This fact sheet provides guidance for University staff and students who want to install Microsoft Office for home use on a Windows PC or laptop. While you are a member of staff or registered student at the University of Aberdeen you can install the latest version of Office 365 ProPlus on up to five personal devices, allowing you to use applications such as Word, Excel and PowerPoint under the University’s Office 365 licence. Your subscription will end when you leave the University.

In order to use Office 365 ProPlus you will need your University of Aberdeen IT account username as your installation is tied to your account.

Once you start installing Office 365 ProPlus, you must keep your computer “awake” and online until the installation is complete.

After installation, Microsoft will check the validity of your Office 365 licence in the background every 30 days. This should require no further action on your part. However, occasionally you may be prompted to sign in again.
