Scotland-Europa FP9 Consultation Event – 31 January 2018
The University of Aberdeen hosted a consultation event on future European Research and Innovation Policy. The event provided an opportunity for businesses, academics and others to influence the next European Research and Innovation Framework Programme (FP9), which will replace Horizon 2020 and is expected to cover the period 2021-2027. Presentations included an Introduction to Scotland's Research and Innovation Policy, an outline of current projects from the Centre of Transport Research, who are benefiting from European funding and information on the 9th Framework Programme development agenda.

- Framework Programme 9 consultation - Scottish Government context - January 2018
- Nelson - Scotland Europa Jan 2018
- Scottish Goverment Consultation
