

RIGHT WHEY study

Can a whey-based drink help improve your gut health?

We are looking for volunteers to study how a whey-based drink can improve your digestion

We are recruiting

- Healthy men and women aged 18-68 years
- Normal to overweight (BMI 18-35 kg/m²)
- Non-smokers
- Not currently following a vegan diet

Study visits will be held at the Rowett Institute, Foresterhill
