing the required PSF 2023 Dimensions for Descriptor 1

Deciding which two Areas of Activity to base your Reflective Narrative around is an important first stage in planning and developing your application.

You should use the ‘Guide to the PSF 2023 Dimensions – Associate Fellowship (D1)’ to support you to select the two Areas of Activity in one of the following ways:

+ consider the guidance and prompt questions for all five Areas of Activity and then make a choice when you have mapped out your likely evidence against each one. You will then be able to decide which two Areas of Activity will make the strongest claim against Descriptor 1; or
+ alternatively, it may be very clear to you immediately that your evidence is associated with two specific Areas of Activity because of your context and the nature of your practice; in which case focus your attention on the relevant sections in the guide.

Although the Reflective Narrative for Associate Fellow applications is structured around two of the five Areas of Activity this does not mean that the Areas of Activity are more important than the Professional Values or Core Knowledge PSF 2023 Dimensions.

As well as using the ‘Guide to the PSF 2023 Dimensions’ to identify your two Areas of Activity, you should also use the guide to identify where you use Professional Values and apply Core Knowledge within your practice.

Across the 1,400 words of your Reflective Narrative, as well as evidencing two Areas of Activity, you need to ensure that your evidence includes use of appropriate Professional Values at least V1 and V3, and application of Core Knowledge at least K1, K2 and K3.

You will probably have evidence of your practice that includes some other Dimensions in addition to those that are required for Descriptor 1; you can include evidence of some of these additional Dimensions in your application where they are most relevant (see Section 4.3).

The Dimensions are inter-dependent and integrated within the context of your professional practice; put simply, the Areas of Activity are what you do, you use the Professional Values to inform and underpin your work and the Core Knowledge is what you need to apply to effectively carry out this work.
A short example is given below to illustrate how this might happen in your work:

In designing and planning a learning activity (A1) I apply my knowledge of how my learners learn within this subject (K1) and select an appropriate teaching and learning approach (K2). I consider the needs of individuals within my learner group (V1) and plan appropriately to ensure that all learners will be able to fully engage (V2). I develop appropriate resources to use and set up an online quiz to assess the learning that has taken place in this session (K4, A3).

5.1 Examples of practice for each Area of Activity

The ‘Guide to the PSF 2023 Dimensions’ is your key source of information about what evidence of your effective and inclusive practice (D1.3) you might include in your application for Associate Fellowship.

The short examples below are included to help you to understand how in an application the planning of evidence around the two Areas of Activity also incorporates use of Professional Values and application of Core Knowledge.
An example to support thinking about A1: Designing a short series of study skills workshops

Hassan recently ran a short series of study skills workshops for first year undergraduate students and decided to use this as one of his examples of evidence towards A1.

Hassan firstly explains how he used his knowledge of study skills in the design and planning of the workshops (K1). He discusses the particular needs of his first year group of undergraduate students and how he considered the diversity of their previous learning experiences and individual learning needs in planning his approach (V1, K2). He outlines the challenges that other tutors have previously encountered in delivering these workshops and discusses how he plans to overcome some of these challenges. He then explains why he felt this was the best approach to take with this group.

Hassan explains how he designed the learning activities to link with the students’ particular discipline (K2), drawing on two articles he read which included research on learning in this field (V3).

Hassan evaluated the sessions by getting the students to give feedback after the final session. He then reflects on what worked well and what didn’t, what he learned from the experience and how he plans to change aspects of next year’s workshop series as a result (K3).
Mia, an early-career researcher, has been demonstrating chemical analysis techniques to a group of second year undergraduate students and supporting them to use these techniques in a series of practical laboratory sessions. Mia uses this as part of her evidence towards A2.

Mia knows that second year students find the theoretical knowledge around her subject challenging and understands how useful practical experiments are in supporting them to develop a greater understanding of the subject. She discusses how she used her discipline knowledge (aligning with her research area in this particular case) which underpins the experiment (K2) and refers to relevant pedagogic literature on how learners develop practical skills in her discipline (V3, K1). As this practical lab series is far more advanced than basic first year lab sessions, Mia discusses how she breaks down the practical sessions into clear stages so that she can support students’ engagement and their understanding of the experiment as she works with them, adapting her guidance accordingly (K2).

