

Wireless Connection - iPad

You can use this guide to **manually** configure an iPad Wi-Fi or iPad Wi-Fi + 3G (iOS 9 or higher) to connect to the wireless service eduroam.

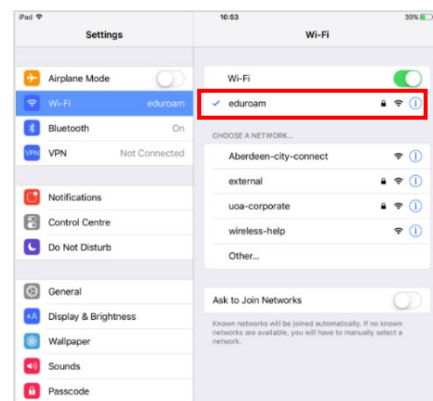

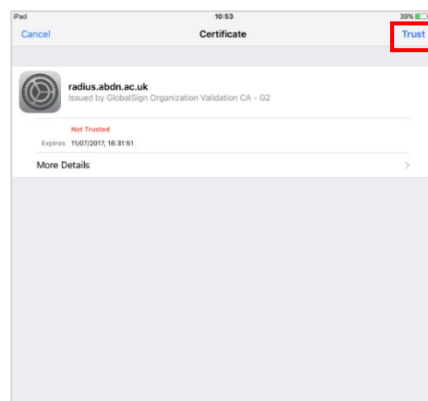

– **An automatic configuration tool SecureW2 is available [online](#), try this first!¹**

The screenshots in this guide were taken from iOS 9.3.2 and may vary. Please read instructions carefully as the text on some screenshots may not be fully visible.

1. Tap **Settings**
2. Tap **Wi-Fi**
3. Ensure Wi-Fi is **ON**
4. Tap **eduroam**
5. Type in *your* university **username@abdn.ac.uk** (eg u99jb19@abdn.ac.uk) and password and Tap **Join**

6. When the Certificate prompt is displayed, ensure that it states “radius.abdn.ac.uk” & tap **Trust**
7. When connected, a tick✓ appears next to eduroam
8. Return to the **Home** screen

More information is available online at www.abdn.ac.uk/wireless

¹ Note: From iOS 11 onwards, a profile is created for every Wireless connection added using SecureW2 (including wireless-help). To remove a profile go to Settings – General – Profile. Select the profile that is no longer needed or is no longer working due to a password change and choose Remove Profile.
