During interviews with both internal and external candidates, the University as a whole must include questions relating to equality and diversity interests and activities that candidates have previously been engaged in.

Example of questions may be:

- Can you provide me an example where you have changed your approach to Equality and Diversity?
- How would you enhance equal opportunities in their team, especially given our focus to achieving Athena swan?
- How do you see your role contributing to the objectives of Athena Swan/ Equality and Diversity?
- Where they aware of the University’s policy on equality and diversity?

If the candidate is struggling to answer the question, you just need to make them aware that we ask the questions at all interviews at the University so candidates understand at the interview stage that the University is committed to creating a positive and supportive working environment where staff are equally valued and the diversity of staff and students is valued.
