What people like and admire about me:
People think that I am funny, happy, and good at teamwork, a good listener and organised.

What’s important to me: Family, friends, job, money, home, being with family, getting around.

How to support me well at work: I need to look at directions as it sometimes takes me a while to learn where I am going. I need to have things explained to me sometimes more than once as I have short term memory loss.

Name: Dale Allan