Mia has considered the diversity of the learning group and discusses how she ensures that all students can participate fully. Some students are mature, some came directly to university at 18, a number of students are from other countries and some of these have difficulties understanding some of the complex language of the discipline. One student has a hearing impairment (V1). Mia provides notes that are available to all students via the VLE about the experiment in advance of the session; these are particularly useful for the students who are working in a second language and the student with a hearing impairment (V2). Mia knows that providing material in advance is important for a variety of students because she attended a CPD workshop on inclusivity, which she found both interesting and useful. As a result of attending this workshop Mia is exploring ways that she can further adapt her teaching practice to ensure that all students are able to engage fully (V2 and V3).
An example to support thinking about A3: Assessing students in a blended learning context

Anton is a post-doctoral researcher with some teaching responsibilities. He is supporting a group of students on a module that is part of a blended learning programme in Art and Design. One of the key aspects of his role is assessing students' work, particularly formatively, and providing feedback to help them prepare for their summative assessment which ends with a ‘show’. Most of the study on the programme is online, with students attending campus for a one block of learning on a termly basis. Anton uses this as part of his evidence towards A3.

Anton sets the context for his assessment practice and explains the approach he takes to providing formative feedback on the students’ work, relating this to the requirements of the module and the end of year summative ‘show’ (K2). In doing this, he refers to pedagogic literature he has read on assessment and providing appropriate feedback (V3). He discusses the importance of his work in providing timely and supportive formative feedback to enable students to develop their work prior to the final summative assessment.

Anton explains how he works with the challenges and advantages of an online environment to provide his students with appropriate support and guidance (K2, K4). He refers to an interesting article he read about online feedback and explains how this has influenced the way that he now works with students at a distance (V3). This flexible approach to study has attracted some part-time mature students and Anton provides some specific examples of how he has supported the needs of part-time mature students, newly back into study (V1).

Anton then discusses his role in the summative assessment at the end of year show and the way in which he works as part of a team to make assessment judgements on the students’ work (V5). He has taken part in a team development workshop for all tutors on this programme; he identifies what he learned at this session and explains how he now applies this learning when doing the summative assessment at the end of year show (A5). He also discusses some things he intends to do differently next year, based on student progress and mid-module feedback, and why he thinks these changes will enhance learning on the programme (K3).
An example to support thinking about A4: Work-place mentoring

Chen is in a professional role in a clinical setting but is also employed by a university to provide mentoring for undergraduate students in practice. She decides to choose A4 as one of her two Areas of Activity for her application, focussing on her support for a small number of students in a placement setting to translate the learning from their coursework into practice with clients/patients.

Chen discusses her role in mentoring students. She refers to literature on evidence-based practice that underpins both her own clinical work and the students’ work-based learning (V3). She also discusses the training for mentors she attends at the university and explains how she is using some of the examples from those training sessions (V3, A5) to help her provide guidance for some final year students in the clinical setting. Chen discusses the guidance she has created and how this has helped students to apply the learning from their coursework and timely support to prepare for their placement (V2).

Chen demonstrates her understanding of the learning outcomes students are required to fulfil to pass this particular placement (K1) and explains how she and other placement mentors have worked with the module tutor at the university to align the academic elements with the practice context (V5). She provides examples of the kinds of prompt questions she uses with the students to help them think critically about their clinical practice (K1, K2). Chen also encourages students to take histories from patients and then present these so that she can give them some verbal feedback on how they could improve on this and make it more effective (A3).

Chen also considers the particular learning needs of this group of students in comparison to first year students she has mentored in a different setting previously (K1). She discusses the relevance of this particular experience to the students’ future employability and how she ensures that they are clear about how the Professional Body requirements apply to their work in this clinical context (V4).
An example to support thinking about A5: part-time tutor working within industry and as part of a programme team

Alex is a part time tutor on a postgraduate programme in Film Production. She also works within the industry. She discusses the impact of both her (i) industry-related and (ii) teaching-related professional development on the learning experience she provides for her students.

**Industry-related example:**

Alex discusses how her continuing professional development in industry supports her role as a tutor on the programme; she remains up to date with current trends in equipment and software through reading professional journals, attending professional development events and working with other professionals. As well as being expert on her own specialist area, Alex explains how her work on film sets across the world enables her to collaborate with other professionals and how she uses the knowledge and insight gained to help her teach from a wider industry-based perspective (K2, V3). She discusses how this impacts on her students' learning experience and their readiness to work in the global industry (V4).

