MyCurriculum: Overview for Personal Tutors

Version 2.0, 14/12/15

About MyCurriculum

MyCurriculum is the online course selection system for students at the University of Aberdeen. Using MyCurriculum and MyTimetable, students make their own course selection, and access personal timetables via a computer or mobile device. More information and supporting materials are available at: www.abdn.ac.uk/mycurriculum

Information for Personal Tutors

For those Personal Tutors who wish to do so, there is functionality within the system to display a list of your tutees along with their details and contact information as well as a facility to view the course choices they have made – this is on a read-only basis. The facility does exist to use the system to record notes against an individual student should you wish to do so.

Separate guidance on the use of MyTimetable is available at www.abdn.ac.uk/infohub/study/timetables-550
