

## Adding Prizes or Awards to Pure

### Activity Template: Prizes, Distinctions and Awards

#### Prize types covered:

- Election to learned society
- Awards, Distinctions, Medals, and Prizes
- Appointment
- Other distinction
- National/International honour
- Honorary Degree

Please note that this template is for adding prizes, distinctions and other esteem factors to Pure. Awards in this context refers to a prize or other mark of recognition given in honour of an achievement.

If you need to add grant funding, or any financial award from research councils, charities, and other funding bodies, please see our [synchronised content](#) web page.

#### Information required:

##### Type

Type

Election to learned society ▼

The type of prize, distinction, etc., is displayed at the top of the template, use the drop-down selection to change the type if required

##### Prize information

Title \*

Add the title of the prize, distinction or award

Description

Use the description box to provide details about the prize, distinction or award.

Awarded date

Year \*

Month

Day

Add the date the prize was awarded, or the distinction achieved.

Degree of recognition

No value ▼

Add the degree of recognition for the Prize

Granting Organisations

Add granting organisation

Awarded at event

Add event...

Add the organisation that awarded the prize and/or the event where the prize was received

Persons/organisations

---

Recipients \*

 <b>University of Aberdeen</b> , Recipient	Edit -
Internal person	
 <b>University of Aberdeen</b>	-
Organisational unit: Discipline	

---

Prize managed by

Managing organisational unit \*

 **University of Aberdeen**

Organisational unit: Discipline

Your name and role will be prepopulated. If the prize or distinction involved other colleagues (internal or external), click add person to add their details.

If their name is not found in the person search you can use the create external person button to add their details. Click create to add the person to the record

Documents and files

---

Documents

Links

Where relevant, you can attach documents to the record, however, please check that you have the appropriate permission/authorisation to upload any documents. Documents can be added as Backend - restricted or confidential, and do not have to be public, even if the overall record is public and visible on the research portal.

Pure supports multiple document and media formats including PDF, WMV, PNG.

You can also add links to any websites or social media channels relevant to the prize or distinction.

Keywords ⓘ

---

KEYWORDS

---

ASJC SCOPUS SUBJECT AREAS

*There are no associations*

Keywords are not mandatory; however, you can add them to increase discoverability of the record.

## Relations ?

### Activities

### Research outputs

### Prizes

### Press/Media

### Projects

### Impacts

### Datasets

### Facilities/Equipment

### Student theses

Relations to other content in Pure can be added as necessary, the most common relation is to research outputs. Click the icon under the relevant content type to search for and connect items to the press/media record.

## Visibility ?

Public - No restriction ▼

If you would like the information to be available on the research portal, make sure you select Public- no restriction option in the visibility section, otherwise mark the record as 'Backend - restricted to Pure users', or 'Confidential - restricted to associated users and editors'.

Status:  ▼

Finally, remember to save your entry. Once saved, your entry will appear in your Pure profile as "For approval". Once your entry has been checked and approved, any public records will appear in the research portal.

### JBS Haldane Lecture

Pettitt, Jonathan (Recipient)  
 Medical Sciences, Institute of Medical Sciences  
Prize: Awards, Medals, Prizes and Distinctions

---

#### Description

The genetics Society is delighted to announce that Jonathan Pettitt is the winner of the 2020 JBS Haldane Lecture.

Jonathan Pettitt is a Reader in Genetics at the University of Aberdeen. He has a long-standing interest in applying the manifold advantages of *C. elegans* to study the genetics of basic animal biology. His current research investigates the molecular basis of post-transcriptional RNA processing, including nematode-specific mechanisms; the understanding of which may facilitate the development of new drugs to treat parasitic nematode infections.

Jonathan is strongly committed to public engagement with genetics. He believes that the explosion in the availability and application of human genome sequence information, coupled with the development of genome engineering technology, means that there has never been a more urgent need to ensure genetic literacy beyond the traditional areas of research and healthcare.

As a passionate and enthusiastic communicator of genetics, Jonathan has written and presented a broad range of events, including 'The Cabaret of Dangerous Ideas' at the Edinburgh Fringe, the Royal Greenwich Observatory, the Royal Institution, and science festivals in Aberdeen, Edinburgh and Sofia, Bulgaria. He was the genetics consultant for Helen Keen's book, 'The Science of Game of Thrones'.

Jonathan will present his lecture at the Royal Institution in the autumn of 2020. Details to follow.

AWARDED DATE	2020
DEGREE OF RECOGNITION	International