**Teaching-related example:**

Alex discusses her commitment to teaching and learning-related continuing professional development. All members of the programme team actively engage in peer-review of teaching and Alex provides several examples of how observing her colleagues and being observed by experienced peers has influenced her approach to her own teaching practice (V3). As a result of these experiences, she has also started to read more about how students learn in her discipline and is drawing on this new knowledge in her teaching practice (K1, K2).

The programme team hold regular meetings and Alex explains how these help her to understand where her sessions fit into the rest of the module and programme (K1). Alex explains what she has learnt about the effectiveness of different methods of teaching from her colleagues' discussions at the meetings. Together with feedback provided by the student representatives who attend the meetings, and the responses from her module evaluations, Alex has changed some approaches to her teaching and learning practice to enhance some elements of the module (K3).
The examples above will have helped to illustrate how someone might write about their practice in a Reflective Narrative. You will be writing about your own unique context and using examples and evidence personal to you. Remember to write in first person – use ‘I’ – as shown in the short extract below:

I attended a University workshop about neurodiversity in order to better understand the challenges that one of my students faces (V1). I later read an article recommended by the workshop facilitator that was highly relevant to my disciplinary context (V3). I now approach the planning of my session activities and the learning environment to ensure that all my students can fully engage in the learning to reach their full potential (A1, V2).
6. Supporting Statements

Your application for Associate Fellowship must be endorsed by a Supporting Statement from a referee.

The Supporting Statement endorses your claim and is used by the reviewers to confirm that your application presents a fair and accurate reflection of your higher education practice. It is not used by reviewers to fill any gaps in the evidence you provide towards the Descriptor. The reviewers will need to see sufficient evidence of effective practice in your Reflective Narrative to meet Descriptor 1 for them to award Associate Fellowship.

Your referee should work, or have recently worked, closely with you and have first-hand knowledge of your practice so that they are in a position to comment on and endorse your application. Please note that Supporting Statement should reflect a professional relationship; i.e. not be from a family member or based on a personal friendship.

Referees need to have current or recent experience of working in higher education and to be familiar with the PSF 2023; for example, as a holder of one of the four categories of Fellowship, although this is not essential.

It is important that you read the Supporting Statement your referee provides, as they may refer to aspects of your practice that could strengthen your application; if this is the case then you could revise parts of your application and ask your referee to check that they are happy to endorse the changes you have made before you submit. When you have received your Supporting Statement, save it so that it is ready for uploading in MyAdvanceHE.

You may be asked to provide an alternative Supporting Statement for a variety of reasons when reviewers of your application judge that the statement does not fully verify and endorse the evidence in your application.

6.1 Guidance for referees

Provide your referee with a copy of the Guidance for Referees writing a Supporting Statement – Associate Fellowship and the Supporting Statement template; both of these documents will be in the applicant pack you downloaded. The Supporting Statement must be written in the Advance HE template.

In their Supporting Statement, your referee will need to confirm that you have represented your practice accurately and fairly. Therefore, your referee needs to be provided with the final draft of your application to enable them to provide an effective reference. In their Supporting Statement the referee will confirm that in their professional opinion, you demonstrate the requirements of Descriptor 1 and should be awarded Associate Fellowship.

Your referee will be asked to confirm that they have written the Supporting Statement themselves and that the information they provide has been written specifically for your application. They are asked to save their Supporting Statement as a pdf file and send it to you so that you can upload it with your application.

Advance HE reserves the right to contact your referee for clarification so please ensure that the Supporting Statement includes verifiable contact details (eg name, job title, email address,
institution). As part of Advance HE’s ongoing quality assurance process, Advance HE routinely checks references for individual authenticity by means of textual review in Turnitin.com. In addition to the use of anti-plagiarism software, some referees will be contacted to confirm that the Supporting Statement submitted by the applicant through the online MyAdvanceHE application is the same statement that they have prepared and completed. If the professional integrity of the Supporting Statement is in question, the statement will not be accepted which may result in the application being failed.

7. Submitting your Associate Fellowship application via MyAdvanceHE

Once you have finalised your application offline using the Associate Fellowship application template and you have your Supporting Statement, you are ready to submit your application.

