

Am I eligible to apply to the Discretionary Fund?

UK Undergraduate Students (including PGDE students)

- Full-time UK students must have taken out the maximum student funding package, including a student loan, if eligible, and applied for the full amount to which they are entitled before receiving help from the government discretionary funds.
- Students are expected to have already exhausted all other possible sources of funding available to them.

UK Postgraduate Students

- All UK funded postgraduate students are eligible to apply to the government discretionary fund but must have taken out the maximum student funding package, including a student loan, if eligible, and applied for the full amount to which they are entitled before receiving help from the government discretionary funds.
- Students are expected to have already exhausted all other possible sources of funding available to them.

EU and International Students

- If you are an EU or an International student, you are not currently eligible for assistance from the discretionary funds. However you may wish to look at the University of Aberdeen's Funding Database to see if you are eligible for any further funding.
- If you are experiencing financial hardship and would like to talk to a Student Support Adviser for financial advice please call 01224 273935 to arrange an appointment.
