

Global Challenge Research Fund Workshop focused on Food and Nutrition - 25 August 2017

The Grants Academy hosted a workshop on the Global Challenge Research Fund focused on *Health and Nutrition*. Providing an Overview, Vision and Strategy, Case Studies, Intelligence on what is being funded, break-out groups to discuss Aberdeen strengths, and to develop bids, identifying strengths and areas for support.

We identified three areas of focus for the breakout sessions (Womens' Health, Nutrition, Population Surveillance). Sessions focused on i) how we approach identifying demand-led opportunities in these areas, ii).

UoA Research strengths / UoA staff who may be best positioned to apply for GCRF calls in these areas and iii) what support UoA can provide to these staff with their applications.
