You can use this guide to **manually** configure an iPad Wi-Fi or iPad Wi-Fi + 3G (iOS 9 or higher) to connect to the wireless service eduroam.

- **An automatic configuration tool XpressConnect is available online, try this first!**

The screenshots in this guide were taken from iOS 9.3.2 and may vary. Please read instructions carefully as the text on some screenshots may not be fully visible.

1. Tap **Settings**
2. Tap **Wi-Fi**
3. Ensure Wi-Fi is **ON**
4. Tap **eduroam**
5. Type in your university **username@abdn.ac.uk** and password
6. Tap **Join**

7. When the Certificate prompt is displayed, ensure that it states “radius.abdn.ac.uk” & tap **Trust**
8. When connected, a tick ✔ appears next to eduroam
9. Return to the **Home** screen

More information is available online at [www.abdn.ac.uk/wireless](http://www.abdn.ac.uk/wireless)

---

1 Note: In iOS 11 a profile is created for every Wireless connection added using Xpress Connect (including wireless-help). To remove a profile go to Settings – General – Profile. Select the profile that is no longer needed or is no longer working due to a password change and choose Remove Profile.
