

FutureLearn Campus courses

You have full access to FutureLearn Campus courses and will get a certificate on completion of any of these. There are around 650 courses in total, with more than 60 relating to digital topics.

To access these courses:

1. Go to [University of Aberdeen FutureLearn Campus](#) home page.
2. Click **Start learning now** and follow the on-screen instructions.
3. You will need to have access to your student email address. FutureLearn will send a verification code to this address.
4. You may be asked to create a FutureLearn account.
5. On the [FutureLearn Campus Start Learning](#) page click the **Browse courses and start learning** button.
6. Make sure **Included in FutureLearn Campus** is selected from the filters on the left-hand side.
7. Choose the **IT and Computer Science** subject if you wish to narrow it down to digital skills courses.
8. When you click **Join course** you will be given three options. Choose the 'FutureLearn Campus' option. This will grant you a free digital upgrade, and will allow your university to monitor your progress in the course. You can choose one of the other options if you would prefer *not* to share your progress with your university, but you will not get the benefits of joining with Campus.
