## Course selection information messages

As you complete your online course selection you may notice information messages at the top of the course selection page, for example:

**Message:** You do not hold the pre-requisites required to take **ME334H History of Medicine**. You are not able to take a non-compulsory course without holding the necessary pre-requisite(s) and must choose another course instead. Where the course is compulsory for your degree you may seek a Waiver of the pre-requisite by completing a Waiver Form which can be downloaded from the MyCurriculum FAQ.

**Action required:** Please send the completed form to the appropriate School.

**Please note that:**

- approval of a pre-requisite waiver will only be given exceptionally where there is good reason for your failure to pass the pre-requisite
- where a waiver has been granted for a pre-requisite course you are still required to pass the pre-requisite course before graduating
