

WOMEN IN ENGINEERING CONFERENCE

MONDAY 30TH JULY –
WEDNESDAY 1ST AUGUST
2018

Girls aged 15-17 from schools across the UK are invited to apply for a fully funded place at this unique residential conference hosted by the University of Aberdeen

The conference, which is being run in partnership with St Margaret's School for Girls and is generously sponsored by Chevron, will provide a wonderful opportunity to explore engineering both in a university setting and in the workplace.

Staying in halls of residence supervised by experienced teachers, successful applicants will benefit from a travel bursary and a highly interactive programme rich with hands-on activities and face to face contact with female engineers.

A visit to the Integrated Operations Centre at Chevron's headquarters in Aberdeen will also allow participants to interact with engineers working on and offshore.

Application now open

- Only 50 places available
- Candidates selected on basis of application and school reference
- Apply before Wednesday 24th January 2018

The detailed programme of events is to be confirmed but a draft of the general outline of the conference is as follows:

MONDAY 30TH JULY

AM Participants arrive and register between 9am and 11am at the University of Aberdeen accommodation reception.

PM Ice breaker, engineering team challenge and choice of sport activities at Aberdeen Sports Village.

TUESDAY 31ST JULY

AM Chevron site visit including welcome breakfast with Chevron Upstream Europe Managing Director Greta Lydecker, speed mentoring with female engineers and visits to integrated operations centre and emergency response room.

PM Engineering team challenge with academics from University of Aberdeen, keynote speech and formal dinner.

WEDNESDAY 1ST AUGUST

AM Engineering career talks from female engineers, postgraduate and undergraduate students and academics. Team presentations. Depart at 12pm.

Visit www.abdn.ac.uk/engineering/events/12427 to apply
