Notes regarding insurance

1.1 Health Insurance cover
The University does not provide health insurance for anyone. We do have a Travel Insurance policy which covers, among others, our students travelling abroad on their exchange year, and gives them good emergency medical costs cover. However, it does not apply to students coming to us, and we would expect them to arrange their own insurance, either through their home university or on a personal basis.

1.2 Accident insurance (for damages caused to the student)
The University has an Employers Liability policy, which covers damages/injury caused to employees, through the University’s negligence. The definition of ‘employee’ is wider than just a member of staff, and extends to cover people on work placements. The student would therefore be covered by this policy for any damages/injury sustained, while in the workplace, due to the university’s negligence.

1.3 Liability insurance (for damages caused by student)
The University has a Public Liability policy, which covers damages caused to 3rd parties, through the University’s negligence. As the student will be under the supervision of the University while in the workplace, any damages/injury caused by the student will be covered. If damages/injury are to an employee they would be covered under our Employers Liability policy (see 1.2 above)

Should you have any further questions regarding insurance for Erasmus trainees, please do not hesitate to contact the Erasmus Unit - erasmus@abdn.ac.uk or x3664.