Your application is submitted via the Advance HE online submission process in your MyAdvanceHE account. The screens in the online system guide you through the process and your application will be saved as you progress so you can save sections and return to finally submit it at a later date. Full guidance with screenshots is available on the Fellowship Applications page of MyAdvanceHE.

7.1 Application submission process:

1. Check you can sign into your Advance HE’s MyAdvanceHE account/create an account ready to apply
2. Prepare and write your APP in the Associate Fellowship application template offline
3. Obtain a Supporting Statement in the Advance HE template from your referee and save as a pdf file; have this ready to upload
4. When you have all your application documents and payment arrangements ready to progress, follow these steps to submit your application for review:
   4.1 Sign in to your MyAdvanceHE account;
   4.2 Choose the tab for ‘Fellowship’;
   4.3 Click on the link to ‘Fellowship applications; you are applying using the applicant guidance and format for PSF 2023 and must select that option;
5. Select new Associate Fellow application PSF 2023 from the menu and follow the instructions which will take you through to the online template to complete;
6. Choose how your application will be paid for from the following options:
   6.1 I’ll pay myself;
   6.2 My Organisation is paying;
6.3 My Organisation has paid in advance (this is only for applicants who have been
tonified by their institution that they have been included in the pre-payment of a
umber of applications purchased as part of a contract with Advance HE).

7. Copy and paste the text from the final version of your offline application template onto
this online application template

8. Upload your Supporting Statement as a pdf file;

9. Pay the fee requested.

7.2 Payment for your application

When you upload your application and choose to submit, you will be asked to pay the
application fee. Once the fee is paid, your application will be allocated to the next available
review panel.

Payment is required by debit or credit card when you submit your application in
MyAdvanceHE. You can pay this yourself at the time you submit or, if you are receiving
financial support from your institution, there is an option for someone else to pay on your
behalf (please see Section 7.3 below).

The fee for a direct application for Associate Fellowship is on the Advance HE website and is
subject to annual review. Employees of Advance HE Member institutions will be charged a
subsidised rate. If you are unsure of your institution’s Advance HE membership status, please
check the list of Advance HE member institutions on the Advance HE website. If you are still
unsure, please contact Advance HE’s fellowship team, fellowship@advance-he.ac.uk

Please note that if an Advance HE Member institution chooses to make participation in an
institutional Advance HE accredited programme or scheme contractual, any individual wishing
to apply directly to Advance HE should choose ‘self-employment’ as their employment status
and use a personal email address. They will be required to pay a full fee for the application;
i.e. the fee will not be subsidised by the institutional membership.

7.3 If your institution is paying on your behalf

If your institution is paying for your application, you will need to have selected that option
when you started to complete the online application form. You can copy a payment link from
MyAdvanceHE and forward it to the individual at your organisation responsible for making
the payment. They simply follow the link to pay online with a credit or debit card.

If your organisation is unable to pay by card, Advance HE can raise an invoice for them to
pay by bank transfer. For payment by this method your organisation will need to provide you
with an electronic copy of a Purchase Order, which you upload to MyAdvanceHE, in the
Invoices area of the My Profile section.

Some institutions pre-pay for multiple applications in advance. If your institution has pre-paid
for your application in this way, the contact at your institution will advise about how the pre-
payment of the fee operates; please note that your application will not progress to the review
process until the pre-payment of the fee is confirmed.
8. How will your application be reviewed?

Your application will be reviewed by two independent reviewers (called a 'panel') as part of a peer review process.

The Advance HE reviewer pool includes education specialists and practitioners from across the international higher education sector. Reviewers are selected for their experience of external review and their understanding of the PSF 2023, as well as for their knowledge and experience of learning and teaching in higher education, including different contexts (e.g. disciplines, professional roles, etc.) and global settings.

All reviewers are Senior or Principal Fellows and are required to undertake an annual cycle of professional development and regular standardisation activities with Advance HE to ensure that their review of your application is based on their up-to-date knowledge and understanding of the requirements of the PSF 2023 and Associate Fellowship.

8.1 How do the reviewers reach their judgement?

The reviewers will be looking for evidence that your practice meets the requirements of Descriptor 1 across your Reflective Narrative and will check that the Supporting Statement provides appropriate endorsement for your application. They will assess your application against each of the Descriptor 1 criteria.

