

UNIVERSITY OF ABERDEEN

UNIVERSITY EDUCATION COMMITTEE

REPORT FROM THE EMPLOYABILITY & ENTREPRENEURSHIP COMMITTEE**23/03/2022****1. Matters Arising including review of Action Log**

1.1: The committee now has full representation from all Schools following the addition of Rafael Cardoso from the School of Natural and Computing Science.

1.2: As there is currently an Enhanced Transcript Review taking place it was decided that the Aberdeen Internship and InternPlus programmes will remain an accredited programme on the Enhanced Transcript until the review is complete.

2. Career Registration

On track for the launch of Career Readiness questions being part of the Aug/Sept 2022 Career Registration for new and returning students. Recently tested with Qatar students as part of Head of Service Tracey Innes' trip during which focus groups were conducted. Request made to the committee to share where possible the [survey link](#) with students they are engaging with to gather more data and insight.

Career Readiness questions to be for UG students only for now with PGT students to have slightly adapted questions ready for next year.

3. International Experience and Graduate Attributes & Skills Presentation

John Barrow recently gave a presentation to the 2040 UEC updating them on the work being carried out within the International Experience TFG and Graduate Attributes & Skills Working Groups. This presentation was shared with the EEC.

4. Graduate Outcome Steering Group

Suggestion from the GO Steering Group to have "GO School Leads" who would be the point of contact for all GO data ensuring it is being disseminated and discussed within Schools. Largely agreed within discussion that the EEC members who are the representation on the committee for their Schools would be best place to take on this role.

5. For information, no action required.**6. Further Information**

Further information may be obtained from Tracey Innes (t.innes@abdn.ac.uk), John Barrow (j.barrow@abdn.ac.uk) or Alisdair McKibben (amckibben@abdn.ac.uk).
