

Self help matters.

Helping you to find your solutions

Perfectionism

Top Tips

Journey. Focus on the process of doing an activity not just on the end result. Evaluate your success in terms of what you accomplished and how much you enjoyed it. Recognise that there can be value in the process of pursuing a goal.

Healthy Striving. Healthy goal-setters and healthy strivers tend to set goals based on their own needs and wants rather than in response to external expectations. Their goals are usually just one step beyond what they have already accomplished. Their goals are realistic, internal, and potentially attainable. When they experience disapproval or failure, their reactions are generally limited to specific situations rather than generalised to their entire self-worth.

Reality check. Being “perfect” is undesirable, impossible, counter-productive, selfish, self-defeating and an illusion.

Goals. Set realistic and reachable goals based on your own wants and needs and what you have accomplished in the past. This will enable you to achieve and also will lead to a greater sense of self-esteem.

Chronology. Set subsequent goals in a sequential manner. As you reach a goal, set your next goal one level beyond your present level of accomplishment.

Test yourself. Experiment with your standards for success. Choose any activity and instead of aiming for 100%, try for 90%, 80%, or even 60% success. This will help you to realise that the world does not end when you are not perfect.

Emotional barometer. Use feelings of anxiety and depression as opportunities to ask yourself, “Have I set up impossible expectations for myself in this situation?”

Fear check. Confront the fears that may be behind your perfectionism by asking yourself, “What am I afraid of? What is the worst thing that could happen?”

Embrace mistakes. Recognise that many positive things can only be learned by making mistakes. When you make a mistake ask, “What can I learn from this experience?”. More specifically, think of a recent mistake you have made and list all the things you can learn from it.

Resources