Please note that the judgement is based on the written evidence you provide in the Reflective Narrative meeting the requirements of Descriptor 1.

Each reviewer will read your application and will apply the Descriptor 1 criteria to reach an initial independent judgement. The two reviewers then reach a combined consensus judgement.

Full guidance for reviewers with associated review pro-formas are available on the Advance HE website. This information sets out the process reviewers follow to make professional judgements on Associate Fellowship applications.

8.2 How long will the review process take?

An application for Associate Fellowship can be made at any time during the year. The length of time it will take to process your application is dependent on the dates of our review panels and the demand on the fellowship service when you submit your application.

Advance HE holds regular review panels and typically you will be notified about the outcome of your application within 12 weeks.

If your application is not successful following the first review, you will receive feedback from the reviewers and have one opportunity to strengthen your application and resubmit (see below). Once you have resubmitted, you will normally be notified of the final outcome within 6 weeks.

You can check the status of your application by logging into “Fellowship” in MyAdvanceHE.
8.3 Review process and possible outcomes

The diagram below outlines the review process for your application and possible outcomes.

*Figure 2: Associate Fellowship application review process. ‘1’ indicates first resubmission process; ‘2’ indicates ‘unsuccessful’ outcome for resubmission and end of review process.*
8.4 Outcome of first review

There are two possible outcomes following the first review of your application – Award or Refer.

Outcome 1: Award

If the reviewers’ consensus judgement is that your application meets the requirements of Descriptor 1 then you will be awarded Associate Fellowship. You will receive a congratulatory email which will explain how to download your Associate Fellowship certificate from within your MyAdvanceHE account.

As an Associate Fellow, Advance HE expects you to adhere to the Fellowship Code of Practice and to maintain your professional practice in accordance with the PSF 2023.

Outcome 1: Refer

Should your application be judged as providing insufficient evidence for meeting Descriptor 1, then you will be provided with feedback from the reviewers in a Panel Outcome and Feedback template. This feedback will indicate which of the three Descriptor 1 criteria your application has met and explain how your application needs to be strengthened to provide the evidence of the remaining Descriptor 1 criteria.

You will be offered one opportunity to resubmit within four weeks, without further charge. In this instance, you will be provided with a template for your resubmission and asked to highlight any changes you make to your original application. Once you submit your revised application, the same reviewers will make a final judgement to either award Associate Fellowship or that the application is unsuccessful.

8.5 Outcome of second review (resubmission)

Outcome 2: Award

If the reviewers’ consensus judgement on your resubmission is that your revised application meets the requirements of Descriptor 1 then you will be awarded Associate Fellowship.

Outcome 2: Unsuccessful

If the reviewers judge that despite revisions, your resubmission does not fully meet the requirements of Descriptor 1 then the final judgement is ‘unsuccessful’. In this instance, further feedback in Section 4 of the Panel Outcome and Feedback template will explain the unsuccessful judgement.

Please note that Section 1 of the Panel Outcome and Feedback template will be updated to show where Descriptor 1 criteria are met in the resubmission. The original reviewer feedback from the first review will remain unaltered in Sections 2 and 3 of the form; Section 4 will draw on the feedback in Sections 2 and 3 to explain the final outcome.

This is the end of the review process; any future application would incur a full fee.

Please note that any appeal would need to be related to the published Advance HE fellowship review process not being accurately followed and not the outcome of the review.
9. What if I have other questions?

If you have further questions or require further assistance, in the first instance please see our Frequently Asked Questions on the Advance HE website. Alternatively, please email fellowship@advance-he.ac.uk.
Advance HE helps HE and research be the best they can be.

We are a member-led, sector-owned charity that works with institutions and higher education across the world to improve higher education for staff, students and society. We are experts in higher education with a particular focus on enhancing teaching and learning, effective governance, leadership development and tackling inequalities through our equality, diversity and inclusion (EDI) work.

Our strategic goals to enhance confidence and trust in HE, address inequalities, promote inclusion and advance education to meet the evolving needs of students and society, support the work of our members and the HE sector.

We deliver our support through professional development programmes and events, Fellowships, awards, student surveys and research, providing strategic change and consultancy services and through membership (including accreditation of teaching and learning, equality charters, knowledge and resources).
